**A Closer Look at Juvenile Homicide** Katelyn A. Hernandez, Sara Ferguson, Tom D. Kennedy, 2020-02-29 This book focuses on the small but disturbing percentage of homicides by children that occur each year, providing a brief overview of the legal, individual, and social aspects of this phenomenon. Since the 1980s, these crimes have been on the rise and the resulting legal response has been harsher punishments as well as treatment of children like adults. This has led to a host of failures in the juvenile justice system wherein recidivism is high and general outcome is low. The book reviews the literature on youth homicide, including gender, age, and race factors, as well as individual, familial, and environmental risks. The authors seek to aid in the identification and understanding of juvenile homicide to raise awareness of both a population that receives little formal psychological intervention and of the systemic deficiencies that affect these individuals as well as society itself. Exploring current theories, trends, and common factors in juvenile homicide, this brief aims to improve prevention, intervention, and reintegration of young offenders into the community.

**Revolution at the Roots** William D. Eggers, John O'Leary, 1995 A revolution is sweeping across America's states and cities. From governors such as Christine Todd Whitman in New Jersey, to New York's mayor Rudy Guiliani in New York, the revolutionaries are not just against big government, but also distant government. Groups of citizens have banded together with these enterprising leaders to experiment with a wide range of new approaches to governance--the future of political change in America.

*Ghosts from the Nursery* Robin Karr-Morse, Meredith S. Wiley, 2007-12-01 An "ominous and persuasive" study of when violence starts in child development—and the preventive measures to stop it (The New York Times Book Review). This new, revised edition incorporates significant advances in neurobiological research and includes a new introduction by Dr. Vincent J. Felitti, a leading researcher in the field. When *Ghosts from the Nursery: Tracing the Roots of Violence* was first published, it was lauded for providing scientific evidence that violence can originate in the womb and become entrenched in a child's brain by preschool. The authors' groundbreaking conclusions became even more relevant following the wave of school shootings across the nation including the tragedies at Columbine High School, Sandy Hook Elementary School, and shocking subsequent shootings. Following each of these, media coverage and public debate turned yet again to the usual suspects concerning the causes of violence: widespread availability of guns and lack of mental health services for late-stage treatment.

Discussion of the impact of trauma on human life—especially early in life during chemical and structural formation of the brain—is missing from the equation. Karr-Morse and Wiley continue to shift the conversation among parents and policy makers toward more fundamental preventative measures against violence. “Karr-Morse and Wiley boldly raise some tough issues . . . [They] start with a grim question—why are children violent?—and they forge a passionate and cogent argument for focusing our collective energies on infancy and parenthood to stop the cycle of ruined lives.” —The Seattle Times

Bloodstains on the Cocaine Trail Peter Clack, 2023-11-10 A homicide crisis began sweeping America after massive quantities of cocaine first began their journey into America in 1986. Drugs were trucked along the highways of the Cocaine Trail to every city in America. This influx of a deadly new drug led directly to a series of record deaths from overdoses, suicides and crime-related murders, family breakdowns and destroyed lives. Drugs are credited with driving the highest homicide rates in American history and a raging turf war between street gangs. Crack cocaine unleashed a brutal era of violence, placing newspapers under enormous pressure to provide coverage. Relations with police were breaking down everywhere and crime coverage was in its death throes. Newspapers could not cover the homicides or give any context or explanations to such a social upheaval. Editors, reporters and police now reveal the shocking truth behind this agonizing episode in American history, when crime reporters had to re-invent journalism to get behind the police blue code. This book combines investigative journalism and narrative style to produce a rare portrait from within the secret inner world of newspapers.

*No Easy Walk* Harry Louis Williams, 1998 Harry Williams traces the long, difficult and courageous journey of African Americans through history.

*Gangland* Laura L. Finley, 2018-10-01 This two-volume set integrates informative encyclopedia entries and essential primary documents to provide an illuminating overview of trends in gang membership and activity in America in the 21st century. *Gangland: An Encyclopedia of Gang Life from Cradle to Grave* includes extended discussion of specific gangs; types of gangs based on ethnicity and environment (rural, suburban, and urban); recruitment and retention methods; leadership structure and other internal dynamics of various gangs; impacts of gang membership on extended family; the historical evolution of gangs in American society; depictions of gang life in popular culture; violent and nonviolent gang activities; and programs, policies, agencies, and organizations that have been crafted to combat gang activities. In addition, the encyclopedia includes a suite of primary sources that offer a look into the personal experiences of gang members, examine efforts by law enforcement and public officials to address gang activity, and address wider societal factors that make eradicating gangs such a difficult task.

