Aegyptiaca Romana Miguel John Versluys, 2015-08-27 This archaeological study investigates the meaning of the Egyptian and Egyptianising artefacts that have been preserved from the Roman world in different ways. Its point of departure is a detailed study on the so-called Nilotic scenes or Nilotic landscapes. The book presents a comprehensive and illustrated catalogue of the genre that was popular all around the Mediterranean from the Hellenistic period to the Christian era as well as a contextualisation and interpretation. Drawing on the conclusions thus reached the whole group of *Aegyptiaca Romana* is subsequently studied. Based on a general overview of this material in the Roman world and, moreover, a case-study of the *Aegyptiaca* from the city of Rome the different meanings of this cultural phenomenon are mapped. Together with other Egyptian deities popular in the Roman world, the goddess Isis plays an important role in this discussion. *Aegyptiaca Romana*, among them the Nilotic scenes, are part of the reflection of the Roman attitude towards and thoughts on Egypt, Egyptian culture and the East. The concluding part of the book illustrates and tries to explain this Roman discourse on Egypt.

Encyclopedia of the History of Classical Archaeology Nancy Thomson de Grummond, 2015-05-11 With 1,125 entries and 170 contributors, this is the first encyclopedia on the history of classical archaeology. It focuses on Greek and Roman material, but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean, the Etruscans, and manifestations of Greek and Roman culture in Europe and Asia Minor. The *Encyclopedia of the History of Classical Archaeology* includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time; articles on famous monuments and sites as seen, changed, and interpreted through time; and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages. As the definitive source on a comparatively new discipline - the history of archaeology - these finely illustrated volumes will be useful to students and scholars in archaeology, the classics, history, topography, and art and architectural history.

Painting, Ethics, and Aesthetics in Rome Nathaniel B. Jones, 2019-01-24 In the first centuries BCE and CE, Roman wall painters frequently placed representations of works of art, especially panel paintings, within their own mural compositions. Nathaniel B. Jones argues that the depiction of panel painting within mural ensembles functioned as a meta-pictorial reflection on the practice and status of painting itself. This phenomenon provides crucial visual evidence for both the reception of Greek culture and the interconnected ethical and aesthetic values of art in the Roman world. Roman meta-pictures, this book reveals, not only navigated social debates on the production and consumption of art, but also created space on the Roman wall for new modes of expression relating to pictorial genres, the role of medium in artistic practice, and the history of painting. Richly illustrated, the volume will be important for anyone interested in the social, ethical, and aesthetic dimensions of artworks, in the ancient Mediterranean and beyond.

Greek Myths in Roman Art and Culture Zahra Newby,2016-09-15 Images of episodes from Greek mythology are widespread in Roman art, appearing in sculptural groups, mosaics, paintings and reliefs. They attest to Rome's enduring fascination with Greek culture, and its desire to absorb and reframe that culture for new ends. This book provides a comprehensive account of the meanings of Greek myth across the spectrum of Roman art, including public, domestic and funerary contexts. It argues that myths, in addition to functioning as signifiers of a patron's education or paideia, played an important role as rhetorical and didactic exempla. The changing use of mythological imagery in domestic and funerary art in particular reveals an important shift in Roman values and senses of identity across the period of the first two centuries AD, and in the ways that Greek culture was turned to serve Roman values.

Comparing Roman Hellenisms in Italy Basil Dufallo, Riemer A. Faber, 2023-04-17 The story of Roman Hellenism—defined as the imitation or adoption of something Greek by those subject to or operating under Roman power—begins not with Roman incursions into the Greek mainland, but in Italy, where our most plentiful and spectacular surviving evidence is concentrated. Think of the architecture of the Roman capital, the Campanian towns of Pompeii and Herculaneum buried by Vesuvius, and the Hellenic culture of the Etruscans. Perhaps “everybody knows” that Rome adapted Greek culture in a steadily more “sophisticated” way as its prosperity and might increased. This volume, however, argues that the assumption of smooth continuity, let alone steady “improvement,” in any aspect of Roman Hellenism can blind us to important aspects of what Roman Hellenism really is and how it functions in a given context. As the first book to focus on the comparison of Roman Hellenisms per se, *Comparing Roman Hellenisms in Italy* shows that such comparison is especially valuable in revealing how any singular instance of the phenomenon is situated and specific, and has its own life, trajectory, circumstances, and afterlife. Roman Hellenism is always a work in progress, is often strategic, often falls prey to being forgotten, decontextualized, or reread in later periods, and thus is in important senses contingent. Further, what we may broadly identify as a Roman Hellenism need not imply Rome as the only center of influence. Roman Hellenism is often decentralized, and depends strongly on local agents, aesthetics, and materials. With this in mind, the essays concentrate geographically on Italy to lend both focus and breadth to our topic, as well as to emphasize the complex interrelation of Hellenism at Rome with Rome’s surroundings. Because Hellenism, whether as practiced by Romans or Rome’s subjects, is in fact widely diffused across far-flung geographical regions, the final part of the collection gestures to this broader context.
