Como Fabricar Produtos de Limpeza Diamantino Fernandes Trindade, A fabricação de produtos de limpeza oferece excelentes perspectivas de rentabilidade para um investimento relativamente pequeno. Por esta razão, tem aumentado o número de pessoas que passaram a se dedicar a esta atividade, com apreciável resultado financeiro. Essencial para o bom resultado desta atividade é o conhecimento dos equipamentos, substâncias e procedimentos cujo bom emprego e mescla se traduz em produtos de qualidade, produzidos sem desperdício e sem que o pequeno fabricante se exponha a riscos de saúde, sem fazer também correr perigo o imóvel em que passa a desempenhar a atividade. O leitor poderá optar por diferentes produtos, conforme lhe pareça conveniente, ou poderá se dedicar a toda a gama de produtos de limpeza cujas fórmulas e regras de preparo aqui se encontram. Um manual indiscutivelmente útil, prático, de fácil entendimento.

Aceites esenciales Patricia Conti,2016-02-15 Los aceites esenciales son sustancias oleosas y sumamente fragantes obtenidas de diversos vegetales y que sirven de base para la aromaterapia, esto es, la curación a través de los aromas. Pueden proceder de diferentes lugares de la planta en cuestión, tales como flores, frutos, hojas, raíces, madera, semillas y corteza de los vegetales. El aceite de cedro, por ejemplo, se extrae de la madera de ese árbol, el de hinojo de las semillas y el de limón de la corteza del fruto. Apelando a una metáfora, se podrá decir que el aceite esencial es el alma de la planta contenida en un frasco y que es el medio por el cual los vegetales transmiten sus propiedades. Efectivamente, cada uno de estos aceites posee una determinada combinación de componentes químicos que lo hace especialmente apto para determinados fines curativos, cosmetológicos y hasta espirituales. Comencemos, entonces, este primer capítulo haciendo una breve pero necesaria referencia a esos elementos químicos que hacen que un aceite esencial sea lo que es.
