

Deutsche Romantische Schriftstellerin Dorothea

Barbara Becker-Cantarino

The Origins of the Modern Jew Michael A. Meyer, 1972-04-01 An excellent overview of the intellectual history of important figures in German Jewry. Until the 18th century Jews lived in Christian Europe, spiritually and often physically removed from the stream of European culture. During the Enlightenment intellectual Europe accepted a philosophy which, by the universality of its ideals, reached out to embrace the Jew within the greater community of man. The Jew began to feel European, and his traditional identity became a problem for the first time. The response of the Jewish intellectual leadership in Germany to this crisis is the subject of this book. Chief among those men who struggled with the problems of Jewish consciousness were Moses Mendelssohn, David Friedlander, Leopold Zunz, Eduard Gans, and Heinrich Heine. By 1824, liberal Judaism had not yet produced a vision of its future as a separate entity within European society, but it had been exposed to and grappled with all the significant problems that still confront the Jew in the West.

Romanticism and the Romantic School in Germany Robert M. WERNAER, 1909

Romanticism and the Romantic School in Germany ,

Encyclopedia of German Literature Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities, the Encyclopedia of German Literature includes more than 500 entries on writers, individual work, and topics essential to an understanding of this rich literary tradition. Drawing on the expertise of an international group of experts, the essays in the encyclopedia reflect developments of the latest scholarship in German literature, culture, and history and society. In addition to the essays, author entries include biographies and works lists; and works entries provide information about first editions, selected critical editions, and English-language translations. All entries conclude with a list of further readings.

The Bloomsbury Dictionary of Eighteenth-Century German Philosophers Heiner F. Klemme, Manfred Kuehn, 2016-06-30 The Bloomsbury Dictionary of Eighteenth-Century German Philosophers is a landmark work. Covering one of the most innovative centuries for philosophical investigation, it features more than 650 entries on the eighteenth-century philosophers, theologians, jurists, physicians, scholars, writers, literary critics and historians whose work has had lasting philosophical significance. Alongside well-known German philosophers of that era-Gottfried Wilhelm Leibniz, Immanuel Kant, and Georg

Wilhelm Friedrich Hegel-the Dictionary provides rare insights into the lives and minds of lesser-known individuals who influenced the shape of philosophy. Each entry discusses a particular philosopher's life, contributions to the world of thought, and later influences, focusing not only on their most important published writings, but on relevant minor works as well. Bibliographical references to primary and secondary source material are included at the end of entries to encourage further reading, while extensive cross-referencing allows comparisons to be easily made between different thinkers' ideas and practices. For anyone looking to understand more about the century when enlightenment thinking arrived in Germany and established conceits were challenged, The Bloomsbury Dictionary of Eighteenth-Century German Philosophers is a valuable, unparalleled resource.

The Oxford Handbook of European Romanticism Paul Hamilton,2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual, literary, philosophical, and political elements of European Romanticism. The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848. It begins with a series of chapters examining key texts written by major writers in languages including: French; German; Italian; Spanish; Russian; Hungarian; Greek; and Polish amongst others. A second section then explores the naturally inter-disciplinary quality of Romanticism, exemplified by the different discourses with which writers of the time set up an internal, comparative dynamic. These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self-understanding of the time. Discourses typically advance their own claims to resume European culture, collaborating with and at the same time trying to assimilate each other in the process. The main examples featured here are: history; geography; drama; theology; language; philosophy; political theory; the sciences; and the media. Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject. Together the forty-one chapters provide a comprehensive and provocative overview of European Romanticism.

Jewish Women in Enlightenment Berlin Natalie Naimark-Goldberg,2016-09-01 The encounter of Jews with the Enlightenment movement has so far been considered almost entirely from a masculine perspective. This highly original study, based on analysis of the correspondence and literary works of a group of educated Jewish women, demonstrates their intellectual proclivities, feminine awareness, and social activities, as well as their attitudes to marriage, traditional family frameworks, and religion. In doing so it makes a significant contribution to German Jewish history as well as to gender

studies.

Mixed Feelings Katja Garloff, 2016-11-15 Since the late eighteenth century, writers and thinkers have used the idea of love—often unrequited or impossible love—to comment on the changing cultural, social, and political position of Jews in the German-speaking countries. In *Mixed Feelings*, Katja Garloff asks what it means for literature (and philosophy) to use love between individuals as a metaphor for group relations. This question is of renewed interest today, when theorists of multiculturalism turn toward love in their search for new models of particularity and universality. *Mixed Feelings* is structured around two transformative moments in German Jewish culture and history that produced particularly rich clusters of interfaith love stories. Around 1800, literature promoted the rise of the Romantic love ideal and the shift from prearranged to love-based marriages. In the German-speaking countries, this change in the theory and practice of love coincided with the beginnings of Jewish emancipation, and both its supporters and opponents linked their arguments to tropes of love. Garloff explores the generative powers of such tropes in Moses Mendelssohn, G. E. Lessing, Friedrich Schlegel, Dorothea Veit, and Achim von Arnim. Around 1900, the rise of racial antisemitism had called into question the promises of emancipation and led to a crisis of German Jewish identity. At the same time, Jewish-Christian intermarriage prompted public debates that were tied up with racial discourses and concerns about procreation, heredity, and the mutability and immutability of the Jewish body. Garloff shows how modern German Jewish writers such as Arthur Schnitzler, Else Lasker-Schüler, and Franz Rosenzweig wrest the idea of love away from biologist thought and reinstate it as a model of sociopolitical relations. She concludes by tracing the relevance of this model in post-Holocaust works by Gershom Scholem, Hannah Arendt, and Barbara Honigmann.

Gender, Collaboration, and Authorship in German Culture John B. Lyon, Laura Deiulio, 2019-08-22 *Gender, Collaboration, and Authorship in German Culture* challenges a model of literary production that persists in literary studies: the so-called Geniekult or the idea of the solitary male author as genius that emerged around 1800 in German lands. A closer look at creative practices during this time indicates that collaborative creative endeavors, specifically joint ventures between women and men, were an important mode of literary production during this era. This volume surveys a variety of such collaborations and proves that male and female spheres of creation were not as distinct as has been previously thought. It demonstrates that the model of the male genius that dominated literary studies for centuries was not inevitable, that viable alternatives to it existed. Finally, it demands that we rethink definitions of an author and a literary work in ways that account for the complex modes of creation from which they arose.
