The Social History of the American Family Marilyn J. Coleman, Lawrence H. Ganong,2014-09-02 The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. *The Social History of the American Family* is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.

Evolution of Law: Primitive and ancient legal institutions ,1915

A Nation of Descendants Francesca Morgan,2021-09-15 From family trees written in early American bibles to birther conspiracy theories, genealogy has always mattered in the United States, whether for taking stock of kin when organizing a family reunion or drawing on membership—by blood or other means—to claim rights to land, inheritances, and more. And since the advent of DNA kits that purportedly trace genealogical relations through genetics, millions of people have used them to learn about their medical histories, biological parentage, and ethnic background. *A Nation of Descendants* traces Americans' fascination with tracking family lineage through three centuries. Francesca Morgan examines how specific groups throughout history grappled with finding and recording their forebears, focusing on Anglo-American white, Mormon, African American, Jewish, and Native American people. Morgan also describes how individuals and researchers use genealogy for personal and scholarly purposes, and she explores how local businesspeople, companies like Ancestry.com, and Henry Louis Gates Jr.'s *Finding Your Roots* series powered the commercialization and commodification of genealogy.

Pastoral Elegy in Contemporary British and Irish Poetry Iain Twiddy,2012-03-29 An examination of the nature and function of pastoral elegies in post-1960 British and Irish poetry.

Christian Theology and African Traditions Matthew Michael,2013-05-21 Christian theology is increasingly recognized to be now a non-western enterprise since the high concentrations of Christians in the world are no longer found in the Western societies. *Christian Theology and African Traditions* takes seriously this present recognition of the southward movement of Christianity from the western world to a non-western setting. It seeks to reposition Christian theology and faith to engage the African traditions in classical category of theology proper, bibliology, anthropology, Christology, pneumatology, soteriology, ecclesiology, and eschatology and provides unique insights and problems that these classical and

systematic categories poses to African Christianity. Similarly, it provides theological blueprint for non-Africans who are interested in knowing the nature and shape of the Christian theology in non-western settings.

Salvation of Reflective Thoughts The Broken Hearted Poet - Unrecay Dema,2010-05-20 On December 31, 1989, I began a journey of Salvation of Reflective Thoughts. A journey of emotions in my life through poetry. Emotions of nature, death, life, magic, imagination, spirituality, love, deceit, anger, hatred, lust, desire, mystery, romance, and sadness. Along the journey of Salvation of Reflective Thoughts, the emotions of utter sadness were the only emotions I felt. From all the pain, loneliness, and sadness in my life at that time, I then became, The Broken Hearted Poet. All illustrations and photography was done by The Broken Hearted Poet - Unrecay Demarko.

Mortality, Mourning and Mortuary Practices in Indigenous Australia Myrna Tonkinson,Victoria Burbank,2017-03-02 Drawing on ethnography of Aboriginal and Torres Strait Islander communities across Australia, *Mortality, Mourning and Mortuary Practices in Indigenous Australia* focuses on the current ways in which indigenous people confront and manage various aspects of death. The contributors employ their contemporary and long-term anthropological fieldwork with indigenous Australians to construct rich accounts of indigenous practices and beliefs and to engage with questions relating to the frequent experience of death within the context of unprecedented change and premature mortality. The volume makes use of extensive empirical material to address questions of inequality with specific reference to mortality, thus contributing to the anthropology of indigenous Australia whilst attending to its theoretical, methodological and political concerns. As such, it will appeal not only to anthropologists but also to those interested in social inequality, the social and psychosocial consequences of death, and the conceptualization and manipulation of the relationships between the living and the dead.

Military Departures, Homecomings and Death in Classical Athens Owen Rees,2022-01-13 This volume sheds new light on the experience of ancient Greek warfare by identifying and examining three fundamental transitions undergone by the classical Athenian hoplite as a result of his military service: his departure to war, his homecoming from war having survived, and his homecoming from war having died. As a conscript, a man regularly called upon by his city-state to serve in the battle lines and perform his citizen duty, the most common military experience of the hoplite was one of transition – he was departing to or returning from war on a regular basis, especially during extended periods of conflict. Scholarship has focused primarily on the experience of the hoplite after his return, with a special emphasis on his susceptibility to Post-Traumatic Stress Disorder (PTSD), but the moments of transition themselves have yet to be explored in detail. Taking each in turn, Owen Rees examines the transitions from two sides: from within the domestic environment as a member of an oikos, and from within the military environment as a member of the army. This analysis presents a new template for each and

effectively maps the experience of the hoplite as he moves between his domestic and military duties. This allows us to reconstruct the effects of war more fully and to identify moments with the potential for a traumatic impact on the individual.
