Becoming Bilingual Readers Bobbie Kabuto,2021-11-29 Building on Bobbie Kabuto's groundbreaking 2010 book

Becoming Biliterate, this book explores how identity impacts the development of bilingual readers and how reading practices are mediated by family and community contexts. Highlighting bilingual readers from Spanish, Greek, Japanese, and English language backgrounds, Kabuto offers an in-depth, interdisciplinary analysis of these readers' behaviors and identities through the original approach of Biographic Biliteracy Profiles. The Profiles serve as a culturally relevant assessment tool for developing meaningful narratives and can reveal how bilingual readers make sense of texts in the context of their home and school environments. An ideal approach for unpacking the complexity of bilingual reading behaviors and how they change across time, the Profiles allow readers to explore what a bilingual reader's identity means to becoming biliterate; the roles of code-switching and translanguaging; the influences of readers' families and communities; and how they all interact and shape readers' identities, behaviors, and meaning-making. Offering practical applications on observing and documenting bilingual readers, this book is an invaluable resource for scholars and students in courses on bilingualism, L2/ESL reading, and multilingualism.

*Critical Issues in Early Literacy* Yetta Goodman, Prisca Martens, 2020-07-24 This volume adds in important ways to understanding the power and complexity of the forces in the lives of children that impact their literacy learning. The critical issues presented emerge from interpretivist research and thinking practices that are constructivist in nature. The chapters by researchers, teacher researchers, teacher educators, and teachers are antidotes to the present political context in which political agendas are being used to define literacy, literacy teaching and learning, and literacy research in narrow ways. Providing a rich source of information about how young children come to know reading and writing as a tool of communication in a range of social and cultural contexts, this book: \*presents current research and thinking in the field; \*documents research that is currently being ignored by many who make decisions about children's learning; \*values who

children are and what they bring with them to school; \*provides a useful tool for advocacy and for social action toward improving education in ways that can make a difference in the lives of young children; and \*raises thoughtful issues for discussion. Critical Issues in Early Literacy is essential reading for early childhood teachers and prospective teachers, for teacher educators, for literacy researchers (including teacher researchers), for special educators, for those working with English-language and foreign-language learners, and for early childhood education administrators, advocates, and policy makers.

**Mi Padre** Sarah Gallo, 2017-04-07 Mi Padre centers on the promise of parent involvement practices that build upon the range of linguistic and sociocultural resources that Latin@ immigrant students and their families bring to school. Through the experiences of Mexican immigrant fathers and their children, this book illustrates the need for humanizing family engagement. Gallo identifies the many ways these fathers contribute to their children's education and how educators can communicate more effectively with immigrant families. Mi Padre also shows the consequences of deportation-based immigration policies on elementary school education and offers strategies for supporting students and their families in the classroom. The author stresses the importance of learning from and with families and offers practical suggestions for how to build relationships with all caregivers as a counterpractice to the one-size-fits-all schooling that many teachers, students, and families experience today. Book Features: Provides practical approaches for drawing on Latin@ families' educational resources for school-based learning. Depicts the consequences of immigration policies on children, families, and elementary school teachers. Draws on ethnographic data collected during a period of strong anti-immigrant sentiment in a Pennsylvania town.
