Lakes and Gardens Hannie Rouweler,2010-07-15 Hannie Rouweler (poet and painter), born 1951 in The Netherlands, published her first book of poetry in 1988. Her 15th collection *Wolken, ankers* (Clouds, anchors) was published in 2008. She has a direct and quite simple way of writing. With sparing use of concrete details she creates her own poetic world. In that totality she exposes a tension between dream and reality, past and present, imagination and phrase. Because of this she speaks to a broad audience.

The New Painting Udo Kultermann,1977 Surveys new developments in painting over the last seventy years, viewing influences, styles, movements, and key artists.

"It's Not the Heat, It's the Humidity, Stupid!" Mike Fleming,2022-10-04 *"It's Not the Heat, it's the Humidity, Stupid!"* chronicles the life of Nick Finch, the fifth of five children of J.W. and Charlene Finch from the post WW II meeting of his parents to his life growing up in one of the most unique places in the United States, Palm Beach County. Follow his journey from childhood to college to a career in the classroom surrounded by personalities, events, and challenges that will leave you laughing, grinning, and even at times, crying. Set in Palm Beach County as the backdrop for some sixty years of Nick Finch's incredible journey so come along for the ride and make sure you have sunscreen and an umbrella because it is Palm Beach!

A word in a star/Eit ord i ei stjerne (bilingual edition: English and Norwegian) Hannie Rouweler,Jostein Sæbøe,2011-11-03 Bilingual translations ENGLISH into NORWEGIAN of poems by Hannie Rouweler. Translations by Jostein Sæbøe. Several themes. About a previous collection: *Lakes and Gardens* contains an unusual richness of motives, ranging from family situations, childhood memories and landscape observations to passion, love, loss and loneliness. Despite these innumerable and varied glimpses from the life of a mature poet, there is no danger of disintegration of poetic style or character. All through the volume we are struck by the poet's ability to let her own distinctive features mould her visions into verses, features that are characterised by humour, sincerity, sometimes irony as well as a deep wonder at the small and big mysteries of life. The images and sceneries in many of the poems reveal the poet's practice as a painter. In the most intimate poems we sense the almost physical presence of the poet and at the same time we have a feeling that everyday words put on a deeper symbolic message. Jostein Sæbøe

Wave Riders Lauren St John,2022-05-24 The sea almost killed them, and now it must lead them to the truth in this standalone middle-grade eco-mystery about twins lost on the high seas from the author of the bestselling novel The White Giraffe. Twelve-year-old Jess and Jude live a dream life on a battered old yacht, sailing from one exotic destination to the next with their guardian. But when he vanishes one night after an argument with a stranger, the twins are left alone, facing an incoming storm and an unknown enemy. Surviving at sea is just the start of an adventure that will take them an ocean away to the former home of their missing parents and pit them against one of the world's most powerful men. How far do they dare go, and what will they risk, to find the truth about who they are really are? Wave Riders from Lauren St John is an exciting and compelling middle-grade tale of sailing, family, and identity.

Italian Paintings XIV-XVI Centuries in the Museum of Fine Arts, Houston Museum of Fine Arts, Houston,Carolyn C. Wilson,1996 Dr Wilson's meticulously researched text is the first comprehensive and in-depth treatment of these holdings. The paintings are presented in rich art-historical contexts and recent technical studies are well illustrated, as are comparative works of art. The greater part of the collection has been examined through infrared reflectography, on which Molly Faries contributes an important essay.

Recomposing Art and Science Irene Hediger,Jill Scott,2016-09-12 The interfaces between art and the scientific disciplines of biology, environmental science, neuroscience, and physics pose interdisciplinary questions that are an inspiration to researchers. The authors compare artists' experimentation set-ups and thereby reveal new levels of knowledge. The examples in the Artists-in-Labs program illustrate how artists approach problems and, in this way, create new tools for science. The authors of this illustrated volume of essays include Harriet Hawkins, Irene Hediger, Jill Scott, Arnd Schneider , Susanne Witzgall, Lisa Blackman, Jens Hauser and Dieter Mersch.

Imaging Marine Life Emmanuel G. Reynaud,2013-11-19 Written by an international team of experts from the Tara Oceans Marine Biology Imaging Platform (TAOMI), this is the first and only compendium on marine imaging technologies,

and includes all known underwater as well as on-land techniques. TAOMI is imaging the largest collection of marine organisms in recent history, ranging from viruses to corals, and is duplicated on land to perform high throughput confocal analysis of plankton, X-ray tomography as well as cryo-electron microscopy. This unique platform combines underwater imaging with cytometry, stereomicroscopy, fluorescence microscopy and 3D microscopy - all of which are covered in this practical book, along with remote sensing, MRI, and optical projection tomography. The definitive resource for every marine biologist who is planning to image marine species, whether underwater or on land.

From Pergamon to Sperlonga Nancy T. de Grummond, Brunilde S. Ridgway, 2023-04-28 This volume brings together the work of leading scholars on two of the most important, yet puzzling, extant ensembles of Hellenistic Age sculpture: the Great Altar at Pergamon, with its Gigantomachy and scenes from the life of Telephos, and the Cave at Sperlonga in Italy, with its epic themes connected especially with the adventures of Odysseus. From Pergamon to Sperlonga has three aims: to update the scholarship on two important monuments of ancient art and architecture; to debate questions of iconography, authorship, and date; and to broaden the scope of discussion on these monuments beyond the boundaries of studies done in the past. In addition, the volume brings forward new ideas about how these two monuments are connected and discusses possible means by which stylistic influences were transmitted between them.

Attractive Performances Frits Naerebout, 2023-07-17 This book is not another history of the dance in ancient Greece, but wants to lay the groundwork on which such a history should properly be built. The three preliminary studies offered here are, first, an extensive historiography of the subject which seeks to illuminate where we stand at present in reference to the large amount of work done on ancient Greek dance for the past 500 years. Secondly, an exercise in source criticism, embracing both texts and imagery, in order to establish the limits to which we can push any investigation, and thirdly, an attempt at model building to provide an explicit theoretical framework for future research. This is the first time that some of the approaches of the new dance scholarship which has arisen during the past few decades have been systematically applied to the dancing of the ancient world.

The Espresso Break Barbara Zaragoza, 2012-03 Travel to Hades and Purgatory, roam the ruins like the gluttonous Romans, or watch miracles happen. The Espresso Break takes you into the mythical land that is the oldest city in the Western World -- Naples, Italy -- and beyond.

You are Here this is Now David Levithan, 2002 A startling, provocative collection from the best under-18 writers and artists in America. Astonishing. Remarkable. Perceptive.
