Heritage and History in the China-Australia Migration Corridor Denis Byrne, Ien Ang, Phillip Mar, 2023-03-03 *Heritage and History in the China-Australia Migration Corridor* traces the material and social legacy of migration from China to Australia from the 1840s until the present day. The volume offers a multidimensional examination of the material footprint of migration as it exists at either end of the migration corridor stretching between Zhongshan county in south China and Australia. Spanning the fields of heritage studies, migration studies, and Chinese diaspora history, Denis Byrne, Ien Ang, Phillip Mar, and the other contributors foreground a transnational approach to the history and heritage of migration, one that takes account of the flows of people, ideas, objects, and money that circulate through migration corridors, forming intricate ongoing bonds between those who migrated to Australia and their home villages in China. 'This is an excellent new addition to the growing literature on the history, heritage, and archaeology of the Chinese diaspora and transnational Chinese migration. This book is poised to be a major contribution to the history and heritage of the Chinese diaspora.' —Barbara L. Voss, Stanford University 'The quality of the research and writing is very high, and the theoretical framing is sophisticated and original. This book makes a much-needed contribution to overseas Chinese heritage studies, Chinese Australian history, transnational theory, and migration history. It also provides a model for how to work respectfully and successfully with descendants and community.' —Sophie Loy-Wilson, University of Sydney

Australia on the World Stage Bridget Brooklyn, Benjamin T. Jones, Rebecca Strating, 2022-10-18 *Australia on the World Stage: History, Politics, and International Relations* offers a fresh examination of Australia's past and present. From the complex interactions of First Nations to modern international relations with significant partners and allies, it examines the forces that have influenced the place now called Australia both historically and today. It is a unique history told in two parts. The first half of the book examines the way Australia acted on the world stage both before and after British colonisation. It outlines the evolution of Australia's relationship with the United Kingdom, first as colonies, then a dominion, and finally as an independent nation. It finishes with a First Nations perspective on foreign relations. The second half of the book provides a wide-ranging history of Australia's dealings with major powers, the United States and China, as well as its relationships with New Zealand, Aotearoa, the Pacific Islands, Indonesia, Japan, Antarctica, and the United Nations. Written by leading and emerging researchers in their fields, this book encourages the reader to consider Australia's performance on the world stage

over the *longue durée*, well before the word 'Australia' was ever dreamt up. This interdisciplinary work challenges lazy stereotypes that see Australia's international history as fixed and uncontested. In revisiting Australia's foreign relations, this work also asks the reader to consider its future directions.

Chinese Colonial Entanglements Julia T. Martínez, Claire Lowrie, Gregor Benton, 2024-07-31 Chinese Colonial Entanglements takes a new geographical approach to understanding the Chinese diaspora, shining a light on Chinese engagement in labor, trade, and industry in the British colonies of the southern Asia Pacific. Starting from the 1880s, a decade when British colonization was rapidly expanding and establishing new industries and townships, this volume covers the period up to 1950, including the 1930s when economic competition saw new racialized immigration restrictions, and the 1940s when Chinese traders found new opportunities. The editors, Julia T. Martínez, Claire Lowrie, and Gregor Benton, bring together nine historians of Chinese diaspora in an effort to break down the boundaries of traditional area studies. Collectively, the chapters offer fresh comparative and transnational perspectives on economic entanglements across a region bounded by the Malay archipelago, Australia, New Zealand, and the islands of the western Pacific. Histories of white settler colonies such as Australia have tended to view Chinese diasporic experiences through the lens of exclusionary politics and closed borders. This book challenges such interpretations, bringing to the fore Chinese economic endeavors that connected Australia with Southeast Asia and the Pacific. The volume begins with an introduction that makes the case for a regional approach to Chinese diaspora history. This is followed by chapters on colonial commodity production where Chinese traders and workers were central to the development of colonial banana, phosphate, and furniture industries. These industries reflect the diversity of Chinese roles, from small business owners to indentured workers for British colonial enterprise. The book then explores the economic activities of Chinese business elite from revenue farming to intercolonial trading and rural retail. It points to colonial restrictions on business development and explains how Chinese enterprises sought to overcome restrictions through relationships with colonial leaders and by mobilizing Chinese family and transnational business networks in case studies from British North Borneo, Australia, and Samoa. Relying on diverse sources, including archival correspondence, Chinese-language newspapers, personal letters and oral histories, the authors reveal the importance of social, familial, and political connections in shaping the relationships between the colonial authorities and Chinese workers and traders.

