The Chinese Face in Australia Lucille Lok-Sun Ngan, Chan Kwok-bun, 2012-06-07 The book explains how multi-generational Australian-born Chinese (ABC) negotiate the balance of two cultures. It explores both the philosophical and theoretical levels, focusing on deconstructing and re-evaluating the concept of 'Chineseness.' At a social and experiential level, it concentrates on how successive generations of early migrants experience, negotiate and express their Chinese identity. The diasporic literature has taken up the idea of hybrid identity construction largely in relation to first- and second-generation migrants and to the sojourner's sense of roots in a diasporic setting somewhat lost in the debate over Chinese diasporas and identities are the experiences of long-term migrant communities. Their experiences are usually discussed in terms of the melting-pot concepts of assimilation and integration that assume ethnic identification decreases and eventually disappears over successive generations. Based on ethnography, fieldwork and participant observation on multi-generational Australian-born Chinese whose families have resided in Australia from three to six generations, this study reveals a contrasting picture of ethnic identification.

Chinese Diaspora Politics in Australia Abigail Young, 2025-04-21 Integrating theory on diaspora politics and the growing academic area of non-state transnational repression, Young charts the historical and political evolution of the Chinese diaspora and examines Australia's approach to national security policies. In recent decades, Chinese migration has increased exponentially in Australia. For a society that has largely accepted racial homogeneity as a precursor to nationhood, contemporary Chinese migrants must find unique transnational spaces where they can belong in the hostland while maintaining important connections to the homeland. Young identifies the emergence of 'transnational social governance', a form of control that is perpetrated by the contemporary patriotic Chinese migrant (the xinqiao) against other Chinese migrants in Australia. It is a phenomenon facilitated by a feedback loop of the non-welcoming Australian society and well-established co-ethnic spaces, allowing for xinqiao to dominate Chinese diasporic communities and transfer Chinese Communist Party (CCP)-aligned narratives. Drawing upon statistical data and interview-based case studies, this book provides a comprehensive contextual and epistemological examination of the politics of the Chinese diaspora in Australia. A valuable resource for scholars, students, researchers, and professionals interested in the academic and popular perspectives

of diaspora politics affecting Australia-China relations.

Australian English - The National Language Gerhard Leitner, 2013-02-06 Australia's English raises many questions among experts and the general public. What is it like? How has English changed by being transplanted to other parts of the world? Does the rise of AusE and other varieties endanger the role of English as a world language? Past studies have often been selective, focusing on the esoteric and non-typical, and ignoring the contact situation in which Australian English has developed. This book and its companion, *Australia's Many Voices. Ethnic Englishes, Indigenous and Migrant Languages. Policy and Education*, develop and apply a comprehensive and integrative approach that anchors English in the entire 'habitat' of Australia's languages that it both upset and transformed. Based on a wide range of data and on the assumption that all manifestations of Australian English must cohere as a system, this book retraces the social, psycholinguistic and linguistic history of the language. It locates the contact with indigenous and migrant languages and with American English in the appropriate sociohistorical context and shows how several layers of migration have shaped it. As it stratified, it was gradually accepted and developed into a fully-fledged national variety or epicentre of English that could be raised to the status of national language. Implications on educational policy and attempts to reach out into the Asia-Pacific region have followed logically from national status. The study is of interest for specialists of English and Australian Studies as well as a range of other disciplines. Its discursive, non-technical style and presentation makes it accessible to non-specialists with no background in linguistics.

Imagined Australia Renata Summo-O'Connell, 2009 From Terra Nullius to Land of Opportunities and Last Frontier, the European dream has constructed and deconstructed Australia to feed its imagination of new societies. At the same time Australia has over the last two centuries forged and re-invented its own liaisons with Europe arguably to carve out its identity. From the arts to social sciences, to society itself, a complex dynamic has grown between the two continents in ways that invite study and discussion. A transnational research group has begun its collective investigation project of which this first volume is the outcome. The book is a substantial multidisciplinary collection of current research and offers critical perspectives on culture, literature and history around themes at the heart of the Imagined Australia project. The essays instigate reflection, discovery and discussion of how reciprocal imagining between Australia and Europe has articulated itself and ways and dimensions in which a relationship between communities, imagined and not, has unfolded.

