Project Enterprise H.J. Walter, 2012-12-19 THE STORY BEHIND SPACE SHUTTLE ENTERPRISE TRAPPED IN SPACE Project Enterprise is the continuing story of Project Galaxy. The space shuttle has lost all its maneuvering and retro fuel and could possibly be stranded in space. Jack Forester, the AFV program manager, may be required to mount a rescue with the AFVs should NASA or other countries space programs be unable to do so. During Project Galaxy, the para-rescue team was stranded at Palmer station, Antarctica. Follow Antarctic Development Squadron Six as they attempt to retrieve the team and then are required to relocate the secret AFV program when the Department of Defense decides to decommission Antarctic Development Squadron Six. Once again the AFV program will come under possible scrutiny and exposure should a space shuttle rescue be attempted. Travel along with Jack as he wrestles with what decision to make and whether a rescue will be attempted or whether the astronauts will be left to die in space.

Speak it Louder Deborah Wong, 2004-07-19 Speak It Louder: Asian Americans Making Music documents the variety of musics-from traditional Asian through jazz, classical, and pop-that have been created by Asian Americans. This book is not about Asian American music but rather about Asian Americans making music. This key distinction allows the author to track a wide range of musical genres. Wong covers an astonishing variety of music, ethnically as well as stylistically: Laotian song, Cambodian music drama, karaoke, Vietnamese pop, Japanese American taiko, Asian American hip hop, and panethnic Asian American improvisational music (encompassing jazz and avant-garde classical styles). In Wong's hands these diverse styles coalesce brilliantly around a coherent and consistent set of questions about what it means for Asian Americans to make music in environments of inter-ethnic contact, about the role of performativity in shaping social identities, and about the

ways in which commercially and technologically mediated cultural production and reception transform individual perceptions of time, space, and society. *Speak It Louder: AsianAmericans Making Music* encompasses ethnomusicology, oral history, Asian American studies, and cultural performance studies. It promises to set a new standard for writing in these fields, and will raise new questions for scholars to tackle for many years to come.

11 Days in December Stanley Weintraub,2006-11-07 In 11 Days In December, master historian and biographer Stanley Weintraub tells the remarkable story of the Battle of the Bulge as it has never been told before, from frozen foxholes to barn shelters to boxcars packed with wretched prisoners of war. In late December 1944, as the Battle of the Bulge neared its climax, a German loudspeaker challenge was blared across GI lines in the Ardennes: How would you like to die for Christmas? In the inhospitable forest straddling Belgium, France, and Luxembourg, only the dense, snow-laden evergreens recalled the season. Most troops hardly knew the calendar day they were trying to live through, or that it was Hitler's last, desperate effort to alter the war's outcome. Yet the final Christmas season of World War II matched desperation with inspiration. When he was offered an ultimatum to surrender the besieged Belgian town of Bastogne, Brigadier General Anthony McAuliffe defied the Germans with the memorable one-word response, Nuts! And as General Patton prayed for clear skies to allow vital airborne reinforcements to reach his trapped men, he stood in a medieval chapel in Luxembourg and spoke to God as if to a commanding general: Sir, whose side are you on? His prayer was answered. The skies cleared, the tide of battle turned, and Allied victory in World War II was assured. Christmas 1944 proved to be one of the most fateful days in world history. Many men did extraordinary things, and extraordinary things happened to ordinary men. A clear cold Christmas, Patton told his diary, lovely weather for killing Germans, which seems a bit queer, seeing whose birthday it is. Peace on earth and good will toward men would have to wait. 11 Days in December is unforgettable.

The Parent Revolution Dr. Corey A. DeAngelis,2024-05-14 A NATIONAL (USA TODAY) BESTSELLER! ‘A great guide to help moms and dads take back control of their children’s education from the radical Marxists ruining our schools’ —

President Donald J. Trump From the leader of the online army in America's parental rights movement comes the real story of how moms and dads across the country are turning the tide against radical activists in public schools. It's no secret that our government-run public education system has held generations of Americans hostage. The teachers unions—the government's stormtroopers—have been hard at work running a mass misinformation campaign to convince parents that because this is how it has always been, this is how it has to be. But here's what you may not realize: the parents are winning, and we have entered the death spiral of the education dictatorship. The school choice revolution is here, and moms and dads are successfully restoring parental rights in education, one state, one school district at a time. In *The Parent Revolution*, Dr. Corey A. DeAngelis—public enemy #1 of the teachers' unions – takes readers inside this movement like no one else can. As Vox reported in late 2023, DeAngelis has become “the public face” of the effort, “traveling from state to state, holding rallies, making media appearances, and tweeting constantly.” Or as another education voice put it, “No one in education policy, advocacy, or activism has ever lived rent-free in more heads at once than Corey DeAngelis.” As America's most prominent and influential advocate of school choice, DeAngelis unapologetically argues why parents and political leaders must lean into the culture war taking place in schools. He exposes the hypocritical elites who are content to hold other people's children captive to poorly run government schools while sending their own children to the best private and charter schools out there. And most importantly, he equips readers with the ability to make sure the potent forces of the educational industrial complex don't regain their footing.
