**OPERATION HERKULES ( the Malta Fulcrum WW2 Alternate History Series Book 1 )** Scott Ward, 2011-12-27

OPERATION HERKULES is a Novel of Alternate History work of fiction and is Book I of The Malta Fulcrum WW2 Alternate History Series. It began with a question. Might WWII have gone differently had Hitler not made so many strategic blunders? From this sprang the idea of this novel of alternate history. In it we'll meet many well-known and some lesser known historical figures, but also purely fictional characters whose experiences reflect those whose ordinary lives were interrupted by extraordinary times. Kenneth Wiltshire, an American farm boy and volunteer pilot with the RAF, flies Spitfire fighters and fights for his life from Malta's Ta Qali airfield. His English lover, the beautiful and mysterious Maggie Reed, toils in anonymity from Malta on Britain's most vital wartime secret. Kuno Schacht, German Army officer, is drafted as a last minute replacement for the invasion. His dreams are haunted by fear that his two young sons will someday fight and die for the Third Reich. Roland Webster, Royal Navy gunnery officer; only combat gives him relief from remorse of his lost love Althea, killed in the London Blitz. Through their eyes and many others we'll live the Axis invasion of Malta in June 1942 and follow their adventures in subsequent novels as WWII is refought from a new point of reality. I have attempted to hew to a reasonable and plausible alteration of history. Neither side will come to possess alien technology, nor suddenly stumble on the secrets of high energy lasers. But from June 21, 1942, the day Tobruk in North Africa fell to Rommel and his Afrika Korps a single, simple change could have reshaped our history. Herewith, what might have come, had Hitler decided to take Malta, rather than not. PLANNED SEQUELS: 1) THE KNIGHT'S GAMBIT, 'The Alternate History Novel of the Battleship Tirpitz and Convoy PQ17'. Book II published September 2016. 2) The Gates of Victory, 'The Alternate History Novel of the Battle of El Alamein', Book III. Scheduled for early 2017. With Malta in Axis hands Rommel and his Afrika Korps receive the weapons, supplies and reinforcements needed to WIN the first Battle of El Alamein. 3) PANZERS ON THE VOLGA, 'The Alternate History Novel of the Battle of Stalingrad'. Book IV 4) THE SIEGE OF THE ROCK, 'The Alternate History Novel of the Axis Siege of Gibraltar'. Book V 5) HMS Ashanti ( Tentative title ) One of the small 'back-stories' of the Malta Fulcrum WW2 Alternate History series, this book goes back to the sinking of the British Tribal Class destroyer in OPERATION HERKULES and follows her crews ordeal in the water and in Vichy French POW captivity in Algeria. 6) Beautiful Maquis ( Tentative title ) Follows the drama of Monique Covet, lovely French spy after she is released from Gestapo custody, turned as a double agent.

Will she serve her new German masters or remain true to France?

The Hitler Options Kenneth Macksey,2015-02-19 Ten stories of what-if World War II scenarios from military historians: “A thought-provoking study of what might have been.” —British Army Review What would have happened if Hitler invaded England in July 1940, or concentrated on the capture of Moscow in 1941 instead of first diverting to Kiev? Or if Rommel had implemented Plan Orient in 1942, striking across the Middle East to join Japanese forces moving to India? How would the course of World War II have been changed if Churchill had persuaded the Americans to concentrate on attacking the “soft underbelly” of Europe instead of Northern France? In this compelling book, ten acclaimed military historians explore what might have happened if at ten crucial turning points of the war Hitler had taken a different direction, or how he would have reacted if the Allies had changed course. Each scenario is based on real situations and are within the bounds of what could genuinely have occurred. With vivid and realistic descriptions of the ensuing campaigns and battles, *The Hitler Options* is a gripping, thought-provoking and, at times, disturbing look at what could have been.

**Hitler Triumphant** Peter G. Tsouras,2011-08-22 Edited by the author of *Disaster at D-Day*, a collection of alternative histories that force readers to consider what could happen if the Nazis won World War II. Based on a series of fascinating “what ifs” posed by leading military historians, this compelling new alternate history reconstructs the moments during the Second World War that could conceivably have altered the entire course of the war and led to a German victory. Based on real battles, actions, and characters, each scenario has been carefully constructed to reveal how at points of decision a different choice or minor incident could have set in motion an entirely new train of events altering history forever. Scenarios in this volume include the fall of Malta in 1942 and the likely consequences and the possibility of Halifax making peace with Hitler. Contributors include John Prados, editor of *The White House Tapes: Eavesdropping on the President*; David Isby, editor of *Fighting the Invasion* and *The Luftwaffe Fighter Force*; and Nigel Jones, author of *The War Walk* and *Rupert Brooke: Life, Death and Myth*. Praise for *Hitler Triumphant* “An entertaining work of counter-factual history, with some thought-provoking material on the overall course of the war.” —History of War “The analysis of battle strategy and military might makes for a top pick for military readers seeking more than fantasy speculation.” —Midwest Book Review

**The World Hitler Never Made** Gavriel D. Rosenfeld,2005-05-23 A fascinating 2005 study of the place of alternate histories of Nazism within Western popular culture.

