**Octavio Francisco González Castillo, Valentina Antoniucci, Enrique Mendieta Márquez, Margarita Juárez Nájera, Alberto Cedeño Valdiviezo, Mariana Osorno Castro**

*Muerte y vida de las grandes ciudades* Jane Jacobs, 2020-11-27 Cincuenta años después de su publicación, *Muerte y vida de las grandes ciudades* es, según el New York Times, probablemente el libro más influyente en la historia de la planificación urbana. Jane Jacobs, columnista y crítica de arquitectura de principios de los años sesenta, afirmaba que la diversidad y la vitalidad de las ciudades estaban siendo destruidas por algunos arquitectos y urbanistas muy influyentes. Popular no sólo entre profesionales, el libro es una fuerte crítica de las políticas de renovación urbanística de los años cincuenta, que destruían comunidades y creaban espacios urbanos aislados y antinaturales. Jacobs defiende la abolición de los reglamentos de ordenación territorial y el restablecimiento de mercados libres de tierra, lo que daría como resultado barrios densos y de uso mixto. Frecuentemente cita el Greenwich Village neoyorkino como ejemplo de una comunidad urbana dinámica. Riguroso, lúcido y deliciosamente epigramático, *Muerte y vida* es un programa para la gestión humanista de las ciudades. Sensato, documentado, ameno e indispensable.

*Planificación estratégica de ciudades* José Miguel Fernández Güell, 2019-02-15 Este libro persigue dos fines principales; por un lado, actualizar y ampliar un campo de conocimiento, el de la planificación estratégica, que crece paulatinamente y que atrae la atención de las nuevas generaciones de urbanistas; por otro lado, mantener vivo el debate sobre la crisis y validez de la planificación urbana contemporánea, para lo que se utiliza siempre un tono optimista sobre las posibilidades de la buena gobernabilidad para superar los desafíos del futuro. Esta nueva edición constituye una revisión profunda de la primera edición de este libro (1997). El resultado ha sido una transformación rigurosa y crítica de la estructura y los contenidos iniciales.

**La ciudad de las putas** Morquecho Sánchez, 2023-10-03 El vapor etílico puede cobrar tantas formas como las nubes. En un lugar perdido de América, Santana hace memoria de las mujeres fatales que lo acompañaron en noches fatalmente destinadas a la mañana y a la cotidianeidad sin sentido.

**Invisible Reconstruction** Lucia Patrizio Gunning, Paola Rizzi, 2022-12-06 What does it really mean to reconstruct a city after a natural, biological or man-made disaster? Is the repair and reinstatement of buildings and infrastructure sufficient without the mending of social fabric? The authors of this volume believe that the true measure of success should be societal. After all, a city without people is no city at all. Invisible Reconstruction takes the view that effective disaster mitigation and recovery require interdisciplinary tactics. Historian Lucia Patrizio Gunning and urbanist Paola Rizzi expand beyond the confines of individual disciplines or disaster studies to bring together academics and practitioners from a wide variety of disciplines, comparing strategies and outcomes in different scenarios and cultures from South America, Europe and Asia. From cultural heritage and public space to education and participation, contributors reflect on the interconnection of people, culture and environment and on constructive approaches to strengthening the intangible ties to increase resilience and reduce vulnerability. By bringing practical examples of how communities and individuals have reacted to or prepared for disaster, the publication proposes a shift in public policy to ensure that essential physical reinforcement and rebuilding are matched by attention to societal needs. Invisible Reconstruction is essential reading for policymakers, academics and practitioners working to reduce the impact of natural, biological and man-made disaster or to improve post-disaster recovery.

**Inclusive Cities and Global Urban Transformation** Ajay Bailey, Kei Otsuki, 2025-01-03 This open access book addresses the problem of global urban development that excludes various groups of people from the benefits of urban growth and sustainable development. Using the intersectionality and agency of urban dwellers and citizens, it outlines possibilities of responsive urban governance that builds on principles of the inclusive city. The book's first section presents various cases of digital, smart, logistical, and green infrastructure that drive a city's growth and sustainable development while excluding various citizens from these benefits. The second and third sections focus on the intersectionality and agency of urban citizens vulnerable to marginalization in different urban contexts—such as the elderly, people with various physical and mental challenges, women, and children. The last section presents the cases of potential forms of responsive governance and possibilities for future inclusive city planning and development. This book appeals to students of urban and development studies and planning and related disciplines, such as human and cultural geography, applied anthropology, sociology, sustainability sciences, architecture, and design. It is also helpful for activists and practitioners as illustrative cases presented in the book show various experiences and possibilities for making a city inclusive.

