Let's Go Exploring Michael Hingston,2018-05-01 A fascinating investigation of a beloved comic strip The internet is home to impassioned debates on just about everything, but there's one thing that's universally beloved: Bill Watterson's comic strip Calvin and Hobbes. Until its retirement in 1995 after a ten-year run, the strip won numerous awards and drew tens of millions of readers from all around the world. The story of a boy and his best friend — a stuffed tiger — was a pitch-perfect distillation of the joys and horrors of childhood, and a celebration of imagination in its purest form. In Let's Go Exploring, Michael Hingston mines the strip and traces the story of Calvin's reclusive creator to demonstrate how imagination — its possibilities, its opportunities, and ultimately its limitations — helped make Calvin and Hobbes North America's last great comic strip.

Teaching Comedy Bev Hogue,2023-08-03 From Shakespeare to The Simpsons, comedy has long provided both entertainment and social commentary. It may critique cultural values, undermine authority, satirize sacred beliefs, and make room for the marginalized to approach the center. Comedy can be challenging to teach, but in the classroom it can help students connect with one another, develop critical thinking skills, and engage with important issues. The essays in this

volume address a rich variety of texts spanning film, television, stand-up, cartoons, and memes as well as conventional literary works from different places and times. Contributors offer theoretical foundations and practical methods for a broad range of courses, including guidance on contextualizing the humor of historical works and on navigating the ways that comedy can both subvert and reinforce stereotypes. Finally, the volume argues for the value of comedy in difficult times, as a way to create community and meaning. This volume contains discussion of fiction, poetry, plays, and essays by Maya Angelou, Jane Austen, Aphra Behn, Hugh Henry Brackenridge, Frances Burney, Charles W. Chesnutt, Roddy Doyle, Maria Edgeworth, Ben Jonson, Anita Loos, Emtithal Mahmoud, Thomas Middleton, Okot p'Bitek, William Shakespeare, Laurence Sterne, Jonathan Swift, Alma Villanueva, Paula Vogel, Oscar Wilde, John Wilmot, and William Wycherley; TV shows and films including *Crazy Ex-Girlfriend*, *The Gold Rush*, *Life Is Beautiful*, *The Marvelous Mrs. Maisel*, *The Office*, *Office Space*, *Rick and Morty*, and *South Park*; works and stand-up performances by Aziz Ansari, Samantha Bee, Dave Chappelle, Louis C.K., Tina Fey, Moms Mabley, Hasan Minhaj, Eddie Murphy, Trevor Noah, Richard Pryor, Issa Rae, and Wanda Sykes; and visual works and other media including Aaron McGruder's *The Boondocks*, Bill Watterson's *Calvin and Hobbes*, Nick Sousanis's *Unflattening*, Marvel's *Hawkeye*, *The Onion*, YouTube videos, advertisements, and memes.

Commanding Hope Thomas Homer-Dixon, 2022-06-14 Calling on history, cutting-edge research, complexity science and even *The Lord of the Rings*, renowned thought leader Thomas Homer-Dixon lays out the tools we can command to rescue a world on the brink. For three decades, Thomas Homer-Dixon, author of *The Ingenuity Gap* and *The Upside of Down*, has examined the threats to our future security—predicting a deteriorating global environment, extreme economic stresses, mass migrations, social instability and wide political violence if humankind continued on its current course. He was called *The Doom Meister*, but we now see how prescient he was. Today, just about everything we've known and relied on (our natural environment, economy, societies, cultures and institutions) is changing dramatically—too often for the worse. Without radical new approaches, our planet will become unrecognizable as well as poorer, more violent and more authoritarian. In his latest work (dedicated to his young children), he calls on his extraordinary knowledge of complexity science, of how societies work and can evolve, and of our capacity to handle threats, to show that we can shift human civilization onto a decisively new path if we mobilize our minds, spirits, imaginations and collective values. *Commanding Hope* marshals a fascinating, accessible argument for reinvigorating our cognitive strengths and belief systems to affect urgent systemic change, strengthen our economies and cultures, and renew our hope in a positive future for everyone on Earth.

