Fashion Marketing Caroline Le Bon, 2014-10-10 Fashion is everywhere! It transcends domains and applies to almost any kind of product (e.g., apparel, cars, digital devices, food, literature, travel, music, house decoration and personal wellness). Fashion greatly influences public interest, media coverage, and product success. The global fashion industry is among the most important in terms of investments, trade, and employment, despite its dependence on unpredictable demand. This book focuses on the fashion apparel and accessories industry in an attempt to help managers answer the following questions: Why and how do fashion products appeal to consumers, despite their constantly varying attributes? What specific elements and benefits of fashion influence consumers, and how can companies exploit them and gain from these? Which marketing strategies and tactics should companies use to increase fashion products' success while communicating and managing customers' image? How can companies maintain customer loyalty and generate higher profits with fashion products? By

undertaking deep analyses of manufacturers and retailers' best practices, interviewing customers and companies, and reviewing recent academic research on fashion marketing, this book answers such questions and thus helps managers leverage the value that fashion adds to products while creating loyal customers in truly competitive fashion markets.

Marketing Fashion Karin M. Ekström, 2023-06-16 Fashion as a societal phenomenon has fascinated scholars in different disciplines such as history, sociology, anthropology, psychology, and marketing often from an interdisciplinary perspective. Fashion mirrors societal changes, cultural norms, and values over time. It can be interpreted as mundane everyday practices, constructions of identity and status as well as being associated with the art world. In this book, the focus lies on marketing and the role of marketers when fashion permeates society in deliberate and subtle ways. This edited collection critically reflects upon the power of fashion in contemporary society and the role marketing and marketers play in the process of defining, creating, and preserving fashion, but also in divesting fashion that is no longer up to date. It expands on existing knowledge to better understand the role marketers play as cultural agents in determining fashion and its markets. Contributors to the book are international, advanced scholars from a variety of disciplines such as anthropology, marketing, psychology and sociology, who challenge traditional ways of thinking about marketing. In a society where problems with overproduction and excessive consumption represent major challenges, the critical perspective of the role fashion plays in contemporary society and what influence marketing has for shaping fashion are not merely relevant, but necessary. This cutting-edge, interdisciplinary book will appeal to scholars across a broad range of fields including fashion marketing, fashion studies, and consumer culture research. It will also be valuable for students in advanced courses of study in a variety of disciplines besides marketing.

*Sustainability in Art, Fashion and Wine* Annamma Joy, 2024-03-18 The art, fashion and wine industries are currently at various stages in their efforts to embrace and transition towards sustainability. While sustainability commitments are a necessary condition for progress, they are not sufficient. Instead, there is a need for sweeping transformative change that includes giving serious consideration to indigenous worldviews without recolonizing them. Sustainability in Art, Fashion and Wine includes findings from recent research and contributes to a new understanding of familiar concepts such as sustainability, (de)colonization and corporate responsibility in the art, fashion and wine industries by adopting critical lenses and incorporating them with innovative perspectives on circular business models and digitalization. It endeavors to present remedies for effectively combating climate change and promoting social good. While discussing specific issues such as sub-contracted labor, safe working conditions, living wages, environmental degradation, mismanaged waste, and more, the book argues that recognizing the significant role western colonization has played – and continues to play – in the developing world in our current conception of capitalism is itself unsustainable. To understand the true meaning of sustainability – to fully recognize the looming deadlines we face in combating the climate crisis and instituting sustainability as a new normal – the

acceptance of a new conception of capitalism, one antithetical to colonization and exploitation, is required. Contributors to this book address these issues by applying a critical studies approach to their respective chapters, allowing the book to set out what real sustainability could and should look like in the art, fashion and wine industries.

Fashion Branding and Consumer Behaviors Tsan-Ming Choi, 2014-01-30 Fashion Branding and Consumer Behaviors presents eye-opening theory, literature review and original research on the mutual influence of branding strategies and consumer response. Contributors use multiple methods to analyze consumers' psychosocial needs and the extent that their fulfillment goes beyond the usefulness or value of the items they purchase as well as the fashion industry's means of communicating brand identity and enhancing brand loyalty. Along the way, these studies raise important questions about consumer behaviors, consumer welfare, environmental ethics and the future of consumer research. Included in the coverage: A symbolic interactionist perspective on fashion brand personality and advertisement response. Optimizing fashion branding strategies in a fluctuating market. An analysis of fashion brand extensions by artificial neural networks. Domestic or foreign luxury brands? A comparison of status- and non-status- seeking teenagers. The impact of consumers' need for uniqueness on purchase perception. How brand awareness relates to market outcome, brand equity and the marketing mix. **Marketing Performativity** Katy Mason,Hans Kjellberg,Johan Hagberg,2018-10-11 Marketing Performativity: Theories, practices and devices addresses concerns about the theory-practice gap so often discussed by marketing scholars, and indeed reframes this 'gap' by asking 'how is marketing theory performative?' How does marketing theory shape action? Who uses it in practice and to what effects? The individual contributions in this book look at how marketing theories are used in practice and what this means for our understanding of the practicing-theorising landscape of marketing. The book begins by considering what performativity is and how this concept is used in the marketing literature. It then considers three themes concerning the performativity of marketing that emerge from the contributions, before presenting ten empirical studies that ask how, why, and to what effect marketing theories are used and 'performed' in marketing practice. The book also summarises the implications of three themes and sketches research areas for further developing our understanding of the performativity of marketing. This book was originally published as a special issue of the Journal of Marketing Management.

**Luxury and Fashion Marketing** Satyendra Singh,2020-12-06 The globalization of the world's markets has forced luxury brands to, in turn, become global and accessible in many developing countries and emerging markets. Specifically, this volume focuses on mission statements, logos, airport retailing, franchising, challenges in luxury marketing, fashion relating to politics, environment, and beachwear, and case studies on luxury brands and emerging markets. *Luxury and Fashion Marketing: The Global Perspective* is unique in that it is written in a simple and engaging style to explain the theories and concepts of luxury in relation to the ordinary in the global context.
