**Mobility and Corporeality in Nineteenth- to Twenty-First-Century Anglophone Literature** Jaine

Chemmachery, Bhawana Jain, 2021-05-19 *Mobility and Corporeality in 19th and 21st Century Anglophone Literature: Bodies in Motion* aims at exploring the intersection of literary, mobility and body studies in Anglophone literature from the 19th century to the 21st century. Corporeal mobility includes a variety of mobile bodies that have long been othered and marginalised due to issues pertaining to gender, disability, race, and class. Yet there is a relative lack of academic work on it, despite the fact that Anglophone literature has increasingly portrayed the circulation of characters, objects, and information since the 19th century, echoing the many types of mobility that have occurred through processes of colonisation, decolonisation and globalisation. This book, therefore, discusses the ways in which literatures produced in the English-speaking world challenge normative depictions of bodies on the move and reconceptualise them by making corporeality an essential feature of movement across the world.

**The New Annotated H. P. Lovecraft** H.P. Lovecraft, 2014-10-06 Finalist for the HWA's Bram Stoker Award for Best Anthology Named one of the Best Books of the Year by Slate and the San Francisco Chronicle From across strange aeons comes the long-awaited annotated edition of "the twentieth century's greatest practitioner of the classic horror tale" (Stephen King). With an increasing distance from the twentieth century...the New England poet, author, essayist, and stunningly profuse epistolary Howard Phillips Lovecraft is beginning to emerge as one of that tumultuous period's most critically fascinating and yet enigmatic figures, writes Alan Moore in his introduction to *The New Annotated H. P. Lovecraft*. Despite this nearly unprecedented posthumous trajectory, at the time of his death at the age of forty-six, Lovecraft's work

had appeared only in dime-store magazines, ignored by the public and maligned by critics. Now well over a century after his birth, Lovecraft is increasingly being recognized as the foundation for American horror and science fiction, the source of incalculable influence on succeeding generations of writers of horror fiction (Joyce Carol Oates). In this volume, Leslie S. Klinger reanimates Lovecraft with clarity and historical insight, charting the rise of the erstwhile pulp writer, whose rediscovery and reclamation into the literary canon can be compared only to that of Poe or Melville. Weaving together a broad base of existing scholarship with his own original insights, Klinger appends Lovecraft's uncanny oeuvre and Kafkaesque life story in a way that provides context and unlocks many of the secrets of his often cryptic body of work. Over the course of his career, Lovecraft—the Copernicus of the horror story (Fritz Leiber)—made a marked departure from the gothic style of his predecessors that focused mostly on ghosts, ghouls, and witches, instead crafting a vast mythos in which humanity is but a blissfully unaware speck in a cosmos shared by vast and ancient alien beings. One of the progenitors of weird fiction, Lovecraft wrote stories suggesting that we share not just our reality but our planet, and even a common ancestry, with unspeakable, godlike creatures just one accidental revelation away from emerging from their epoch of hibernation and extinguishing both our individual sanity and entire civilization. Following his best-selling *The New Annotated Sherlock Holmes*, Leslie S. Klinger collects here twenty-two of Lovecraft's best, most chilling Arkham tales, including *The Call of Cthulhu*, *At the Mountains of Madness*, *The Whisperer in Darkness*, *The Shadow Over Innsmouth*, *The Colour Out of Space*, and others. With nearly 300 illustrations, including full-color reproductions of the original artwork and covers from *Weird Tales* and *Astounding Stories*, and more than 1,000 annotations, this volume illuminates every dimension of H. P. Lovecraft and stirs the Great Old Ones in their millennia of sleep.

**Lyotard, Literature and the Trauma of the differend** D. Sawyer, 2014-05-23 This original study examines Jean-François Lyotard's philosophical concept of the differend and details its unexplored implications for literature. It provides a new framework with which to understand the discourse itself, from its Homeric beginnings to postmodern works by authors such as Michael Ondaatje and Jonathan Safran Foer.

