American Literature in Transition, 1950-1960 Steven Belletto, 2017-12-28 American Literature in Transition, 1950-1960 explores the under-recognized complexity and variety of 1950s American literature by focalizing discussions through a series of keywords and formats that encourage readers to draw fresh connections among literary form and concepts, institutions, cultures, and social phenomena important to the decade. The first section draws attention to the relationship between literature and cultural phenomena that were new to the 1950s. The second section demonstrates the range of subject positions important in the 1950s, but still not visible in many accounts of the era. The third section explores key literary schools or movements associated with the decade, and explains how and why they developed at this particular cultural moment. The final section focuses on specific forms or genres that grew to special prominence during the 1950s. Taken together, the chapters in the four sections not only encourage us to rethink familiar texts and figures in new lights, but they also propose new archives for future study of the decade.

The Dream of the Great American Novel Lawrence Buell, 2014-02-10 "Magisterial . . . make[s] you suddenly see new

things in familiar books . . . brilliant analyses of a dozen or so front-runners in the Great American Novel sweepstakes.” —Michael Dirda, *Virginia Quarterly Review* The idea of “the great American novel” continues to thrive almost as vigorously as in its nineteenth-century heyday, defying more than 150 years of attempts to dismiss it as amateurish or obsolete. In this landmark book, the first in many years to take in the whole sweep of national fiction, Lawrence Buell reanimates this supposedly antiquated idea, demonstrating that its history is a key to the dynamics of national literature and national identity itself. The dream of the G.A.N., as Henry James nicknamed it, crystallized soon after the Civil War. In fresh, in-depth readings of selected contenders from the 1850s onward in conversation with hundreds of other novels, Buell delineates four “scripts” for G.A.N. candidates and their themes, illustrated by such titles as *The Scarlet Letter*, *The Great Gatsby*, *Invisible Man*, *Uncle Tom’s Cabin*, *Beloved*, *Moby-Dick*, and *Gravity’s Rainbow*—works dwelling on topics from self-invention to the promise and pitfalls of democracy. The canvas of the great American novel is in constant motion, reflecting revolutions in fictional fashion, the changing face of authorship, and the inseparability of high culture from popular. As Buell reveals, the elusive G.A.N. showcases the myth of the United States as a nation perpetually under construction. “Engaging and provocative . . . ultimately affirms the importance of literature to a nation’s sense of itself.” —Sarah Graham, *Times Literary Supplement* “Rich in critical insight . . . Buell wonders if the GAN isn’t stirring again in surprising new developments in science fiction. An impressively ambitious literary survey.” —Booklist (starred review)

The Complete Idiot's Guide to American Literature Laurie Rozakis, 1999-08-01 You're no idiot, of course. You know that Samuel Clemens had a better-known pen name, Moby Dick is a famous whale, and the Raven only said, Nevermore. But when it comes to understanding the great works of Mark Twain, Herman Melville, and Edgar Allan Poe, you'd rather rent the videos than head to your local library. Don't tear up your library card yet! *The Complete Idiot's Guide® to American Literature* teaches you all about the rich tradition of American prose and poetry, so you can fully appreciate its magnificent diversity.

The American Popular Novel After World War II David Willbern, 2013-03-29 Through the perspectives of selected best-selling novels from the end of World War II to the end of the 20th century—including *The Catcher in the Rye*, *To Kill a Mockingbird*, *The Godfather*, *Jaws*, *Beloved*, *The Silence of the Lambs*, and *Jurassic Park*—this book examines the crucial issues the U.S. was experiencing during those decades. These novels represent the voices of popular conversations, as Americans considered issues of family, class, racism and sexism, feminism, economic ambition, sexual violence, war, law, religion and science. Through the windows of fiction, the book surveys the Cold War and anti-communism, the prefeminist era of the 1950s and the sexual revolution of the 1970s, forms of corporate power in the 1960s and 1980s, the traumatic legacies of slavery and Vietnam, the American fascination with lawyers, cops and criminals, alternate styles of romance in the

era of late capitalism, our abiding distrust of science, and our steadfast wonder about the Great Mysteries.

Twentieth-Century and Contemporary American Literature in Context Linda De Roche, 2021-06-04 This four-volume reference work surveys American literature from the early 20th century to the present day, featuring a diverse range of American works and authors and an expansive selection of primary source materials. Bringing useful and engaging material into the classroom, this four-volume set covers more than a century of American literary history—from 1900 to the present. *Twentieth-Century and Contemporary American Literature in Context* profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical, cultural, and political contexts that have shaped American writing. *Twentieth-Century and Contemporary American Literature in Context* provides wide coverage of authors, works, genres, and movements that are emblematic of the diversity of modern America. Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research.

