Women and Religion Ruspini, Elisabetta, Bonifacio, Glenda Tibe, 2019-09-11 This edited collection provides interdisciplinary, global, and multi-religious perspectives on the relationship between women's identities, religion, and social change in the contemporary world. The book discusses the experiences and positions of women, and particular groups of women, to understand patterns of religiosity and religious change. It also addresses the current and future challenges posed by women's changes to religion in different parts of the world and among different religious traditions and practices. The contributors address a diverse range of themes and issues including the attitudes of different religions to gender equality; how women construct their identity through religious activity; whether women have opportunity to influence religious doctrine; and the impact of migration on the religious lives of both women and men.

Religion & Identity Politics: Global Trends And Local Realities Mathews Mathew, Melvin Tay, 2021-06-18 Discourse on fundamentalism has gained much attention in recent years, particularly in a post-9/11 context where extremist or terrorist

threats are more prominent, perilous, and pervasive. This edited volume seeks to spotlight the perspectives of academics and practitioners vis-à-vis global trends in religious fundamentalism and right-wing extremism over the past decade. It presents a collection of works from notable academics and practitioners; including a selection of case studies from Asia to illustrate the contemporary interplay of religion, politics and identity; alongside broader global trends of religious fundamentalism. The chapters that follow attempt to trace the sources and factors that led to the dramatic rise in these powerful forces of faith, which influence societies and politics around the world. Together, they present a carefully curated narrative of the interplay of religion and identity politics globally and across Asia. The prevailing differences in demographics, history and the extent of ethno-religious diversity across country contexts are perused across each chapter, and the ensuing circumstances deliberated upon. As these circumstances change, the ways people interpret their identities, engage in politics, and navigate their religion will also evolve. How we manage the effects of religious fundamentalism must hence begin with an understanding of how religion, identity, and politics interact — and this is what the upcoming chapters seek to illustrate.

Religion, Authority, and the State Leo D. Lefebure, 2016-08-03 In commemoration of Constantine's grant of freedom of religion to Christians, this wide-ranging volume examines the ambiguous legacy of this emperor in relation to the present world, discussing the perennial challenges of relations between religions and governments. The authors examine the new global ecumenical movement inspired by Pentecostals, the role of religion in the Irish Easter rebellion against the British, and the relation between religious freedom and government in the United States. Other essays debate the relation of Islam to the violence in Nigeria, the place of the family in church-state relations in the Philippines, the role of confessional identity in the political struggles in the Balkans, and the construction of Slavophile identity in nineteenth-century Russian Orthodox political theology. The volume also investigates the contrast between written constitutions and actual practice in the relations between governments and religions in Australia, Indonesia, and Egypt. The case studies and surveys illuminate both specific contexts and also widespread currents in religion-state relations across the world.

Disasters in the Philippines Glenda Tibe Bonifacio, Roxanna Balbido Epe, 2023-04-28 Bringing together the voices of local scholars, this book examines disasters in the Asia-Pacific region.

Gender, Religion, and Migration Glenda Tibe Bonifacio, Vivienne S. M. Angeles, 2010-01-01 Gender, Religion, and Migration is the first collection of case studies on how religion impacts the lives of (im)migrant men, women, and youth in their integration in host societies in Asia-Pacific, Europe, Latin America, and North America. It interrogates the populist ideology that religion is anathema to social integration in the post-9/11 era.

Decolonizing Religion and Peacebuilding Atalia Omer, 2023 An investigation of what consolidating religion as a

technology of peacebuilding and development does to people's accounts of their religious and cultural traditions and why interreligious peacebuilding entrenches colonial legacies in the present. Throughout the global south, local and international organizations are frequent participants in peacebuilding projects that focus on interreligious dialogue. Yet as Atalia Omer argues in *Decolonizing Religion and Peacebuilding*, the effects of their efforts are often perverse, reinforcing neocolonial practices and disempowering local religious actors. Based on empirical research of inter and intra-religious peacebuilding practices in Kenya and the Philippines, Omer identifies two paradoxical findings: first, religious peacebuilding practices are both empowering and depoliticizing and, second, more doing of religion does not necessarily denote deeper or more critical religious literacy. Further, she shows that these religious actors generate decolonial openings regardless of how closed or open their religious communities are. Hence, religion's occasional usefulness in peacebuilding does not necessarily mean justice-oriented outcomes. The book not only uses decolonial and intersectional prisms to expose the entrenched and ongoing colonial dynamics operative in religion and the practices of peacebuilding and development in the global South, but it also speaks to decolonial theory through stories of transformation and survival.

Climate Politics and the Power of Religion Evan Berry, 2022-05-17 How does our faith affect how we think about and respond to climate change? *Climate Politics and the Power of Religion* is an edited collection that explores the diverse ways that religion shapes climate politics at the local, national, and international levels. Drawing on case studies from across the globe, it stands at the intersection of religious studies, environment policy, and global politics. From small island nations confronting sea-level rise and intensifying tropical storms to high-elevation communities in the Andes and Himalayas wrestling with accelerating glacial melt, there is tremendous variation in the ways that societies draw on religion to understand and contend with climate change. *Climate Politics and the Power of Religion* offers 10 timely case studies that demonstrate how different communities render climate change within their own moral vocabularies and how such moral claims find purchase in activism and public debates about climate policy. Whether it be Hindutva policymakers in India, curanderos in Peru, or working-class people's concerns about the transgressions of petroleum extraction in Trinidad—religion affects how they all are making sense of and responding to this escalating global catastrophe.