Urban Food Culture Cecilia Leong-Salobir, 2019-04-02 This book explores the food history of twentieth-century Sydney, Shanghai and Singapore within an Asian Pacific network of flux and flows. It engages with a range of historical perspectives on each city's food and culinary histories, including colonial culinary legacies, restaurants, cafes, street food, market gardens, supermarkets and cookbooks, examining the exchange of goods and services and how the migration of people to the urban centres informed the social histories of the cities' foodways in the contexts of culinary nationalism, ethnic identities

and globalization. Considering the recent food history of the three cities and its complex narrative of empire, trade networks and migration patterns, this book discusses key aspects of each city's cuisine in the twentieth century, examining the interwoven threads of colonialism and globalization.

A Fair Day's Work Sean Scalmer, 2025-08-13 The length of the working day and the challenges of work-life balance are pressing issues for many Australians, as well as lively matters of public controversy. While the winning of the eight-hour day is celebrated as a past industrial achievement, contemporary discussions of working hours often overlook its rich history. Tracing 150 years of campaigns for rights and for the fair distribution of productivity gains, historian Sean Scalmer shows how these movements successfully reduced the length of the standard working week from 60 to 38 hours per week, and how economic, social and political shifts since the early 1980s have stalled this long-term progress. Today, industrial laws provide inadequate protection for excessive hours, and Australian women increasingly shoulder long hours of paid work with the bulk of unpaid domestic labour. This has produced a social crisis for all Australians, but is yet to inspire adequate political action. As debate over our working lives intensifies amid ongoing political, economic and technological challenges, Scalmer's labour of love on the history of work and play affords us a way to understand the past so we can win back our time—collectively.

The Chinese Question: The Gold Rushes, Chinese Migration, and Global Politics Mae Ngai, 2021-08-24 Winner of the 2022 Bancroft Prize Shortlisted for the 2022 Cundill History Prize Finalist for the 2022 Los Angeles Times Book Prize How Chinese migration to the world's goldfields upended global power and economics and forged modern conceptions of race. In roughly five decades, between 1848 and 1899, more gold was removed from the earth than had been mined in the 3,000 preceding years, bringing untold wealth to individuals and nations. But friction between Chinese and white settlers on the goldfields of California, Australia, and South Africa catalyzed a global battle over "the Chinese Question": would the United States and the British Empire outlaw Chinese immigration? This distinguished history of the Chinese diaspora and global capitalism chronicles how a feverish alchemy of race and money brought Chinese people to the West and reshaped the nineteenth-century world. Drawing on ten years of research across five continents, prize-winning historian Mae Ngai narrates the story of the thousands of Chinese who left their homeland in pursuit of gold, and how they formed communities and organizations to help navigate their perilous new world. Out of their encounters with whites, and the emigrants' assertion of autonomy and humanity, arose the pernicious western myth of the "coolie" laborer, a racist stereotype used to drive anti-Chinese sentiment. By the turn of the twentieth century, the United States and the British Empire had answered "the Chinese Question" with laws that excluded Chinese people from immigration and citizenship. Ngai explains how this happened and argues that Chinese exclusion was not extraneous to the emergent global economy but an integral part of it. The Chinese Question masterfully links important themes in world history and economics, from Europe's subjugation of

China to the rise of the international gold standard and the invention of racist, anti-Chinese stereotypes that persist to this day.

The Australian People James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today. From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century, the island continent is home to people from all over the globe. Each new wave of settlers has had a profound impact on Australian society and culture. The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people. It is one of the largest reference works of its kind, with approximately 250 expert contributors and almost one million words. Illustrated in colour and black and white, the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation.

Australia's Dictation Test Michael Williams, 2021-09-06 The last person to 'pass' White Australia's Dictation Test did so in 1907 by submitting a watercolour entitled 'Advance Australia Fair. For the next 50 years of its existence the thereafter more carefully trained officials ensured no one ever passed again. Here is detailed how the White Australia Policy came to have a fake test of dictation at the heart of its administration. Beginning as an inspired piece of hypocrisy designed to preserve the semblance of imperial equality, in the hands of the early Commonwealth of Australia this 'education test' quickly evolved into a test it was impossible to pass.