The Oxford Encyclopedia of American Literature Jay Parini, 2004 The *Encyclopedia of American Literature* gathers together 350 essays from over 190 leading scholars on the whole of American literature, from European discovery to the present. At the core of the *Encyclopedia* lie 250 essays on poets, playwrights, essayists, and novelists. Figures such as Whitman, Melville, Faulkner, Frost, and Morrison are discussed in detail with each examined in the context of his or her times, an assessment of the writer's current reputation, a bibliography of major works, and a list of major critical and biographical works about the writer. Fifty entries on major works such as *Moby Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman*, and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach. The *Encyclopedia* also contains essays on literary movements, periods, and themes, pulling together a broad range of information and making connections between them. Each entry has its own primary and annotated secondary bibliography, and a system of cross-references helps readers locate information with ease. The *Encyclopedia of American Literature* is an outstanding reference source for students studying authors, or particular pieces of literature; libraries looking for one comprehensive source; and readers interested in American literature, its authors, and its connection with various areas of study.

American Popular Culture in the Era of Terror Jesse Kavadlo, 2015-09-15 Bringing together the most popular genres of the 21st century, this book argues that Americans have entered a new era of narrative dominated by the fear—and wish fulfillment—of the breakdown of authority and terror itself. Bringing together disparate and popular genres of the 21st century, *American Popular Culture in the Era of Terror: Falling Skies, Dark Knights Rising, and Collapsing Cultures* argues

that popular culture has been preoccupied by fantasies and narratives dominated by the anxiety —and, strangely, the wish fulfillment—that comes from the breakdowns of morality, family, law and order, and storytelling itself. From aging superheroes to young adult dystopias, heroic killers to lustrous vampires, the figures of our fiction, film, and television again and again reveal and revel in the imagery of terror. Kavadlo's single-author, thesis-driven book makes the case that many of the novels and films about September 11, 2001, have been about much more than terrorism alone, while popular stories that may not seem related to September 11 are deeply connected to it. The book examines New York novels written in response to September 11 along with the anti-heroes of television and the resurgence of zombies and vampires in film and fiction to draw a correlation between Kavadlo's Era of Terror and the events of September 11, 2001. Geared toward college students, graduate students, and academics interested in popular culture, the book connects multiple topics to appeal to a wide audience.

American Fiction, American Myth Philip Young, David Morrell, Sandra Spanier, 2010-11 Few experts in American literature have written as insightfully and brilliantly as did Philip Young, renowned Hemingway critic and scholar at large. His unique work bursts with a joy in the humanities, with a sensibility, a humor, and a style that communicate to academics and general readers alike. Although Young died in 1991, he survives in his remarkable prose. *American Fiction, American Myth* features nineteen groundbreaking essays in which Young masterfully reveals the &so what?& that he insisted all literary studies ought to have. In the first section, he demonstrates his fascination with such American myths as Pocahontas and Rip Van Winkle, reaching powerful conclusions about America and its people. In the second section, he becomes &Our Hemingway Man,& explaining his germinal and still provocative theory that Hemingway's severe wounding in World War I so traumatized the novelist that his fiction was to a great degree unwitting self-psychoanalysis. Young's book on Hemingway was the first of its kind, but Young was more than a one-author critic, as his essays demonstrate in the third section, exploring such diverse topics as Hawthorne's secret love, the Lost Generation that was never lost, F. Scott Fitzgerald's debt to T. S. Eliot, and the relationship between American fiction and American life. What Hemingway once said about himself can be equally applied to Young: &I am a very serious but not a solemn writer.& The reader comes away from these essays dazzled by the power of Young's observations and the grace with which he expresses them.

Harper,James Weldon Johnson,Claude McKay,Countee Cullen,Harriet Jacobs,Booker T. Washington,William Still,W. E. B. Du Bois,2025-05-05 African American literature is the body of literature produced in the United States by writers of African descent. It begins with the works of such late 18th-century writers as Phillis Wheatley. Before the high point of enslaved people narratives, African-American literature was dominated by autobiographical spiritual narratives. The genre known as slave narratives in the 19th century were accounts by people who had generally escaped from slavery, about their journeys to freedom and ways they claimed their lives. The Harlem Renaissance of the 1920s was a great period of flowering in literature and the arts, influenced both by writers who came North in the Great Migration and those who were immigrants from Jamaica and other Caribbean islands. The collection includes works by such prominent masters of American literature as Frederick Douglass, Nella Larsen, Charles W. Chesnutt , Paul Laurence Dunbar, Phillis Wheatley, Langston Hughes, Booker T. Washington , W. E. B. Du Bois and many others.
