Vernon K. McLellan

Scare Quotes from Shakespeare Martin Harries, 2000 This book argues that moments of allusion to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture. This reenchantment, at the heart of modernity and of literary and political works central to our understanding of modernity, is the focus of this book. The author shows that allusion to supernatural moments in Shakespeare (scare quotes) allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world. He also uses these modern appropriations of Shakespeare as provocations to reread some of his works, notably Hamlet and Macbeth. Two pairs of linked chapters form the center of the book. One pair joins a reading of Marx, concentrating on The Eighteenth Brumaire, to Hamlet; the other links a reading of Keynes, focusing on The Economic Consequences of the Peace, to Macbeth. The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work, Marx's use of ghosts and Keynes's fascination with witchcraft. The sequence linking Marx to Hamlet, for example, has as its anchor the Frankfurt School's concept of the phantasmagoria, the notion that it is in the most archaic that one encounters the figure of the new. Looking closely at Marx's association of the Ghost in Hamlet with the coming revolution in turn illuminates Hamlet's association of the Ghost with the supernatural beings many believed haunted mines. An opening chapter discusses Henry Dircks, a nineteenth-century English inventor who developed—and then lost his claim to—a phantasmagoria or machine to project ghosts on stage. Dircks resorted to magical rhetoric in response to his loss, which is emblematic for the book as a whole, charting ways the scare quote can, paradoxically, continue the work of enlightenment.

The Feeling of Forgetting John Corrigan, 2023-07-06 The dual traumas of colonialism and slavery are still felt by Native Americans and African Americans as victims of ongoing cycles of white violence toward people of color. In *The Feeling of Forgetting*, John Corrigan trains our attention on an underexamined aspect of this historical trauma: the trauma experienced by white Americans as perpetrators of this violence. By tracing the practices of remembering and forgetting in the Christian tradition, Corrigan shows how experiences of racial violence and efforts, on the part of white Americans, to deliberately forget race are drivers of Christian nationalism and white supremacy. White trauma, Corrigan says, is detectable as an underground river in American culture. Sometimes it is powerfully joined with evangelical Christianity and surfaces at times in acts of brutality, terrorism, and insurrection. *The Feeling of Forgetting* is an attempt to understand how that process occurs, and how it is braided with the trauma of victims, so that we might be better positioned to address both--

Liffey and Lethe Patrick R. O'Malley,2017-03-01 Focusing on literary and cultural texts from the late eighteenth century to the early twentieth, Patrick R. O'Malley argues that in order to understand both the literature and the varieties of nationalist politics in nineteenth-century Ireland, we must understand the various modes in which the very notion of the historical past was articulated. He proposes that nineteenth-century Irish literature and culture present two competing modes of political historiography: one that eludes the unresolved wounds of Ireland's violent history through the strategic representation of a unified past that could be the model for a liberal future; and one that locates its roots not in a culturally triumphant past but rather in an account of colonial and specifically sectarian bloodshed and insists upon the moral necessity of naming that history. From myths of pre-Christian Celtic glories to medieval Catholic scholarship to the rise of the Protestant Ascendancy to narratives of colonial violence against Irish people by British power, Irish historiography strove to be the basis of a new nationalism following the 1801 Union with Great Britain, and yet it was itself riven with contention.

Representations of Forgetting in Life Writing and Fiction Gunnthorunn Gudmundsdottir, 2016-11-09 This book primarily focuses on the concept of forgetting, with particular emphasis on how we can trace the forgotten in contemporary life writing and memory texts. It consists of two main parts: the first concentrates on life writing in particular and what the author calls “scenes of forgetting”; the second examines both fiction and autobiographies that deal with questions of collective memory/forgetting. The book’s principal aim is to map methods and strategies writers employ when writing the forgotten – it argues that forgetting is a constant companion in any memory text and plays a decisive role in the memory work performed in the texts. The main theoretical objective is to examine carefully the connection between collective memory and personal memory, by drawing from two disciplines at once: memory studies and theories on life writing. By considering both areas of research, the conclusions of this study are able to feed into both theoretical perspectives.

The Hilltop Assaf Gavron, 2014-10-07 Mordantly funny and deeply moving, this award-winning novel about life in a West Bank settlement has been hailed as “brilliant” (The New York Times Book Review) and “The Great Israeli Novel [in which] Gavron stakes his claim to be Israel’s Jonathan Franzen” (Tablet). On a rocky hilltop stands Ma’aleh Hermesh C, a fledgling outpost of Jewish settlers in the West Bank. According to government records it doesn’t exist; according to the military it must be defended. On this contested land, Othniel Assis—under the wary gaze of the Palestinians in the neighboring village—lives on his farm with his ever-expanding family. As Othniel cheerfully manipulates government agencies, more settlers arrive, and a hodge-podge of shipping containers and mobile homes takes root. One steadfast resident is Gabi Kupper, a former kibbutz dweller who savors the delicate routines of life on the settlement. When Gabi’s prodigal brother, Roni, arrives penniless on his doorstep with a bizarre plan to sell the “artisanal” olive oil from the Palestinian village to Tel Aviv yuppies, Gabi worries his life won’t stay quiet for long. Then a nosy American journalist stumbles into Ma’aleh Hermesh C, and Gabi’s worst fears are confirmed. The settlement becomes the focus of an international diplomatic scandal, facing its greatest threat yet. This “indispensable novel” (The Wall Street Journal) skewers the complex, often absurd reality of life in Israel. Grappling with one of the most charged geo-political issues of our time, “Gavron’s story gains a foothold in our hearts and minds and stubbornly refuses to leave” (Kirkus Reviews, starred review).

