Hijos de la adversidad Antonio Valenzuela,2022-04-27 Obesidad, hipertensión, diabetes, ansiedad, depresión, dolores crónicos, problemas de espalda y un largo etcétera son sólo algunos ejemplos de las patologías crónicas que forman parte de la vida cotidiana de demasiadas personas, robándoles años de vida, pero sobre todo de buena vida. ¿Y cuál es la respuesta de la medicina convencional ante esta epidemia de enfermedades? Tratar los síntomas y no la causas, con lo que nos mantiene vivos... y enfermos. Cuando buscamos culpables ante esta situación es tentador pensar en nuestra genética. Que nuestros genes determinen nuestro destino, nos exime de responsabilidad ante lo que nos ocurre. Sin embargo, hoy sabemos que el conflicto entre nuestro estilo de vida y lo que esperan nuestros genes es lo que nos enferma. Éstos se forjaron en la adversidad , generando respuestas protectoras frente a desafíos ambientales como por ejemplo el frío, el calor o ayunos involuntarios por falta de alimento. Dichas respuestas son las que convirtieron a nuestros ancestros en personas de salud privilegiada. Sin embargo, en la actualidad pasamos jornadas maratónicas sentados, continuamente estresados, inundados de comida que nos engorda pero no nos alimenta y todo bajo la promesa de una felicidad que nunca llega. La solución no pasa por una «pastilla milagrosa», sino por incorporar en nuestro día a día los estímulos para los que nuestros genes están preparados para responder, ya que éste ha sido el modo de vida que hemos seguido durante cientos de miles de años. Es lo que se llama hormesis y se basa en la vieja sabiduría popular de «lo que no te mata, te hace más fuerte». Si a todo esto le sumamos el reconectar con la naturaleza, una dieta basada en comida real o las técnicas de respiración milenarias...llevarás tu salud y bienestar a un nivel superior.

García Fraguas y la implantación de la educación física en España DANIEL HUERTA, M.^a José,2014-10-01 [ES] La información que se revela en estas páginas se considera necesaria para conocer parte de la historia de la educación física. La tesis se centra en la labor de José Esteban García Fraguas, profesor de Gimnástica en la segunda enseñanza, médico e inspector de sanidad, nacido en Marchamalo (Guadalajara) en 1870. Defensor de la Gimnástica como factor de regeneración física de los españoles, creador y transmisor de innovadores propuestas y planteamientos gimnásticos. El resultado de su ingente trabajo en el ámbito de la medicina y la gimnástica higiénico-pedagógica, fundamentado en el estudio y análisis del estado y la condición física de la población de finales del S.XIX y principios del XX, como esencial apoyo para la adquisición de una buena educación global, nos conduce a considerarle un intelectual imprescindible para entender la evolución de la Educación Física española. Aparte de sus otras facetas como novelista o político, cuya obra está aún por valorar, justo es

catalogarle como una de las figuras clave dentro del movimiento gimnástico decimonónico. Diseñador y constructor, junto a otros, de las bases de la Educación Física actual. [EN] The information that is revealed in these pages is considered necessary to know a part of the history of physical education. This thesis focuses on the work of José Esteban García Fraguas, a gymnastics teacher in secondary school, a doctor and health inspector, born in Marchamalo (Guadalajara) in 1870. Defender of the gymnastic as a factor of physical regeneration of Spanish people, he created and transmitted his innovative proposals and gymnastic approaches. The result of his vast work in the field of medicine and the hygienic- pedagogic gymnastics based on the study and analysis of the status and physical condition of the population of the late 19th and early 20th century, as an essential support for the acquisition of a good global education, leads us to consider him an intellectual necessary to understand the evolution of the Spanish physical education. Apart from his other career aspects such as novelist and politician, whose work has not yet been studied, we have to consider him as one of the key figures in the nineteenth-century gymnastic movement. He designed and built, along with others, the foundations of the current physical education.

El municipio medieval: nuevas perspectivas Javier Alvarado Planas, Oleg Aurov, María Magdalena Martínez Almira, Manuel Estrada, Luz Valle Videla, Miguel Angel Chamocho, Isabel Ramos Vázquez, Rafael Sánchez Domingo, Aniceto Masferrer, Carmen Losa Contreras, Regina María Pérez Marcos, Juan Sainz Guerra, Andrés Gamba Gutiérrez, Leandro Martínez Peñas, Consuelo Juanto Jiménez, María del Carmen Sáenz Berceo, Fernando Suárez Bilbao, María del Mar Sánchez González, Beatriz Badorrey Martín, Jesús Gómez Garzas, Jose Cano Valero, Juan Carlos Domínguez Nafría, Gonzalo Oliva Manso, 2009-11-10 En esta obra colectiva, varios historiadores del derecho y de las instituciones estudian la evolución de las estructuras municipales desde la época tardo-romana hasta la Edad Media y las formas de prefeudalismo y feudalismo hispánico. También se analiza la pervivencia de la tradición islámica en las instituciones concejiles, la contribución franca a la formación urbana de los reinos peninsulares y la autonomía concejil frente a las encomiendas monásticas. En varios capítulos se estudia la administración territorial y local, la potestad normativa y sancionadora municipal así como diversas instituciones singulares como las merindades, la caballería de sierra, etc. In this collective work several historians of law and of institutions study the evolution of municipal structures from the Late Roman period to the Middle Ages, as well as the prefeudal and feudal forms in Spain. They analyze as well the persistence of Islamic traditions in council institutions, the Frankish contribution to the urban formation of the kingdoms of the Iberian Peninsula and the autonomy of councils vis-à-vis monastic encomiendas. Several chapters are devoted to territorial and local administration and the municipal lawmaking and punitive powers, and to the study of various peculiar institutions such as merindades, caballería de sierra, etc.

Perspectiva de género en la reparación de graves violaciones de los derechos humanos y su aplicación a las víctimas de la represión franquista Marcos Criado de Diego, Lorena Chano Regaña, 2022-12-25 Esta obra analiza el significado, el régimen jurídico y las consecuencias de la perspectiva de género en las políticas y medidas de reparación de graves violaciones de los derechos humanos a raíz de la incorporación de esta perspectiva en la Ley 20/2022, de 19 de octubre, de Memoria Democrática. Se trata de la primera ley que, en el ámbito de las políticas de memoria y reparación en España, menciona expresamente el género como un factor de violación de los derechos humanos durante la guerra civil y la dictadura de Francisco Franco, y la perspectiva de género como un enfoque que deben aplicar los poderes públicos a la hora de producir y aplicar el derecho. Los estudios que integran el libro han sido realizados por académicos y académicas de distintas

disciplinas jurídicas e históricas, responsables políticos, juristas prácticos con experiencia en el litigio y representantes de las organizaciones sociales memorialistas. Estos estudios ofrecen una panorámica completa, amplia y rigurosa, a la vez que accesible para las personas no especialistas, de las distintas implicaciones de la perspectiva de género en la reparación de graves violaciones de los derechos humanos, del impacto diferenciado que la guerra civil y la dictadura tuvieron sobre los derechos de las mujeres, de las acciones de los poderes públicos y de la sociedad civil para visibilizarlos, tanto a nivel nacional como autonómico; así como también del modo en que esta perspectiva se ha incorporado en España, en el Tribunal Europeo de Derechos Humanos, en el Sistema Interamericano de Derechos Humanos, en la transición argentina y en el proceso de paz colombiano. Todo ello con el objetivo de contribuir a la consolidación y normalización de la perspectiva de género como un modo necesario de descubrir, analizar, juzgar y reparar las consecuencias que la violencia y el autoritarismo provocan en la vida de las mujeres.