**Iglesia Centrada** Timothy Keller, 2013-01-08 A muchos pastores les cuesta un gran esfuerzo convertir sus principios teológicos en un ministerio fructífero en los lugares que han sido llamados a alcanzar. No les es suficiente saber lo que se debe creer (la teología), o la forma en que se debe trabajar en el ministerio (la metodología). Necesitan algo que se halle entre ambos extremos. Necesitan ayudar a pensar en función del ministerio dentro de una cultura que ha dejado de creer

que el cristianismo sea una fuerza beneficosa, sin mencionar siquiera que en la Persona de Cristo se encuentre la fuente máxima de la verdad revelada. Iglesia Punto Central, una colección de doce ensayos escritos por Timothy Keller, esboza una visión teología del ministerio que está organizada alrededor de tres compromisos básicos: • Centrarnos en el Evangelio: El Evangelio de la gracia en Jesucristo lo transforma todo; desde nuestro corazón hasta nuestra comunidad y el mundo entero. Le da una forma totalmente nueva al contenido, la tonalidad y las estrategias en todo lo que hagamos. • Centrarnos en la ciudad: Con un acercamiento positivo a nuestra cultura actual, aprendemos a proclamar que las ciudades son lugares maravillosos y estratégicos que no nos merecemos, y en los cuales podemos desarrollar el ministerio del Evangelio. • Centrarnos en el movimiento: En lugar de edificar nuestra propia tribu, buscamos la prosperidad y la paz de nuestra comunidad, dirigidos por el Espíritu Santo.

**Housing the Future** Graham Cairns,Rachel Isaac-Menard,2015-12-31 Housing The Future: Alternative Approaches for Tomorrow offers three perspectives on the problems of housing today with an eye on tomorrow. It brings together world-leading practising architects with academics from seven countries and teams of international students. World leaders in the field of residential design such as UN Habitat Award winner Avi Friedman present built projects whose design criteria and aims they lay out in text. Academics from the UK, the USA, Spain, Germany and elsewhere follow these project descriptions with extended essays from a more theoretical perspective but remain focused on the realities of practice. Finally, ideas on current housing problems from the next generation of designers are brought together in student projects from Europe and North America. With an introduction by Dr Graham Cairns, this book highlights the practice of residential design internationally at a time when affordable housing provision is seen as a critical issue by designers, planners and policy makers alike.

Urban Resilience: Methodologies, Tools and Evaluation Octavio Francisco González Castillo,Valentina Antoniucci,Enrique Mendieta Márquez,Margarita Juárez Nájera,Alberto Cedeño Valdiviezo,Mariana Osorno Castro,2023-01-10 This book presents a select set of papers from an international and multidisciplinary approach, outlining the vanguard in the field of methodology, tools, and evaluation of the movement towards urban resilience. Reflecting on and redesigning the guidelines that orient the planning and management of urban development has become, today, an issue of global scope and priority that demands the committed and determined participation of society. Faced with the formidable challenge of guiding our cities towards sustainability, it is necessary to develop new approaches, paradigms, models, methodologies, and tools that make it possible to assess and raise the resilience profile of urban socio-ecosystems. The experiences that are developed in this book offer a wide and diverse set of concepts, theories, methodologies, instruments, and casuistry, impregnated by resilience notion, to inspire, influence, and guide thinking and practice for architects, urban planners, government officials, businessmen, civil and research organizations. In this book, the reader will be able to review either theoretical-methodology

to organize notions on urban resilience, or application cases in a variety of areas and subsystems of a city but, being all of them inevitably and intricately linked through a complex matrix of structures and interactions that determine future, well-being, and resilience of urban socio-ecosystems in the global anthropo-environment.