**Lacan and Other Heresies** Linda Clifton, 2021-09-30 This volume gathers together the recent writings of the analysts and members of the Freudian School of Melbourne and the Belgian analyst Christian Fierens, displaying the ongoing interrogation by the School of Lacanian psychoanalysis into its history, theories and practices. Within the framework of Lacan's interventions in Freudian psychoanalysis, the book in particular highlights Lacan's inventions in theoretical discourse and clinical practice, including the no-sexual relation, the discursive structures of language, the school, the cartel and the pass. Theoretical shibboleths such as the Oedipus complex are questioned, while the historical writings of Sabina Spielrein are read and interpreted anew. Chapters also engage with the psychoanalysis of children, the questions posed by the psychoses to psychoanalysis and the intersection of creativity and the arts in new and original ways. Bringing together a

range of expert contributions, this text will be an illuminating resource for scholars and practitioners of psychoanalysis.

*Form and Event* Carlo Diano, 2020-07-07 Carlo Diano's *Form and Event* has long been known in Europe as a major work not only for classical studies but even more for contemporary philosophy. Already available in Italian, French, Spanish, and Greek, it appears here in English for the first time, with a substantial Introduction by Jacques Lezra that situates the book in the genealogy of modern political philosophy. *Form and Event* reads the two classical categories of its title phenomenologically across Aristotle, the Stoics, and especially Homer. By aligning Achilles with form and Odysseus with event, Diano links event to embodied and situated subjective experience that simultaneously finds its expression in a form that objectifies that experience. Form and event do not exist other than as abstractions for Diano but they do come together in an intermingling that Diano refers to as the "eventic form." On Diano's reading, eventic forms interweave subjectively situated and embodied experiences, observable in all domains of human and nonhuman life. A stunning interpretation of Greek antiquity that continues to resonate since its publication in 1952, *Form and Event* anticipates the work of such French and Italian post-war thinkers as Gilles Deleuze, Alain Badiou, Roberto Esposito, and Giorgio Agamben.

**Balance** Glenn Hubbard,Tim Kane,2013-05-21 In this groundbreaking book, two economists explain why economic imbalances cause civil collapse—and why America could be next. From the Ming Dynasty to Ottoman Turkey to Imperial Spain, the Great Powers of the world emerged as the greatest economic, political, and military forces of their time—only to collapse into rubble and memory. What is at the root of their demise—and how can America stop this pattern from happening again? A quarter century after Paul Kennedy's *Rise and Fall of the Great Powers*, Glenn Hubbard and Tim Kane present a bold, sweeping account of why powerful nations and civilizations break down under the heavy burden of economic imbalance. Introducing a profound new measure of economic power, *Balance* traces the triumphs and mistakes of imperial Britain, the paradox of superstate California, the long collapse of Rome, and the limits of the Japanese model of growth. Most importantly, Hubbard and Kane compare the twenty-first century United States to the empires of old and challenge Americans to address the real problems of our country's dysfunctional fiscal imbalance. Without a new economics and politics of balance, they show the inevitable demise ahead.

**Dealing with Death** Oliver Nahm,2017 Any sentence that begins 'All societies have' is either baseless or banal. Oliver Nahm sets out to disprove this statement, made by the renowned anthropologist Clifford Geertz. Analyzing the beliefs, myths, and legends of different religious groups surrounding death and dying, author Nahm shows that behind the façade of diversity there lie the same needs which are in turn met by similar solutions. With an interdisciplinary approach, Nahm uncovers important commonalities between diverse societies and demonstrates that such findings are neither baseless nor banal. Dissertation. **Brainwashed** Sally Satel,Scott O. Lilienfeld,2013-05-16 This provocative account of our obsession with neuroscience brilliantly illuminates what contemporary neuroscience and brain imaging can and cannot tell us about ourselves, providing a much-needed reminder about the many factors that make us who we are. What can't neuroscience tell us about ourselves? Since fMRI -- functional magnetic resonance imaging -- was introduced in the early 1990s, brain scans have been used to help politicians understand and manipulate voters, determine guilt in court cases, and make sense of everything from musical aptitude to romantic love. In *Brainwashed*, psychiatrist and AEI scholar Sally Satel and psychologist Scott O. Lilienfeld reveal how many of the real-world applications of human neuroscience gloss over its limitations and intricacies, at times obscuring -- rather than clarifying -- the myriad factors that shape our behavior and identities. Brain scans, Satel and Lilienfeld show, are useful but often ambiguous representations of a highly complex system. Each region of the brain participates in a host of experiences and interacts with other regions, so seeing one area light up on an fMRI in response to a stimulus doesn't automatically indicate a particular sensation or capture the higher cognitive functions that come from those interactions. The narrow focus on the brain's physical processes also assumes that our subjective experiences can be