Asylum Seekers and the State Claudia Tazreiter, 2017-03-02 Highly topical in subject matter, *Asylum Seekers and the State* reveals immigration policy as a political process which has social consequences not only for the newcomer group, but also for the wider receiver society. This work considers the obligations which receiver societies have for considering refugee

claims, but at the same time assesses contemporary security concerns; it also provides an introduction to the roles of non-government organizations as stake-holders in the political process. The book also offers a study of the historical and cultural context of immigration in Germany and Australia, which demonstrates the practical impact of these issues. Taking a fresh approach to the issue of asylum seekers and refugees, this book offers unique perspectives from non-state actors as significant brokers and advocates of social and political processes.

TAM KWONG Cameron Tam, 2023-06-14 This biography is about the life's journey of the late TAM Kwong through the eyes of his children growing up in Hong Kong and Brisbane from the 1960s. It entailed the times and life of a seafarer's journey sailing the seven sea from 1940s during the golden age in Shipping era and eventually settled in Brisbane in the 1970s. The writer's recollections of memories of his late father throughout different timelines at Pearl Sea (Zhuhai, Sanzao Dao, Guangzhou)/Hong Kong/Brisbane was turned to a collection of flashbacks, moments in time, portraying a historical account of a life lived through hard work, struggles and determination to succeed. The gallery of historical account was partly based on a manuscripts hand written by TAM Kwong in 1965 and skillfully built up to form the comprehensive account of a life that set the cornerstone to the foundation of the TAM's Clan in Brisbane. The book represents the culmination of years of research. Diligently researched over the years and densely informative. The author's work is a biography in full, and particularly rich on his father's character, personality, and his way of life. The writer paints a vast canvas of his father but still maintains a sharp focus on his character, his reactions to people and events around him. Each chapter contains a wealth of fascinating historical Information. It is especially touching to read his description of his father to whom the writer here offers a gracious tribute. Perhaps the most poignant section of the book is a collection of essays and reviews about his father. He has turned his memory of his father, among many others, into a virtual reality by display of various miniature models for those younger generations to capture their interest and brought his father's characteristic in exhaustive details. A wonderful sense of narrative pace and style, and surely a passion for his aim. The writer succeeds in portraying his parents come to life in this clearly written while entertaining and well-researched biography - an extraordinary piece of family historical account pieced together from scratches over the years. Overall, the book is engaging. Interspersed throughout the book are little asides of easy reading. There may be sensitively written vignettes from the life of his late father that Cameron is writing about, autobiographical episodes from his own life, or fanciful stories or determination. In short, densely intertwined with tales makes it nearly impossible for readers, once drawn in, to lose interest, an uncommon achievement of both style and substance. The real stuff is in the writer's individual pieces - passionate, thoughtful and, usually, enlightening ...riveting. The historical context of his father was well described by the writer while the strength of the book lies in the way he conveys his father's virtues and outlook on life, which are inspirational and educational for his children and progeny to follow. I would recommend that anyone living in Brisbane should read the book if they want to add or share the writer's memory (of course

in a less than pedantic way) of the development history of Brisbane in the recent decades as witnessed by the writer over the years. Looking back, an account of the embryonic growth of Brisbane is particularly lively and informative from the perspective of an ordinary resident ever since living through his boyhood and growing up in this wonderful city. There are many model displays of various scale for readers to visualize the scenes mentioned in the chapters and to capture readers' attention on some history events/places to arouse their interest from a historical perspective. As Dad's grandchildren are all born in Australia, hopefully the grandchildren and their progenies can get to know this mild mannered chef and pastry cook and learn how he shaped the family future in the land "Downunder" where "Women glow and Men thunder".

