Digital Draw Connections Fabio Bianconi,Marco Filippucci,2021-04-27 This book stems from the seminal work of Robert Venturi and aims at re-projecting it in the current cultural debate by extending it to the scale of landscape and placing it in connection with representative issues. It brings out the transdisciplinary synthesis of a necessarily interdisciplinary approach to the theme, aimed at creating new models which are able to represent the complexity of a contradictory reality and to redefine the centrality of human dimension. As such, the volume gathers multiple experiences developed in different geographical areas, which come into connection with the role of representation. Composed of 43 chapters written by 81 authors from around the world, with an introduction by Jim Venturi and Cezar Nicolescu, the volume is divided into two parts, the first one more theoretical and the other one which showcases real-world applications, although there is never a total split between criticism and operational experimentation of research.

Roma e Lazio 1945-2007 Roberto Cassetti,2012-10-23T00:00:00+02:00 Il libro cerca di ricostruire le grandi linee di tendenza che, in due successive ondate, hanno trasformato radicalmente la scena urbana e territoriale di Roma e del Lazio dal dopoguerra ad oggi. Tenta, in altri termini, di ritessere le fila della storia recente per comprendere come la città abbia cambiato la sua forma, la distribuzione delle sue funzioni, i caratteri degli edifici e il ruolo degli spazi urbani; come si siano instaurati nuovi legami tra i centri urbani e si siano creati insediamenti diffusi tra di essi nel territorio; e come questi elementi si colleghino tra loro e con la struttura della società e dell'economia. Questo per capire e spiegare il nuovo volto della capitale e della sua regione. Come immagine della città e della rete urbana che ci è familiare - il centro, la periferia - siamo rimasti fermi infatti, nella visione di insieme, agli anni Settanta. Ma tra gli anni Settanta e gli anni Ottanta è finita un'epoca nella storia di Roma e della sua regione e ne è iniziata una nuova. Questo libro forse può aiutarci a capire quali sono i nuovi problemi urbani che abbiamo di fronte e quali condizioni sono richieste per la loro soluzione.

The International Who's who Hyacinthe Ringrose,1910 A biographical dictionary of the world's notable living men and women.

Dance, Human Rights, and Social Justice Naomi M. Jackson,Toni Samantha Phim,2008 Dance, Human Rights, and Social Justice: Dignity in Motion presents a wide-ranging compilation of essays, spanning more than 15 countries. Organized in four parts, the articles examine the regulation and exploitation of dancers and dance activity by government and authoritative groups, including abusive treatment of dancers within the dance profession; choreography involving human rights as a central theme; the engagement of dance as a means of healing victims of human rights abuses; and national and local social/political movements in which dance plays a powerful role in helping people fight oppression. These groundbreaking papers--both detailed scholarship and riveting personal accounts--encompass a broad spectrum of issues, from slavery and the Holocaust to the Bosnian and Rwandan genocides to the Israeli-Palestinian conflict; from First Amendment cases and the AIDS epidemic to discrimination resulting from age, gender, race, and disability. A range of academics, choreographers, dancers, and dance/movement therapists draw connections between refugee camp, courtroom, theater, rehearsal studio, and university classroom.

Singing to the Lyre in Renaissance Italy Blake Wilson,2020 The first comprehensive study of the dominant form of solo singing in Renaissance Italy prior to the mid-sixteenth century.

Commerce and Conquest in the Mediterranean, 1100-1500 David Abulafia,2024-10-28 From the 12th century onwards merchants from the north Italian and southern French towns were able to take advantage of Christian conquests in southern Italy, Sicily and the Levant to penetrate and dominate the markets of these regions and of North Africa. The articles collected in this volume examine the economic, social and religious impact of this combination of trade and conquest . They include studies of the survival of Jews and Muslims in Sicily, of the debate about the 'under-development' of medieval southern Italy, Sicily and Sardinia, of relations between the rulers of those regions and the merchants, and of mercantile penetration into the kingdom of Jerusalem, Cyprus and Tunis in the wake of Crusaders and Sicilian kings. A partir du 12e siècle, les marchands venant des villes du Nord de l'Italie et du Sud de la France étaient devenus à même de tirer avantage des conquêtes chrétiennes en Italie du Sud, en Sicile et dans le Levant et de pénétrer, ainsi que de dominer les marchés de ces différentes régions et de l'Afrique du Nord. Les articles rassemblés dans ce volume examinent l'impact économique, social et religieux de cette association entre la conquête et le commerce. Le recueil comprend des études sur la survie des Juifs et des Musulmans en Sicile, sur le débat à propos du 'sous-développement' de l'Italie méridionale, de la Sicile et de la Sardaigne au Moyen Age, sur les rapports entre les dirigeants de ces régions et les marchands, ainsi que sur la pénétration mercantile du royaume de Jérusalem, de Chypre et de Tunis, dans le sillon des Croisés et des rois de Sicile.