Troubled Legacies Allan Hepburn, 2007-01-01 Last wills and testaments create tensions between those who inherit and those who imagine that they should inherit. As Victorian, modern, and contemporary novels amply demonstrate, seldom is more energy expended than at the reading of a will. Whether inheritances bring disappointment or jubilation, they create a pattern for the telling of stories, stories that involve the transmission of legacies - cultural, political, and monetary - from one generation to the next. *Troubled Legacies* examines these narratives of inheritance in British and Irish fiction from 1800 to the present. The essays in this collection set out to juxtapose legal and novelistic discourse. This reading of literature against law produces intriguing and often provocative assertions about the specific relationship between novels and inheritance. As

the contributors argue, novels reinforce property law, an argument bolstered by the examples of women, workers, Jews, and Irishmen dispossessed of their rights and unable to claim their cultural inheritances. *Troubled Legacies* thoroughly examines the connection between narrative and claims to legal entitlement, a topic that has not, to date, been comprehensively broached in literary studies.

Negative Exposures Margaret Hillenbrand, 2020-03-06 When nations decide to disown their troubled pasts, how does this strategic disavowal harden into social fact? In *Negative Exposures*, Margaret Hillenbrand investigates the erasure of key aspects of such momentous events as the Nanjing Massacre, the Cultural Revolution, and the Tiananmen Square protests from the Chinese historical consciousness, not due to amnesia or censorship but through the operations of public secrecy. Knowing what not to know, she argues, has many stakeholders, willing and otherwise, who keep quiet to protect themselves or their families out of shame, pragmatism, or the palliative effects of silence. Hillenbrand shows how secrecy works as a powerful structuring force in Chinese society, one hiding in plain sight, and identifies aesthetic artifacts that serve as modes of reckoning against this phenomenon. She analyses the proliferation of photo-forms—remediations of well-known photographs of troubling historical events rendered in such media as paint, celluloid, fabric, digital imagery, and tattoos—as imaginative spaces in which the shadows of secrecy are provocatively outlined.

Déjà Vu Peter Krapp, 2004 Referring to a past that never was, *déjà vu* shares a structure not only with fiction, but also with the ever more sophisticated effects of media technology. Tracing the term from the end of the nineteenth century, when it was first popularized in the pages of the *Revue philosophique*, Peter Krapp examines the genealogy and history of the singular and unrepeatable experience of *déjà vu*. This provocative book offers a refreshing counterpoint to the clichéd celebrations of cultural memory and forces us to do a double take on the sanctimonious warnings against forgetting so common in our time. Disturbances of cultural memory—screen memories, false recognitions, premonitions—disrupt the comfort zone of memorial culture: strictly speaking, *déjà vu* is neither a failure of memory nor a form of forgetting. Krapp's analysis of such disturbances in literature, art, and mass media introduces, historicizes, and theorizes what it means to speak of an economy of attention or distraction. Reaching from the early psychoanalytic texts of Sigmund Freud to the plays of Heiner Müller, this exploration of the effects of *déjà vu* pivots around the work of Walter Benjamin and includes readings of kitsch and aura in Andy Warhol's work, of cinematic violence and certain exaggerated claims about shooting and cutting, of the memorial character of architecture, and of the high expectations raised by the Internet. Peter Krapp, lecturer in the Department of Cultural Studies and Comparative Literature at the University of Minnesota, coedited *Medium Cool*, a special issue of the *South Atlantic Quarterly* on contemporary media theory. He has published in the fields of German studies, media studies, and literary theory and, since 1995, has acted as editor of the *Hydra Web* site for theories of literature and media.

Politics Out of History Wendy Brown, 2018-06-05 What happens to left and liberal political orientations when faith in

progress is broken, when both the sovereign individual and sovereign states seem tenuous, when desire seems as likely to seek punishment as freedom, when all political conviction is revealed as contingent and subjective? *Politics Out of History* is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared. Wendy Brown diagnoses a range of contemporary political tendencies--from moralistic high-handedness to low-lying political despair in politics, from the difficulty of formulating political alternatives to reproaches against theory in intellectual life--as the consequence of this disorientation. *Politics Out of History* also presents a provocative argument for a new approach to thinking about history--one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by, for example, identifying the haunting and constraining effects of past injustices unresolved. Brown also argues for a revitalized relationship between intellectual and political life, one that cultivates the autonomy of each while promoting their interlocutory potential. This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers--Freud, Marx, Nietzsche, Spinoza, Benjamin, Derrida--to rethink democratic possibility in our time.

Jews and Arabs in Israel Encountering Their Identities Maya Kahanoff, 2016-04-13 *Jews and Arabs in Israel Encountering their Identities* reveals the powerful potential of inter-group dialogues to transform identities and mutually negating relations. Using meetings with Israeli Jewish and Palestinian Arab students who attend the Hebrew University of Jerusalem as case studies, Kahanoff examines the hidden psychological dimensions of the Israeli-Palestinian conflict and illustrates how each participant's sense of identity shifted in response to encounters with conflicting perspectives. Kahanoff contends that an awareness of the limitations of dialogue, without the renunciation of its value, is the most realistic basis upon which to build a sustainable agreement. This book is recommended for scholars of psychology, sociology, religious studies, political science, and communication studies.