The First Atomic Bomb Jim Mangi,2022-06-20 While German and Japanese scientists also labored unsuccessfully to create an atomic bomb, by the summer of 1945, the American-led team was ready to test its first weapon. As the clock ticked down to the detonation time of 05.30 hours on 16 July 1945, the nervous team of technicians and scientists waited ten miles

away from 'Ground Zero' deep in the New Mexico desert. No one knew how powerful the explosion would be or whether even at such a distance they would be safe from the blast. Even so, some chose to observe the detonation from a point four miles nearer at the control bunker; but then no one was even sure that the bomb would work. What if that is actually what happened? Under schedule pressure from the White House, the scientists assembled the device in part with tape and tissue paper, knowing some components were flawed. These are verifiable facts. It means that, as many of those who gathered in the New Mexico desert feared at the time, the bomb might not have worked during that first test. In *The First Atomic Bomb*, Jim Mangi explores what might have happened in the event that the world's first atomic bomb had not been ready for use when it was. How would this have affected the end of the war in the Pacific, and indeed the Second World War as a whole? Would Emperor Hirohito's armed forces have battled on? When might Colonel Paul W. Tibbets, at the controls of his Boeing B-29 Superfortress Enola Gay have then made his historic flight over Hiroshima – and would that city even have remained the target? How would Stalin and the Soviets have reacted to such developments, and how would this have played out in the post-war world?

**The Knight's Gambit** Scott Ward, 2017-05-26 *THE KNIGHT'S GAMBIT* is the alternate history novel of the German battleship Tirpitz, Allied convoy PQ17 and the Battle of Bear Island. In Book 1 of the Malta Fulcrum Alternate History Series, *OPERATION HERKULES*, the Axis powers have seized the Mediterranean island of Malta in a daring airborne operation, mauling the British Royal Navy in the process. With his supply lines secured, Field Marshall Rommel and his famed Afrika Korps set their sights on Cairo and the Suez Canal in Egypt. Now the western Allies are determined to avenge the Malta defeat and recapture the strategic initiative by delivering desperately needed Lend-Lease supplies to the Soviet Union with convoy PQ17. The Germans are just as determined to stop them. Tirpitz sails to destroy the convoy. But the Allied battleships HMS Duke of York and USS Washington have set a trap for Tirpitz, and the men and ships of PQ17 are the bait! The chessboard is set for the largest fleet action of the European war!

**If the Allies Had Fallen** Dennis E. Showalter, Harold C. Deutsch, 2012-01-15 What if Stalin had signed with the West in 1939? What if the Allies had been defeated on D-Day? What if Hitler had won the war? From the Munich crisis and the dropping of the first atom bomb to Hitler's declaration of war on the United States and the D-Day landings, historians suggest "what might have been" if key events in World War II had gone differently. Written by an exceptional team of historians as if these world-changing events had really happened. *If the Allies Had Fallen* is a spirited and terrifying alternate history, and a telling insight into the dramatic possibilities of World War II. Contributors include: Thomas M. Barker, Harold C. Deutsch, Walter S. Dunn, Robert M. Love, D. Clayton James, Bernard C. Nalty, Richard J. Overy, Paul Schratz, Dennis E. Showalter, Gerhard L. Weinberg, Anne Wells, and Herman S. Wolk.

*The Holocaust Averted* Jeffrey S. Gurock, 2015-04-03 The increasingly popular genre of “alternative histories” has captivated audiences by asking questions like “what if the South had won the Civil War?” Such speculation can be instructive, heighten our interest in a topic, and shed light on accepted history. In *The Holocaust Averted*, Jeffrey Gurock imagines what might have happened to the Jewish community in the United States if the Holocaust had never occurred and forces readers to contemplate how the road to acceptance and empowerment for today’s American Jews could have been harder than it actually was. Based on reasonable alternatives grounded in what is known of the time, places, and participants, Gurock presents a concise narrative of his imagined war-time saga and the events that followed Hitler’s military failures. While German Jews did suffer under Nazism, the millions of Jews in Eastern Europe survived and were able to maintain their communities. Since few people were concerned with the safety of European Jews, Zionism never became popular in the United States and social antisemitism kept Jews on the margins of society. By the late 1960s, American Jewish communities were far from vibrant. This alternate history—where, among many scenarios, Hitler is assassinated, Japan does not bomb Pearl Harbor, and Franklin Delano Roosevelt is succeeded after two terms by Robert A. Taft—does cause us to review and better appreciate history. As Gurock tells his tale, he concludes every chapter with a short section that describes what actually happened and, thus, further educates the reader.