**Administración pública del Ecuador ¿Dónde estamos? ¿Tenemos una agenda?** Efrén Guerrero, 2023-03-23 El propósito de este texto es hacer una visión exploratoria del alcance, características y usos de la Gestión Pública, aplicado a casos concretos, y su implementación en la administración pública ecuatoriana. Como se verá en las páginas de este documento, se propone esta área como una ciencia de la acción, en la que los elementos jurídicos, políticos y económicos se combinan, con el fin de asegurar el mejor ejercicio de los derechos fundamentales y la concreción de los objetivos de Estado. En este sentido, y la mayoría de autores coinciden con que el proceso de reforma del Estado tan necesaria en nuestra orbita nacional o regional, es una acción nacida de una necesidad de largo plazo, con fuertes vasos comunicantes entre la acción de la administración con actores políticos dotados de legitimidad electoral. Los textos que se encontrarán en las siguientes páginas tienen varios elementos en común: los Estados no se gobiernan como un acto puramente técnico-racional, sino que ejercen el arte de gobernar (statecraft) con actos conscientes e inconscientes, para gestionar las tensiones de los diferentes involucrados es una política pública.

**Urbicide** Fernando Carrión Mena, Paulina Cepeda Pico, 2023-03-23 This book uses the reflection of academics specialized in the urban area of Latin America, Europe and the United States, to initiate a comparative debate of the different dynamics in which Urbicidio expresses itself. The field or focal point of analysis that this publication approaches is the city, but under a new critical perspective of inverse methodology to that has been traditional used. It is about understanding the structural causes of self-destruction to finally thinking better and then going from pessimism to optimism. It is a deep look at the city from an unconventional entrance, because it is about knowing and analyzing what the city loses by the action deployed by own urbanites, both in the field of its production and in the field of its consumption. This suppose that the city does not have an ascending linear sequential evolution in its development but neither in each of its parts in the improvement process, showing the face that commonly not seen but others live. The category used for this purpose is that of Urbicidio or the death of the city, which contributes theoretically and methodologically to the knowledge of the city, as well as to the design of urban policies that neutralize it. In addition, it is worth mentioning that the book has an inclusive view of the authors. For this reason, gender parity, territorial representation and the presence of age groups have been sought.

Contemporary Perspectives on Jane Jacobs Dirk Schubert, 2016-05-13 Jane Jacobs's famous book *The Death and Life of Great American Cities* (1961) has challenged the discipline of urban planning and led to a paradigm shift. Controversial in the 1960s, most of her ideas became generally accepted within a decade or so after publication, not only in North America but worldwide, as the articles in this volume demonstrate. Based on cross-disciplinary and transnational approaches, this

book offers new insights into her complex and often contrarian way of thinking as well as analyses of her impact on urban planning theory and the consequences for planning practice. Now, more than 50 years after the initial publication, in a period of rapid globalisation and deregulated approaches in planning, new challenges arise. The contributions in this book argue that it is not possible simply to follow Jane Jacobs's ideas to the letter, but instead it is necessary to contextualize them, to look for relevant lessons for cities and planners, and critically to re-evaluate why and how some of her ideas might be updated. Bringing together an international team of scholars and writers, this volume develops conclusions based on new research as to how her work can be re-interpreted under different circumstances and utilized in the current debate about the proclaimed 'millennium of the city', the 21st century.

**Del retribucionismo hacia la cultura de la convivencia** Marcela Gutiérrez Quevedo, Ángela Marcela Olarte Delgado, 2023-04-13 Esta publicación es el resultado de las investigaciones realizadas, durante el 2022, promovidas por la Red de Investigadores del Centro de Investigación en Política Criminal de la Universidad Externado de Colombia y presentadas en el congreso internacional Del retribucionismo hacia una cultura de la convivencia. Esta publicación pretende, por un lado, generar reflexiones sobre los aportes de las justicias propias a la justicia restaurativa desde una perspectiva intercultural; de ahí la necesidad de superar el retribucionismo según el cual la víctima y el ofensor tienen pocas posibilidades de encuentro para la expresión de las necesidades causadas por el daño y el reconocimiento del mismo. Por otro lado, busca acercar a los y las lectoras a ejemplos de justicia restaurativa dentro del sistema judicial penal y a iniciativas de prevención, como parte de la política social que permite la reducción de las violencias, la disminución del uso del sistema penal y el mejoramiento de las condiciones de vida, especialmente de la población juvenil.