explained away by biology alone. As Satel and Lilienfeld explain, this neurocentric view of the mind risks undermining our most deeply held ideas about selfhood, free will, and personal responsibility, putting us at risk of making harmful mistakes, whether in the courtroom, interrogation room, or addiction treatment clinic. Although brain scans and other neurotechnologies have provided groundbreaking insights into the workings of the human brain, *Brainwashed* shows readers that the increasingly fashionable idea that they are the most important means of answering the enduring mysteries of psychology is misguided -- and potentially dangerous.

**Andy Grove** Richard S. Tedlow, 2007 Brilliant, brave, and willing to defy conventional wisdom, Andy Grove, the CEO of Intel during its years of explosive growth, is on the shortlist of America's most admired businesspeople. Grove gave Tedlow unprecedented access to his private papers, along with wide-ranging interviews and access to friends and key business associates. The result is not just a life story but a fascinating analysis of how Grove attacks problems. Born a Hungarian Jew in 1936, András István Gróf survived the Nazis only to face the Soviet invasion of his country. He fled to America at age twenty, studied engineering, and arrived in Silicon Valley just in time to become the third employee of Intel. As talented as he was as an engineer, Grove became an even better manager. Tedlow shows us exactly how the penniless immigrant taught himself to lead a major corporation through some of the toughest challenges in the history of business.--From publisher description.

The Call of Cthulhu H.P. Lovecraft, 2022-02-22 The essential literary collection of H. P. Lovecraft's ten finest short

stories, from the celebrated editor of the two-volume New Annotated H. P. Lovecraft. An indispensable collection of the best of one of literature's "most critically fascinating and yet enigmatic figures" (Alan Moore), featuring H. P. Lovecraft's most bone-chilling tales, including: "Dagon", "The Outsider", "The Music of Erich Zann", "The Rats in the Walls", "The Call of Cthulhu", "The Colour Out of Space", "The Dunwich Horror", "The Shadow over Innsmouth", "The Shadow Out of Time" and "The Haunter of the Dark". Though he died an unknown, dejected pulp-magazine writer in 1937, Howard Phillips Lovecraft is now considered the first great "genius of weird fiction" (Peter Straub). There is no better guide through the peculiarities of his universe than Leslie S. Klinger, whose work as annotator of the "exciting and definitive" (Danielle Trussoni, New York Times Book Review) New Annotated H. P. Lovecraft has proven him a leading Lovecraft scholar. Keenly aware of the author's inspiration of "dozens—hundreds—of stories written by others playing in [his] galactic sandbox," Klinger now presents this essential reader's edition for both fanatics and newcomers to the canon. Equipped with explanatory annotations and sharp historical insight, this highly accessible collection features Lovecraft's ten most profound and unnerving short stories. From the early tale "Dagon" to the mature and sprawling "The Haunter of the Dark," these expertly curated stories built a Lovecraftian sense of dread that has reverberated in the world of horror literature for generations: that all of us are "outsiders" in the universe.

**Children and Childhoods 3** Katey De Gioia, Peter Whiteman, 2014-06-02 Immigrant and Refugee Families is about crossing borders – something that many people do every day. Crossing borders is not a new endeavour. This activity has a protracted history and can be traced back to before the Common Era. Sometimes people choose to cross borders, perhaps seeking new adventure, employment or personal fulfilment. Sometimes people are forced to flee their country of origin in an effort to avoid armed conflict or abuse of their human rights. The shaping of national policies and the manner in which a nation positions itself on the international stage draw heavily on crossing borders, both inward and outward. Additionally, there exists an obligation to understand relationships with and within immigrant and refugee groups. Empowering children and families, comprehending and appreciating dynamic connections to cultural heritage and fashioning responsive actions to needs and expectations are at the core of place and identity. Immigrant and Refugee Families provides insights into some of the complex issues faced by those who cross borders. It invites ongoing discussion around practices of empowering immigrant and refugee children and families when settling into their new country.