Post-Charismatic Robby McAlpine, 2023-08-14 “Our weekly Charismatics Anonymous meeting is about to begin. Join me, will you?” It’s like we’re caught between a rock and a hard place. We’re “continuationists.” We believe all the gifts of the

Holy Spirit are alive and well and essential for today. But we've also been burned by unbiblical teachings, spiritual abuse, and the gaslighting subculture of pneuma-fomo (fear of missing out on the next great move of the Spirit). We yearn for the Spirit's presence and power in our lives. We don't want to "throw the baby out with the bathwater," but the water's teeming with spiteful pathogens. It's time to roll up our sleeves and take responsibility for disinfecting the tub. Toxic beliefs have produced spiritual casualties among Pentecostals and charismatics for far too long. Our Kairos moment has arrived. Let's hone the charismata of discernment.

Sustainable Alternatives for Poverty Reduction and Eco-Justice Lucas Andrianos, Guillermo Kerber, Jan-Willem Sneep, 2014-10-21 This book presents edited and revised versions of most of the papers presented at the First International Conference on Sustainable Alternatives for Poverty Reduction and Ecological Justice in 2012 (SAPREJ-12). The selected papers are classified into six thematic sections: Biodiversity and ecological crisis; Sustainability, religion and ethics; Climate change, eco-justice and health; Poverty, financial crisis and human rights; Green economy and food security; and Global crisis and case studies. SAPREJ-12 is a new initiative in sustainability development, and its methodological concept has opened new opportunities for analysis and criticism of the discipline. This book provides a useful perspective to evaluate the current state of the art and the diversity of the approaches adopted in analysing poverty eradication and sustainable development.

It's a Magical World Bill Watterson, 1996-09 A Calvin and Hobbes collection.

The Shared Space of Play Francesca Berti, 2023-07-10 The similarities between traditional games in different regions of the world, from past to present, arouse both awe and curiosity. The playful - yet educational - discovery of these practices offers the opportunity to observe the experience of play as a space for similarities between cultures. When research on play conducted with children is enriched by the recollections of play from parents and grandparents, especially in the context of a multicultural classroom, a choral narrative emerges, laying down the basis for intercultural education. Children discover the 'shared space of play', where they can meet and relish, together with teachers, the richness of cultural diversity, and also learn more about prejudice and Othering processes.

Blogwars David D. Perlmutter, 2008-03-07 Political blogs have grown astronomically in the last half-decade. In just one month in 2005, for example, popular blog DailyKos received more unique visitors than the population of Iowa and New Hampshire combined. But how much political impact do bloggers really have? In *Blogwars*, David D. Perlmutter examines this rapidly burgeoning phenomenon, exploring the degree to which blogs influence--or fail to influence--American political life. Challenging the hype, Perlmutter points out that blogs are not that powerful by traditional political measures: while bloggers can offer cogent and convincing arguments and bring before their readers information not readily available elsewhere, they have no financial, moral, social, or cultural leverage to compel readers to engage in any particular political behavior. Indeed, blogs have scored mixed results in their past political crusades. But in the end, Perlmutter argues that blogs, in their wide dissemination of information and opinions, actually serve to improve democracy and enrich political culture. He highlights a number of the particularly noteworthy blogs from the specialty to the superblog--including popular sites such as Daily Kos, The Huffington Post, Powerlineblog, Instapundit, and Talking Points Memo--and shows how blogs are becoming part of the tool kit of political professionals, from presidential candidates to advertising consultants. While the political future may be uncertain, it will not be unblogged. For many Internet users, blogs are the news and editorial sites of record, replacing traditional newspapers, magazines, and television news programs. *Blogwars* offers the first full examination of this new and controversial force on America's political landscape.

Pastoral Virtues for Artificial Intelligence Jaco J. Hamman, 2022-10-03 Pastoral Virtues for Artificial Intelligence (AI) acknowledges that human destiny is intimately tied to artificial intelligence. AI already outperforms a person on most tasks. Our ever-deepening relationship with an AI that is increasingly autonomous mirrors our relationship to what is perceived as Sacred or Divine. Like God, AI awakens hope and fear in people, while giving life to some and taking livelihood, especially in the form of jobs, from others. AI, built around values of convenience, productivity, speed, efficiency, and cost reduction, serve humanity poorly, especially in moments that demand care and wisdom. This book explores the pastoral virtues of hope, patience, play, wisdom, and compassion as foundational to personal flourishing, communal thriving, and building a robust AI. Biases of determinism, speed, objectivity, ignorance, and apathy within AI's algorithms are identified. These biases can be minimized through the incorporation of pastoral virtues as values guiding AI.