Across the Seas Klaus Neumann, 2015-05-31 Today, Australia's response to asylum-seeking 'boat people' is a hot-button issue that feeds the political news cycle. But the daily reports and political promises lack the historical context that would allow for informed debate. Have we ever taken our fair share of refugees? Have our past responses been motivated by humanitarian concerns or economic self-interest? Is the influx of 'boat people' over the last fifteen years really unprecedented? In this eloquent and informative book, historian Klaus Neumann examines both government policy and public attitudes towards refugees and asylum seekers since Federation. He places the Australian story in the context of global refugee movements, and international responses to them. Neumann examines many case studies, including the resettlement of displaced persons from European refugee camps in the late 1940s and early 1950s, and the panic generated by the arrival of Vietnamese asylum seekers during the 1977 federal election campaign. By exploring the ways in which politicians have approached asylum-seeker issues in the past, Neumann aims to inspire more creative thinking about current refugee and asylum-seeker policy. 'Klaus Neumann has written a humane, engrossing book imbued with the awareness that in telling the history of Australia, one tells the story of immigration. Immigrants — always resisted, always blasted by invective and ever essential to our society and polity — show us ourselves through the heroic journeys of ancestors, the recurrent frenzies of resistance, right up to our present parlous state as the most supposedly tolerant intolerant society on earth. But if you think you've read all this before, you should know Neumann has brought to this book a novelty of approach, a freshness of perception, that means all the others have been mere preparation.' Tom Keneally 'A riveting book, vast in scope and timely.' Arnold Zable 'Across the Seas is a call to remember, to rethink, and regenerate. And to overcome our culture of forgetting ... it's a fine and vital book - a work of highly accessible and gripping historical scholarship, which must be read by as many people in this country, and abroad, as possible.' David Manne 'Across the Seas' strongest point is a lack of dudgeon. Rather than condemn or mock historical players with thunderous prose and stylistic eye-rolling, Neumann plays it cool ... Neumann gives us a mature and measured consideration of an issue that will never cease to be complex.' Saturday Paper

Becoming an African Diaspora in Australia F. Ndhlovu, 2014-07-08 Becoming an African Diaspora in Australia extends

debates on identities, cultures and notions of race and racism into new directions as it analyses the forms of interactional identities of African migrants in Australia. It de-naturalises the commonplace assumptions and imaginations about the cultures and identities of African diaspora communities, and probes the relevance and usefulness of identity markers such as country of origin, nationality, ethnicity, ethnic/heritage language and mother tongue. Current cultural frames of identity representation have so far failed to capture the complexities of everyday lived experiences of transnational individuals and groups. Therefore by drawing on fresh concepts and recent empirical evidence, this book invites the reader to revisit and rethink the vocabularies that we use to look at identity categories such as race, culture, language, ethnicity, nationality, and citizenship, and introduces a new language nesting model of diaspora identity. This book will be of great interest to all students of migration, diaspora, African and Australian studies.

Haunting in Chinese-Australian Writing Xiao Xiong, 2023-06-26 This book examines haunting in terms of trauma, languaging, and the supernatural in works by Chinese Australian writers born in Australia, Mainland China, Hong Kong, Malaysia, and Singapore. It goes beyond the conventional focus on identity issues in the analysis of diasporic writing, considering how the memory of past trauma is triggered by abusive systems of power in the present. The author unpacks how trauma also brings past violence to haunt the present. This book considers how different Chinese diasporic communities present a dynamic and multiple state through partial erasure between different Chinese subcultures and other cultures. Showing the supernatural as a social and cultural product, this book elucidates how haunting as the supernatural refers to the coexistence of, and the competition between, different cultures and powers. It takes a wide-ranging view of different diasporic communities under the banner 'Chinese', a term that refers not only to Chinese nationals in terms of citizenship, but also to the Chinese diaspora in terms of ancestry, and Chinese culture more generally. In analysing haunting in texts, the author positions Chinese culture as in a constant state of flux. It is relevant to literary scholars and students with interests in Australian literature, Chinese and Southeast Asian migration writing, and those with an interest in the Gothic and postcolonial traditions.

