What can we learn about business ethics from the example of Jobs? What are the major virtues of a creative innovator? How could Jobs successfully defy and challenge conventional business practices? How did Jobs combine values and attitudes previously believed to be unmixable? What does it really mean to “think different”? Can entrepreneurs be made or are they just born? If Jobs didn’t make any major inventions, just what was his contribution? How is Jobs’s life illuminated by Buddhism? How does a counter-culture transform mainstream culture? What does Jobs teach us about the notions of simplicity and functionality in design? How do Jobs’s achievements alter the way we think about technology in relation to human life? The chapters cover vital issues in ethics, business, aesthetics, and technology. They are followed by a fascinating appendix listing all the philosophers mentioned in the book, along with explanations of their lives and key themes in their thoughts. *Steve Jobs and Philosophy* is aimed at readers interested in Jobs himself, in entrepreneurship, in technology, culture, and values.

Engaged Leadership Joan Marques, Satinder Dhiman, 2018-05-02 This professional book examines the concept of engaged leadership. Specifically, it focuses on the need for leaders in personal and professional realms, for-profit and non-profit, to understand the importance of engagement in order to achieve enhanced satisfaction and motivation among stakeholders (including employees, shareholders, investors, supporters, customers, suppliers, the community, competitors, family, and partners), and hence, an augmented level of designed thinking, which leads to increased innovation and on-going leadership development. Divided into three sections—engaged leadership development at the personal level, implementation at the organizational level, and manifestation in practice—this book provides professionals, practitioners and policy makers as well as students with the tools and skills to lead actively and conscientiously and help them understand the importance of creativity and compassion for development. Engaged leadership operates on the fundamental principle that leaders have to first and foremost perceive themselves as leaders, and then engage in design thinking, as they will need to develop strategies to reach, encourage, and positively appeal to these stakeholder groups. Leadership is neither limited to those holding formal managerial position, nor to any particular setting. Leaders can be found everywhere, in all layers of society. Leadership is only possible, however, if one dares to perceive and define oneself as a leader. And only when leadership is adopted as a reality within one’s personal perception, can engaged leadership be applied. Featuring contributions from academics, scholars, and professionals from around the world, each providing cases, interactive questions and reflective notes, this book

will be of interest to professionals, practitioners, policy makers, students and scholars interested in creative leadership, management, organizational behavior, and governance.

The Gītā is a non-sectarian spiritual text with a universal message for living a life of meaning, purpose, and contribution and for leading from our authentic self. It shows how to manage oneself, as a necessary prelude to leading others. Students and organizational leaders will learn to integrate leadership function more effectively into all aspects at the individual, team, and institutional level.

Two Great Masters Amrit Gupta, 2020-01-01 Both were gifts-the rarest of the rare- offered by India to mankind. For these gifts, humanity will remain in perpetual debt which cannot be redeemed merely by paying homage by different means but by allowing these luminaries to affect us, catalyze us, help us remove all callousness, and sensitize us towards a new spiritual level of consciousness. The great Masters brought before humanity, for the first time, the most efficacious and practical methods of understanding ultimate verities and application of such verities/truths in their practical day-to-day life. The contribution of both the masters in the field of personal development and especially in the case of education of children is

ideal for all nations. Both Swami Vivekananda and Paramahansa Yogananda were great masters of humanity. No, ordinary man, surely, is worthy of this spiritual title. But now and then there appears on earth one of the noble lineages of God-realized souls to carry out the plans of Divinity and establish righteousness on earth. Vivekananda's work prepared the ground in America and planted the seeds of Eastern spiritual values. These seeds were to be nurtured by another spiritual giant from India, Paramahansa Yogananda (1893-1952).