What Does Theology Do, Actually? Matthew Ryan Robinson, Inja Inderst, 2022-07-26 »What Does Theology Do, Actually? Observing Theology and the Transcultural« is to be the first in a series of 5 books, each presented under the same question – »What Does Theology Do, Actually?«, with vols. 2-5 focusing on one of the theological subdisciplines. This first volume proceeds from the observation of a need for a highly inflected »trans-cultural«, and not simply »inter-cultural«, set of perspectives in theological work and training. The revolution brought about across the humanities disciplines through globalization and the recognition of »multiple modernities« has introduced a diversity of overlapping cultural content and multiple cultural and religious belongings not only into academic work in the humanities and social sciences, but into the

Christian churches as well.

Religions and Missionaries Around the Pacific, 1500-1900 Tanya Storch, 2006 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the Pacific in the period 1500-1900, relating these to economic and political developments and to the expansion of communication across the area. It brings together twenty-two pieces, from diaries of religious exiles and missionary field observations, to studies from a variety of academic disciplines, so enabling a multitude of voices to be heard. The articles are grouped in sections dealing with the Islamic period, the Iberian Catholic period, the Jewish diaspora, the Russian Orthodox church, the epoch of Protestant culture and finally Asian immigrant religions in the West; a substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches.

The Politics of Religion in South and Southeast Asia Ishtiaq Ahmed, 2011-05-04 The notion of a 'politics of religion' refers to the increasing role that religion plays in the politics of the contemporary world. This book presents comparative country case studies on the politics of religion in South and South Asia, including India, Pakistan and Indonesia. The politics of religion calls into question the relevance of modernist notions of secularism and democracy, with the emphasis instead on going back to indigenous roots in search of authentic ideologies and models of state and nation building. Within the context of the individual countries, chapters focus on the consequences that politics of religion has on inclusive nation-building, democracy and the rights of individuals, minorities and women. The book makes a contribution to both the theoretical and conceptual literature on the politics of religion as well as shed light on the implications and ramifications of the politics of religion on contemporary South Asian and South East Asian countries. It is of interest to students and scholars of South and South East Asian Studies, as well as Comparative Politics.

Religion in the Oval Office Gary Scott Smith, 2015-02-27 In his highly praised book *Faith and the Presidency*, Gary Scott Smith cast a revealing light on the role religion has played in presidential politics throughout our nation's history, offering comprehensive, even-handed examinations of the role of religion in the lives, politics, and policies of eleven presidents. Now, in *Religion in the Oval Office*, Smith takes on eleven more of our nation's most interesting and influential chief executives: John Adams, James Madison, John Quincy Adams, Andrew Jackson, William McKinley, Herbert Hoover, Harry Truman, Richard Nixon, George H. W. Bush, Bill Clinton, and Barack Obama. Drawing on a wide range of sources and paying close attention to historical context and America's shifting social and moral values, he examines their religious beliefs, commitments, affiliations, and practices and scrutinizes their relationships with religious leaders and communities. The result is a fascinating account of the ways in which religion has helped shape the course of our history. From John Quincy Adams' treatment of Native Americans, to Harry Truman's decision to recognize Israel, to Bill Clinton's promotion of religious liberty and welfare reform, to Barack Obama's policies on poverty and gay rights, Smith shows how strongly our presidents'

religious commitments have affected policy from the earliest days of our nation to the present. Together with Faith and the Presidency, Religion in the Oval Office provides the most comprehensive examination of the inseparable and intriguing relationship between faith and the American presidency. This book will be invaluable to anyone interested in the presidency and the role of religion in politics.

The Routledge Handbook of Religion, Gender and Society Caroline Starkey, Emma Tomalin, 2021-12-30 In an era which many now recognise as 'post-secular', the role that religions play in shaping gender identities and relationships has been awarded a renewed status in the study of societies and social change. In both the Global South and the Global North, in the 21st century, religiosity is of continuing significance, not only in people's private lives and in the family, but also in the public sphere and with respect to political and legal systems. The Routledge Handbook of Religion, Gender and Society is an outstanding reference source to these key topics, problems and debates in this exciting subject area. Comprising over 40 chapters by a team of international contributors, the Handbook is divided into 3 parts: Critical debates for religions, gender and society: theories, concepts and methodologies Issues and themes in religions, gender and society Contexts and locations Within these sections, central issues, debates and problems are examined, including activism, gender analysis, intersectionality and feminism, oppression and liberation, equality, bodies and embodiment, space and place, leadership and authority, diaspora and migration, marriage and the family, generation and aging, health and reproduction, education, violence and conflict, ecology and climate change and the role of social media. The Routledge Handbook of Religion, Gender and Society is essential reading for students and researchers in religious studies and gender studies. The Handbook will also be very useful for those in related fields, such as cultural studies, area studies, politics, sociology, anthropology and history.

Ethnicity, Race, Religion Katherine M. Hockey, David G. Horrell, 2018-06-28 This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. Religion, ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible - largely due to the modern discipline of biblical studies having developed in the context of Western Europe, concurrent with the emergence of various racial and imperial ideologies. The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity, the identities of Jews and Christians, and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study. The contributors critique various Western European and North American contexts, and bring fresh perspectives from other global contexts, providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity, race, empire, nationhood and religion. Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective, this volume is vital not only for biblical scholars but those invested in Christian, Jewish and Muslim identity.