The Military Orders Professor Peter W Edbury, 2013-07-28 Scholarly interest and popular interest in the military orders show no sign of abating. Their history stretches from the early twelfth century to the present. They were among the richest and most powerful religious corporations in pre-Reformation Europe, and they founded their own states on Rhodes and Malta and also on the Baltic coast. Historians of the Church, of art and architecture, of agriculture and banking, of medicine and warfare and of European expansion can all benefit from investigating the orders and their archives. The conferences on their history that have been organized in London every four years have attracted scholars from all over the world. The present volume records the proceedings of the Fifth Conference in 2009 (held in Cardiff as the London venue was in the process of refurbishment), and, like the earlier volumes in the series, will prove essential for anyone interested in the current state of research into these powerful institutions. The thirty-eight papers published here represent a selection of those delivered at the conference. Three papers deal with the recent archaeological investigations at the Hospitaller castle at al-Marqab (Syria); others examine aspects of the history of the military orders in the Latin East and the Mediterranean lands, in Spain and Portugal, in the British Isles and in northern and eastern Europe. The final two papers address the question of present-day perceptions of the Templars as moulded by the sort of popular literature that most of the other contributors would normally keep at arm's length.

Brokers of Public Trust Laurie Nussdorfer, 2009-10-09 This magisterial new work brings fresh insight into the essential functions of early modern Roman society and the development of the modern state.

Do good unto all Timothy G. Fehler, Jared B. Thomley, 2023-07-25 For nearly two millennia, Christians have tried to make sense of the Bible's reminder that the poor are 'always among us'. This volume explores the diverse range of ideas, institutions, and experiences early modern Europeans brought to bear in response to this biblical adage. *Do good unto all* traces the concept and practice of charity across the four major early modern Christian confessions - Catholic, Lutheran, Calvinist, and Anabaptist - and over a wide range of geographical areas from Scotland to Switzerland and the Spanish Atlantic World. By bringing such a diverse set of localised studies into concert for the first time, this volume exposes the many intersections and tensions that arose between and within communities as they attempted to translate the ideal of charity into practice. This comparative approach shifts the focus from binary definitions of 'deserving' and 'undeserving' poor or 'Catholic' and 'Protestant'. Instead, *Do good unto all* charts a new course for the study of charity beyond institutional poor relief, where the matrix of individual ideas and experiences can be fully appreciated.

Profilo della libreria bresciana del seicento: Bozzola, Turlino, Tebaldini, Fontana Luca Rivali,2013-11-13 La città di Brescia, politicamente ma anche culturalmente periferica, fin dall'età degli incunaboli aveva rappresentato un vero e proprio caso nel mondo della produzione del libro a stampa, divenendo uno dei centri più interessanti dell'Italia settentrionale. Tale vigore andò col tempo via via affievolendosi, ma i libri non sparirono dal contesto cittadino. La presenza di editori, ma soprattutto di librai, in grado di sfruttare una posizione geografica favorevole, fece di Brescia una piazza commerciale significativa, in cui i libri non solo venivano prodotti, ma arrivavano anche da altri centri e qui venivano venduti e scambiati. La presenza di poche famiglie, spesso imparentate o comunque in società tra di loro, permetteva una spartizione razionale del mercato interno ed esterno. Il volume ricostruisce il profilo di quattro importanti librai bresciani della prima metà del Seicento. Due di essi (Bozzola e Turlino) hanno già alle spalle, in questo periodo, una tradizione piuttosto lunga nel campo dell'editoria e del commercio librario. Gli altri due (Tebaldini e Fontana) iniziano ed esauriscono la loro esperienza nel corso dei primi decenni del secolo XVII. Sulla base di inventari post mortem e cataloghi editoriali, si traccia così un panorama della produzione, ma soprattutto della circolazione del libro a Brescia nella prima metà del Seicento.

Power and Imagination Lauro Martines,1988-06-22 In *Power and Imagination*, a noted historian rethinks the evolution of the city-state in Renaissance Italy and recasts the conventional distinction between society and culture. Martines traces the growth of commerce and the evolution of governments; he describes the attitudes, pleasures, and rituals of the ruling elite; and he seeks to understand the period's towering works of the imagination in literature, painting, city planning, and philosophy-not simply as the creations of individual artists, but as the formative expression of the ambitions and egos of those in power.

Fault Lines Giacomo Parrinello, 2015-05-01 Earth's fractured geology is visible in its fault lines. It is along these lines that earthquakes occur, sometimes with disastrous effects. These disturbances can significantly influence urban development, as seen in the aftermath of two earthquakes in Messina, Italy, in 1908 and in the Belice Valley, Sicily, in 1968. Following the history of these places before and after their destruction, this book explores plans and developments that preceded the disasters and the urbanism that emerged from the ruins. These stories explore fault lines between "rural" and "urban," "backwardness" and "development," and "before" and "after," shedding light on the role of environmental forces in the history of human habitats.