*The Path to the Guru* Scott Teitsworth, 2014-06-09 A verse-by-verse examination of the guide to self-transformation presented in the Bhagavad Gita • Reveals the scientific approach to personal development and spiritual enlightenment laid out in Krishna's advice to Arjuna • Shows how the Gita prepares you to work with a guru, advocating authenticity and skepticism rather than blind devotion and obedience • Explores Krishna's advice on which societal limitations to reject to overcome your fears and reconnect with the suppressed parts of your inner being Drawing on his more than 40 years of in-

depth study of Indian Philosophy under the tutelage of his guru, Nitya Chaitanya Yati, author Scott Teitsworth explores the scientific approach to self-transformation and spiritual enlightenment encoded in Krishna's advice to Arjuna in the Bhagavad Gita. Providing a verse-by-verse examination of the first two chapters, he reveals the Gita's lessons to prepare the seeker to meet and successfully work with a guru--whether an outside teacher or the intuitive knowledge that arises from overcoming the psyche's learned limitations. The author shows that the Gita does not advocate blind devotion to a guru or god but rather personal development, victory over your fears, and liberation of the psyche. He demonstrates how Krishna's advice provides tools to guide us out of our fear-based experiences to reconnect with the suppressed parts of our inner being. He explains how Arjuna's doubts and confusions represent the plight of every person--we are born free but gradually become bogged down by the demands of our society, continuously dependent on outside authority for answers and disconnected from our true inner nature. He reveals how Krishna's advice offers guidance for dealing with life's conflicts, which societal limitations to reject, and how to see through the polarizing notion of good versus evil to form a balanced state of mind superior to both. Restoring the fearless vision of the ancient rishis, who, like today's scientists, prized skepticism as an important technique for accessing truth, Teitsworth reveals the Gita as a guide to an authentic guru-disciple relationship as well as to constructing a life of significance, freedom, and true sovereign adulthood.

**Crossing Back** Marianna De Marco Torgovnick, 2021-09-14 From the award-winning author of *Crossing Ocean Parkway*, a personal memoir about adjusting to loss through books, meditation, and the process of memory itself Marianna De Marco Torgovnick experienced the rupture of two of her life's most intimate relations when her mother and brother died in close proximity. Mourning rocked her life, but it also led to the solace and insight offered by classic books and the practice of meditation. Her resulting journey into the past imagines a viable future and raises questions acute for Italian Americans but pertinent to everyone, about the nature of memory and the meanings of home at a time, like ours, marked by cultural disruption and wartime. *Crossing Back: Books, Family, and Memory without Pain* presents a personal perspective on death, mourning, loss, and renewal. A sequel to her award-winning and much-anthologized *Crossing Ocean Parkway*, *Crossing Back* is about close familial ties and personal loss, written after the death of her remaining birth family, who had always been there, and now were not. After their loss, she entered a spiritual and psychological state of "transcendental homelessness": the feeling of being truly at home nowhere, of being spiritually adrift. In a grand act of symbolic reenactment, she found herself moving apartments repeatedly, not realizing she did so subconsciously to keep busy, to stave off grief. By reading and studying great books, she opened up to mourning, a process she constitutionally resisted as somehow shameful. Over time, she discovered that a third death colored and prolonged her feelings of grief: her first child's death in infancy, which, in the course of a happier lifetime, had never been adequately acknowledged. Her new losses led her finally to take stock of her son's death too. Reading and meditating, followed by writing, became daily her healing rituals. A warm and intimate user's

guide to books, family, and memory in the mourning process, the end-point being memory without pain, *Crossing Back* is a wide-ranging memoir about growing older and learning to ride the waves of change. Lively and conversational, Torgovnick is masterful at tracking the moment-to-moment, day-to-day challenges of sudden or protracted grief and the ways in which the mind and the body seem to search for—and sometimes find—solutions.