Religion and Law in Australia Paul Babie, Joshua Neoh, James Krumrey-Quinn, Chong Tsang, 2022-11-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient resource provides systematic information on how Australia deals with the role religion plays or can play in society, the legal status of religious communities and institutions, and the legal interaction among religion, culture, education, and media. After a general introduction describing the social and historical background, the book goes on to explain the legal framework in which religion is approached. Coverage proceeds from the principle of religious freedom through the rights and contractual obligations of religious communities; international, transnational, and regional law effects; and the legal parameters affecting the influence of religion in politics and public life. Also covered are legal positions on religion in such specific fields as church financing, labour and employment, and matrimonial and family law. A clear and comprehensive overview of relevant legislation and

legal doctrine make the book an invaluable reference source and very useful guide. Succinct and practical, this book will prove to be of great value to practitioners in the myriad instances where a law-related religious interest arises in Australia. Academics and researchers will appreciate its value as a thorough but concise treatment of the legal aspects of diversity and multiculturalism in which religion plays such an important part.

State of the Nation Gwenda Tavan, 2015-01-29 A stunning collection of essays that analyses the major issues facing Australia today. This nation has a lot of unfinished business. Will we become a republic any time soon? How can we honour our Indigenous peoples and tackle the intractable disadvantage they face? What does our treatment of asylum seekers reveal about us? Will we have a proper debate the next time we go to war? In early 2013 La Trobe University held a conference in honour of Professor Robert Manne, at which papers were presented by thinkers Manne has worked or argued with, and whom he most admires. *State of the Nation* compiles these original essays. They include innovative explorations of multiculturalism, social democracy, the future for Labor and the challenge of climate change. This is a book that shows how Australia is faring, good and bad, as it enters a new era of politics. Contributors include Mark Aarons, Stefan Auer, Nicholas Barry, Peter Beilharz, David Corlett, Jean Curthoys, Patrick Dodson, Chris Feik, Raimond Gaita, Rhonda Galbally, Clive Hamilton, John Hirst, Ramona Koval, Martin Krygier, Carmen Lawrence, Geoffrey Brahm Levey, William Maley, Anne Manne, Russell Marks, Mark McKenna, David McKnight, Aurelien Mondon, A. The Changing Migrant Composition of Australia's Population Tom Wilson, Jeromey Temple, Peter McDonald, Ariane Utomo, Bianca Brijnath, 2021-10-29 This book looks at how Australia's migrant population composition is likely to change over coming decades. The book divides Australia's population into 48 countries of birth groupings and projects the birthplace populations out to 2066 according to the range of scenarios. These projections indicate a massive shift in Australia's migrant composition from a European to an Asian-dominated population over the coming decades—a change which can be interpreted as a third demographic transition. By providing detailed consideration of the implications of the changing population composition, this book is a great resource for academics, government and private sector services.

Immigration Waves Corbin Shepherd, 2025-05-06 *Immigration Waves* offers a comprehensive exploration of how immigration policies have shaped nations, focusing on the economic and cultural impacts of global migration. The book traces historical immigration patterns from the 19th century to the present, highlighting key periods like the mass migrations to the U.S. during the Industrial Revolution and the post-World War II era. It delves into the legislative history of immigration, analyzing laws such as the Immigration Act of 1924 and the Immigration and Nationality Act of 1965, revealing their intended goals and unforeseen consequences. The book argues that immigration is a dynamic process reshaping economies and cultures. For example, it examines how immigration fills labor market gaps and drives innovation, while also

addressing concerns about its impact on wages and employment. It also explores the cultural enrichment brought by immigrants, from new cuisines to diverse artistic expressions. Utilizing statistical data, legal analyses, and case studies, the book offers a nuanced understanding of immigration's multifaceted nature. Immigration Waves unfolds in three major sections: historical context, examination of significant immigration laws, and exploration of economic and cultural impacts. It connects to disciplines like economics, sociology, and political science, providing a holistic view aimed at students, policymakers, and anyone seeking informed discussions about immigration reform, border security, and citizenship.