Third Reich Victorious Peter Tsouras, 2002 *Third Reich Victorious* is a gripping and terrifying alternate history, and a telling insight into what a close run thing World War II really was.

**The Gates of Victory** Scott Ward, 2017-08-26 The Battle for Egypt is on! Rommel and his Afrika Korps are closing in on Cairo, the Nile River and Suez Canal. With Malta in Axis hands, supplies cross the Mediterranean from Italy with no interference from the British Royal Navy or Air Force. In *THE GATES OF VICTORY* we see how the battle for Egypt turns out! In Book I *OPERATION HERKULES*, the Germans and Italians have seized Malta from the British in a daring air and sea invasion. In Book II, *THE KNIGHT'S GAMBIT* the German navy has given the British Royal navy a black eye and a bloody nose in the Battle of Bear Island and mauled Convoy PQ17 in the process. Can the Axis follow-up these successes with Victory in the desert? *THE GATES OF VICTORY* is The Alternate History Novel of the Battle of El Alamein.

**Back into Focus** Charles R. Herrick, 2024-12-05 This new account carefully details the events surrounding Robert Capa's D-Day adventures, using official SHAEF files and a variety of accounts of witnesses. Although Capa's Falling Soldier image from the Spanish Civil War has been definitively proven to be a staged propaganda fake, no one has applied a similarly critical eye to his later work. This book is the first effort to establish the facts behind the fables surrounding his D-Day adventures and the images he produced during that period. This book examines the fictionalized account Robert Capa penned in his pseudo biography *Slightly Out of Focus*. Written in the hopes of it becoming a movie, Capa included many elements which were exaggerated or simply not true, while omitting many relevant events. As he himself said in the dust jacket for that book: "Writing the truth being obviously so difficult, I have in the interests of it allowed myself to go sometimes slightly beyond and slightly this side of it. All events and persons in the book are accidental and have something to do with the truth." This new account carefully details the actual events surrounding Capa's D-Day adventures, using official SHAEF files, still and motion picture images taken by other cameramen who were near or with Capa, and a variety of accounts of witnesses. It examines several aspects of Capa's narrative and reveals the truth behind the fiction: he claimed that he landed in the First Wave with Company E, in reality he landed almost two hours later in Wave 13 with the regimental commander. Analysis reveals how many of his images were presented in a false context and as a result have been misinterpreted for decades. Building on Allan Coleman and his team's proof that the bulk of Capa D-Day photos could not possibly have been ruined in a darkroom accident, this gripping expose details the effects the FORTITUDE deception plans had on censorship, and how the censorship system would have retained the images popularly thought to have been lost.

*Alternate History* Skriuwer Com, 2025-04-11 What if the United States never existed? No united colonies, no westward expansion, no global superpower shaping wars, economies, or culture. This alternate history book dives deep into that mind-bending scenario, showing a North America split between British, French, Spanish, and Russian rule, a world where Europe clings to its imperial ambitions, and where rising powers in Asia and Latin America step in to fill the void. Spanning centuries of change, this alternate history book imagines global conflicts without American intervention, industrial revolutions driven by Europe and Asia, and a world that never becomes the familiar melting pot we know today. With no USA at the center, how do national identities evolve? How do regional powers clash or cooperate? And what does a world without a single dominant force look like? For fans of alternate history science fiction books, WW2 alternate history, and bold what-if explorations, this

is a thrilling deep dive into how small changes in history can reshape everything. If you're into USA history books or fascinated by alternate military history, this book is packed with surprises, insights, and a whole lot of what-could-have-beens.

**The Moscow Option** David Downing, 2013-08-05 This provocative alternative history looks at WWII from a new angle—what might have happened had the Germans taken Moscow in 1941. Based on authentic history and real possibilities, this unique speculative narrative plays out the dramatic and grotesque consequences of a Third Reich triumphant. In this terrifyingly plausible scenario, the Germans fight their way into the ruins of Moscow on September 30th, 1941—and the Soviet Union collapses. Although Russian resistance continues, German ambition multiplies after this signal success. They launch offensives in Africa, the Mediterranean, and the Middle East. Hitler's armies, assured of victory, make their leader's dreams reality and Allied hopes of recovery seem almost hopelessly doomed. With a convincingly blend of actual history and alternate events, *The Moscow Option* is a chilling reminder that history might easily have been very different.

**A Prophet Without Honor** Joseph Wurtenbaugh, 2017-12-23 Adolph Hitler risked everything by ordering his small, raw military to reoccupy the Rhineland. It was a colossal bluff. German forces would have been forced to retreat if the French or British had offered the slightest opposition. But the bluff succeeded. History changed decisively. Examines the alternative course history might have taken had the Western powers been more alert.