Urbanismo Regenerativo Landlab, Paisaje Transversal, 2024-01-23 We are living in a critical moment, a reality marked by environmental and socio-economic limits that requires innovative and realistic forms of action and planning. This is what regenerative urbanism proposes, a new approach based on utopian pragmatism that seeks to restore balance to the urban territory by designing systems that allow it to adapt and transform. It is a methodology that defines models that do not consume available resources, but rather generate new ones that ensure compatibility between economic and social prosperity and nature. Santander, Hábitat Futuro (Santander, Future Habitat) is the city model created from this methodology, a proposal for the transformation of this city for the year 2055. It is an open model based on innovation and citizen participation that prepares and adapts the territory for the different scenarios to come. Santander, Habitat Futuro is a guide that directs the commitment of the different social, economic and political agents towards a common goal: to achieve a circular, sustainable, resilient, vertebrate, prosperous, vital and inclusive city. A model that, due to its innovative nature, can serve as an example to other intermediate cities around the world.

El derecho a la ciudad y el buen gobierno urbano Bandrés Sánchez-Cruzat, José Manuel, 2022-09-01 La ciudad, un mundo

de derechos. La ciudad es un proyecto de libertad resultado de un espíritu colectivo que ambiciona crear un espacio público diverso e inclusivo de participación democrática y de transformación social del que todos sus habitantes se consideren corresponsables. Sintetiza la evolución de las distintas civilizaciones a lo largo de la historia que se proyecta hacia el futuro en la búsqueda de la ciudad utópica o ideal donde todos, sin egoísmos, convivamos fraternalmente en plena armonía con la naturaleza. Este ensayo constituye una de las contribuciones más relevantes al estudio del derecho a la ciudad como factor determinante de la definición, articulación e implementación de las políticas urbanas. La excepcional naturaleza de esta obra deriva de la propuesta de reconstrucción política, económica, social ecológica y cultural de la ciudad. Estas propuestas se abordan desde campos tan diversos como la teoría de los derechos humanos y las libertades públicas, la ética política de la responsabilidad, la sociología urbana y los postulados que rigen la gobernanza urbana en términos de resiliencia y sostenibilidad.

**Counteracting the Neoliberal City** Michaela De Marco, 2025-09-22 This book presents a groundbreaking theoretical and methodological framework for analyzing urban phenomena and urban policies and a pioneering approach to urban regeneration projects. The text advocates for an “Integral and Recognitive Urban Regeneration” of public spaces in cities to confront current neoliberal urban policies, which have been ineffective in achieving genuine overall “wellbeing” in contemporary urban environments. “Integral and Recognitive Urban Regeneration” is a macro-process composed of several micro-contextualized urban projects that account for the complexity of urban spaces. This process goes beyond merely enhancing the aesthetics and functionality of architectural spaces, rather presenting itself as an educational, community-oriented, cooperative, creative, socializing, eco-friendly, multidisciplinary, and transdisciplinary process that serves as a platform for regenerating compromised ecosystems; promoting the cognitive, psychological, emotional, social, and political empowerment of resident communities; and addressing local and global forms of social and ecological injustice. As such, this book is an essential resource for students, researchers, academics, and experienced planners alike.

*Construir y habitar* Richard Sennett, 2019-03-13 Cómo deberían ser las ciudades del futuro? ¿Cómo ha evolucionado su planificación a lo largo de la historia? ¿Cómo afecta a nuestra vida el entorno urbano en el que vivimos? ¿Qué valores urbanísticos se deberían potenciar? ¿Qué lastres se deberían desterrar? Repensar la ciudad es el objetivo último de este libro, que hace un recorrido por su evolución partiendo de los dos ámbitos en los que trabaja el autor, el de la sociología y el del urbanismo, y tomando como base tanto reflexiones de arquitectos y urbanistas como de filósofos. Construir y habitar recorre la historia de las ciudades desde el ágora griega hasta las urbes del siglo XXI como Shanghái. Repasa las propuestas de los grandes innovadores de la planificación urbana en el siglo XIX -Hausmann y Cerdà-, la creación de la ciudad del siglo XX en Europa y Estados Unidos de la mano de arquitectos como Le Corbusier y su evolución en el XXI en países emergentes

como China, India, Brasil, México o algunos africanos. Y aborda ejemplos concretos, que van del diseño de Central Park en Nueva York a la sede de Google, el Googleplex, pasando por las bibliotecas de Medellín, el desarrollo urbanístico de Delhi... Este libro cierra la trilogía del Homo faber de Richard Sennett, cuyas dos entregas anteriores, El artesano y Juntos, también están publicadas en esta colección. Son tres obras independientes, pero que, leídas en conjunto, proporcionan una de las reflexiones más lúcidas y estimulantes sobre la sociedad contemporánea.
