You Can Say No to Chemo Laura Bond,2015-01-01 Remember: It's Your Body and You Do Have Choices Beginning in 2011, journalist and health coach Laura Bond and her mother Gemma visited 60 of the world's foremost cancer specialists

and healers who are getting remarkable results in treating cancer without radiation or chemotherapy. This book shares the most exciting discoveries they made in their travels. You'll read about everything from hydrogen peroxide therapies and juiced cannabis to high-dose vitamin C, coffee enemas (The Gerson Method), eliminating sugar from the diet, drinking green vegetable juices, and infrared saunas. Quick to point out that every cancer and every body is different, Bond does not offer a one-size-fits-all approach but throw the doors open wide to thinking about your treatment options—and even about cancer itself—in a whole new light. This book points the way toward making informed choices, based on information, not fear. The Anaemic Leukaemic John Fee, 2010-08-19 The first half of the book explains that the treatment is a brutal regime, but there are light-hearted moments. In the second half of the book, the author describes what he learned about cancer such as what cancer is, the prevalence of cancer, the role of the pharmaceutical industry, and how cancer is treated in the West as compared to complementary therapies in the East. He asks 'Why me?' and discovers physical, mental and spiritual reasons to explain why cancer decided to pay him a visit. The concept of miraculous or spontaneous remissions appears to be largely ignored by the medical profession but is a major interest to the author, along with other healing methods outside the Western orthodox model. The book finishes with a message of hope through the development of a 'Simple Man's Cancer Model' which provides a framework for healing to take place based on personal experience, studying spontaneous healings, a large dose of common sense and a sprinkling of anecdotal evidence. The author suggests that certain changes need to take place within an individual for healing to occur. How the person makes those changes is a personal choice, as there are numerous healers, books, workshops and seminars where such information and healing can be obtained. The final chapter suggests that 'Integrated Healthcare' could be the next step forward and invites the reader to imagine and, more importantly, help to

create a world without cancer.

Vaccine-Nation Andreas Moritz, 2011-03 Author of a dozen books, including the bestselling Timeless Secrets of Rejuvenation and Health and Cancer is Not a Disease, Andreas Moritz takes on yet another controversial subject, this time to expose the Vaccine Myth. In Vaccine-nation, Moritz unravels the mother of all vaccine lies - that vaccines are safe and they prevent disease. Furthermore, he reveals undeniable scientific proof that vaccines are actually implicated in most common

diseases today. This book reveals: Statistical evidence that vaccines never actually eradicated infectious diseases, including polio. How childhood vaccines, flu shots and other kinds of inoculations systemically destroy the body's immune system. The massive increase of allergies, Eczema, Arthritis, Asthma, Autism, Acid reflux, Cancer, Diabetes (infant and childhood), Kidney disease, Miscarriages, many Neurological and Autoimmune diseases, and Sudden Infant Death Syndrome (SIDS) is largely due to vaccines. Why vaccinated children have 120% more Asthma, 317% more ADHD, 185% more Neurologic disorders, and 146% more Autism than those not vaccinated. The shocking fact that most outbreaks of infectious diseases occur largely among those who are fully vaccinated. Vaccines lack long-term safety testing and most vaccine side-effects are never reported to protect vaccine-makers from liability suits. For many decades we have all been led to believe that vaccines have eradicated the most dreaded infectious diseases, including polio, although to this day there is no scientific evidence to support this theory. On the other hand, indisputable scientific data reveal that childhood vaccines, flu shots and other kinds of inoculations are responsible for the dramatic decline of natural immunity among millions of children, adults, and members of the older population. With each new shot received, the immune system becomes weaker and permanently damaged, thereby laying the ground for potentially debilitating illnesses to develop in the future. Reaching deep into the vaccine cartel, Moritz uncovers hard facts to prove that profit - not public health - is the sole motive behind the vaccine-pushers' chicanery. In this book, he also digs up the real reasons behind the 2009 swine flu outbreak or the pandemic that didn't pan out. In Vaccine-nation, Moritz minces no words while unraveling these and other skeletons in Big Pharma's closet and cautions you not to buy into the hollow claims of vaccine makers. In his characteristic style, Moritz offers a gentle and practical approach to a disease-free life, which rests on the fulcrum of the mind-body connection, cleansing of the body, and naturally healthy living.

Screening Sandy Hook Deanna Spingola, 2015-02-03 Most parents would never consider dispensing deadly addictive street drugs to their children but if a trusted physician writes a prescription for an FDA-approved schedule 2 medication for their two-year old based on some questionable mental health screening, those unwary parents do not question or object. Despite side effect warnings, regularly revealed during TV ads, parents frequently fail to take those warnings seriously, perhaps presuming that the side effects are happenstance or rarely occur. Over the decades, because organized psychiatry, represented by the American Psychiatric Association (APA), convened numerous consensus panels that designed hundreds of non-biologically-based disorders for its Diagnostic and Statistical Manual of Mental Disorders (DSM) especially suitable for the pill-for-every-ill pharmaceutical industry that conceivably already had many profitable solutions for the disorders, in the pre-production process. The consequences have been disastrous with no discernable end in sight some people taking prescription drugs or withdrawing from them have perpetrated school, mall and public shootings. That is in addition to thousands of suicides that the public never hears about, unless the victim is a well-known public figure like Robin Williams. Just the military-related suicide rate is 8,000 per year untold numbers of these are the result of the psych drug cocktails doled out by psychiatrists working for the VA. The government is big pharma's largest customer. In addition to the homicides and suicides, irreversible brain damage results from drug remedies to temporary problems that might have been easily resolved through compassionate interaction and talk therapy. Despite the claims that drugs were not a factor in the Sandy Hook mass murders, certain circumstances provide a different picture. Adam Lanza, always a unique individual, changed from being a geeky, weird kid to being a mass murderer, not of people his own age, but of beautiful, vulnerable children feeling secure in their classrooms in a sleepy bedroom community in Connecticut.