Fighting the White Knight Jocelyn Turner, 2023-01-12 In her final year of teaching, Jocelyn Turner spent over one-fifth of each week administering mandatory tests and quizzes. She spent the remaining time preparing students to take those specific exams, regardless of the background knowledge and preparedness of individual students. While she was testing, she could not teach. Teachers were expected to present the same Common Core-based, grade-specific material to all their students at the same time-- whether Jake was reading at a first-grade level or Taylor at a ninth-grade level. It was a rare and lucky child who fit the profile of the year's onslaught of tests. Since No Child Left Behind, US schools have been burying students in tests and then drawing often misguided conclusions--when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read. We have been told that US education is in crisis. Ms. Turner agrees. In *Fighting the White Knight*, she argues that government mandates created and are now perpetuating this crisis, depriving children of remedial learning, instruction time, and personal attention. *Fighting the White Knight* also looks at the \$1.6 trillion student debt crisis, a consequence of today's single-minded, college-bound pipeline; vocabulary deficits left to fester due to narrowly targeted curricula; and the sneaky gutting of elective, vocational/technical, and gifted education. Ms. Turner concludes by advocating for changes she believes can rescue American education--guiding children back to the safe, inspirational learning experiences of a more student-focused time.

10 to 25 David Yeager, 2024-08-06 NATIONAL BESTSELLER • Acclaimed developmental psychologist David Yeager reveals the new science of motivating young people ages ten through twenty-five in this groundbreaking book that is a must-read for managers, parents, educators, coaches, and mentors everywhere. “Required reading for anyone who aspires to be a wise influence on the young people they care about.” —Angela Duckworth “One of the most fascinating and important books of the past decade...It will change millions of lives.” —Carol Dweck “This engaging, data-driven book is filled with practical insights.” —Adam Grant Imagine a world in which Gen Xers, millennials, and boomers interact with young people in ways that leave them feeling inspired, enthusiastic, and ready to contribute—rather than disengaged, outraged, or overwhelmed. That world may be closer than you think. In this book based on cutting edge research, psychologist David Yeager explains how to stop fearing young people’s brains and hormones and start harnessing them. Neuroscientists have discovered that around age ten, puberty spurs the brain to crave socially rewarding experiences, such as pride, admiration, and respect, and to become highly averse to social pain, such as humiliation or shame. As a result, young people are subtly reading between the lines of everything we say, trying to interpret the hidden implications of our words to find out if we are disrespecting or honoring them. Surprisingly, this sensitivity to status and respect continues into the mid-twenties. 10 to 25 helps adults develop an ear for the difference between the right and wrong way to respect young people and avoid frustrating patterns of miscommunication and conflict. Yeager explains how to adopt what he terms the mentor mindset, which is a leadership style that’s attuned to young people’s need for status and respect. Anyone can adopt the mentor mindset by following a few highly effective and easy-to-learn practices such as validating young people’s perspectives (rather than dismissing them), asking them questions (rather than telling them what to do), being transparent about your beliefs and goals (rather than assuming that they will accurately guess your thoughts), and holding them to high standards (rather than coddling them). Yeager’s scientific experiments have shown these practices reduce a wide variety of behavior problems, including school dropout, unhealthy eating, stress, purposelessness, mental health problems, and more. One of the biggest misconceptions about mentoring is that it takes up too much time. On the contrary, those who use the mentor mindset end up with more time. Through back-and-forth conversations, young people feel empowered, and managers can transfer responsibility to them. Young people in this age group are poised to learn, grow, and accomplish incredible things—if only we can tap into the basic neurobiological systems that drive their motivation and behavior. An essential read for anyone who interacts with young

people, 10 to 25 is a groundbreaking book that offers long-term strategies to help nurture well-adjusted, independent, accomplished young people who contribute to society in positive ways—all while making our own lives easier.

The Early Years Professional's Complete Companion 2nd edn Pam Jarvis, Jane George, Wendy Holland, 2013-09-13 Fully updated to reflect the changes to the Early Years Professional Status (EYPS) qualification, this second edition remains the essential handbook to support all those considering or working towards EYPS and on whichever pathway they embark. Organised into three parts, the text starts by leading you through the initial requirements for entry to the programme, providing an overview of the different pathways. It goes on to focus on the standards against which all EYP candidates are tested, and then finally looks at the new validation process and beyond. Although closely linked to the standards required for EYPS, and their relationship with the Early Years Foundation Stage, the book is not a standard-by-standard manual; it supports you in developing an organic, holistic perspective on childcare and education, combining practical skills with knowledge development. The text includes case studies based on real practice scenarios, ideas for practical activities, further reading, reflection, interviews and advice from EYPS candidates who have successfully negotiated the validation process.