**Criminal Law Case Studies** Paul H. Robinson, 2007

*Up in Here* Mark Dostert, 2014-09-01 Raised in a comfortable Dallas suburb, Mark Dostert crossed cultural and

socioeconomic boundaries as a college student by volunteering as a counselor at the Cook County Juvenile Temporary Detention Center, Chicago's infamous 500-cell juvenile jail, known locally as the Audy Home. Inmates there had been indicted on first-degree murder, rape, and carjacking charges, yet some enthusiastically met with him for weekly Bible-based lessons and discussions. Dostert formed friendly relationships with his students and envisioned becoming an even closer mentor to the legally troubled boys when he became an employee there after graduating from college. The juveniles' attitudes toward Dostert change, however, once he begins working as a "Children's Attendant" at the Audy Home, clocking in for eight hours every day to enforce rules and maintain order on the cellblocks. His colorblind, altruistic volunteer world fractures into a full-time, emotionally charged reality of white and black and brown. When the boys change, he must change too. Despite wanting to help them feel human in such a dehumanizing environment, Dostert realizes he needs to make sure his kindness is not perceived as weakness. Dostert learns to march the juveniles through the facility to school, recreation activities, and chapel. He must strip-search them, interrupt their brawls, root through their cells for drugs and handcrafted weapons, and monitor group showers to thwart sexual extortion and the inscription of gang symbols in soap on walls and mirrors. Week after week and month after month, the job exposes hidden views not only of the juveniles and the "system" incarcerating them, but of Children's Attendant Dostert himself. From one man's struggle to reconcile his humanitarian intentions with his actual job responsibilities in what, to him, is a strange new world, emerges a sincere effort to confront the realities of America's persisting racial tensions and institutionalized poverty. Dostert's story is an honest and unflinching journey from thinking he has many of the answers for how to change this world to discovering how little he really knows about the world he is trying to change.

**The Joy of Sax** Walter M. Brasch, 2008-12 Walter Brasch is the most informed, opinionated, witty, and delightful commentator on the media scene today. -Aspen Media Review Like two of his role models, Thomas Jefferson and John F. Kennedy, Bill Clinton was one of the nation's most dynamic and effective presidents, and like his mentors, he was one of the most vilified. He left office with one of the highest approval ratings for his personal moral conduct. He would affect Americans like few people ever could, and no one could be neutral.

Voice, Choice, and Action Felton Earls, Mary Carlson, 2020-09-15 Young people have the potential to educate and inspire their communities, if only adults will listen to them. Felton Earls and Mary Carlson have spent decades listening to children and encouraging them to use their voices for social change.

**Would You Convict?** Paul H. Robinson,1999-09-01 A police trooper inspects a car during a routine traffic stop and finds a vast cache of weapons, complete with automatic rifles, thousands of rounds of ammunition, and black ski masks-a veritable bank robber's kit. Should the men in the car be charged? If so, with what? A son neglects to care for his elderly mother, whose emaciated form is discovered shortly before she dies a painful death. Is the son's neglect punishable, and if so how? A career con man writes one bad check too many and is sentenced to life in prison-for a check in the amount of \$129.75. Is this just? A thief steals a backpack, only to find it contains a terrorist bomb. He alerts the police and saves lives, transforming himself from petty criminal to national hero. These are just a few of the many provocative cases that Paul Robinson presents and unravels in *Would You Convict?* Judging crimes and meting out punishment has long been an informal national pasttime. High-profile crimes or particularly brutal ones invariably prompt endless debate, in newspapers, on television, in coffee shops, and on front porches. Our very nature inclines us to be armchair judges, freely waving our metaphorical gavels and opining as to the innocence or guilt-and suitable punishment-of alleged criminals. Confronting this impulse, Paul Robinson here presents a series of unusual episodes that not only challenged the law, but that defy a facile or knee-jerk verdict. Narrating the facts in compelling, but detached detail, Robinson invites readers to sentence the transgressor (or not), before revealing the final outcome of the case. The cases described in *Would You Convict?* engage, shock, even repel. Without a doubt, they will challenge you and your belief system. And the way in which juries and judges have resolved them will almost certainly surprise you.

**Caring Hearts and Critical Minds** Steven Wolk,2023-10-10 Imagine if going to school meant more than preparing kids

for a test, teaching a canned curriculum, and training students for their future as workers. What if school were also about cultivating students to be caring, community-involved citizens and critical, creative thinkers who love to read? In *Caring Hearts & Critical Minds*, teacher-author Steven Wolk shows teachers how to help students become better readers as well as better people. I want [my students] to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues, says Leslie Rector, a sixth-grade teacher who collaborated with Wolk on some of the units featured in this book. Wolk demonstrates how to integrate inquiry learning, exciting and contemporary literature, and teaching for social responsibility across the curriculum. He takes teachers step-by-step through the process of designing an inquiry-based literature unit and then provides five full units used in real middle-grade classrooms. Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres, *Caring Hearts & Critical Minds* gives teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about'sfrom media and the environment to personal happiness and global poverty. Wolk shows teachers how to find stimulating, real-world complex texts called for in the Common Core State Standards and integrate them into literature units. I know from experience that a great book changes the reader, says Karen Tellez, an eighth-grade teacher featured in the book. For me, books have helped me escape, fall in love, recover from heartbreak, and have broken open my mind from the age of twelve. . . . I hope [my students] gain better reading comprehension, confidence as readers, connections to the characters and events, a curiosity for the world, and tolerance for others. *Caring Hearts & Critical Minds* shows teachers how to turn these hopes and goals into reality.
