Students's Book General English in Higher Education Agung Suhadi, S.S., M.A, 2022-01-25 This book is designed as a students' handbook for learning the "General English" course in higher education. The course is also called as "Mata Kuliah Umum Bahasa Inggris". The underlying motive in writing this book is due to the rarity of teaching material sources in field of General English for University level. The teaching topics are available in this book, are comprehensively arranged accordance to the teaching curriculum of General English course in higher education. This course is usually taught before taking English Specific Purposes (ESP) for students from any disciplines, which is a compulsory subject. In ESP level, students will learn English with more specific topics based on their fields of study, such as English for accounting, English for communication, nursing, agriculture and so on. This book presents some basics of English by more emphasizing on the integrated teaching model for speaking, vocabulary, reading, and writing. The goals of this book is to enhance students' skills in English. Several teaching topics included in this book are as the followings; Greeting Manners, Describing Things,

Describing Places, Daily Routines, Telephoning, Telling Time, Giving Direction, and What's your job. These will be learnt by conducting several activities such as describing, identifying, explaining, re-telling, comparing, reforting, discussing, dictation etc. Hopefully, this book can give useful contribution toward teaching General English in higher education.

Axmedis 2008 Jaime Delgado,Paolo Nesi,2008 The present book covers topics both on fluvial and lagoon morphodynamics. The first part is dedicated to tidal environments. Topics include an overview of main morphological

features and mechanisms of estuaries and tidal channels and a model devoted to investigate flow field pattern and bed topography in tidal meandering channels and a comparison with recent observational evidence of meanders within different tidal environments. The general failure of Bagnold hypothesis when applied to equilibrium bedload transport at even relatively modest transverse slope is demonstrated. A new model is then proposed based on an empirical entrainment formulation of bed grains.

Vergiliana Egil Kraggerud, 2016-10-04 In *Vergiliana* Egil Kraggerud collects together over 100 new, revised, and previously published discussions of textual issues in Vergil's *Eclogues*, *Georgics*, and the *Aeneid*. Through these and in his Introduction, the author argues for a less conservative approach to these texts than has been fashionable among 20th century editors and commentators. This profoundly learned, engaging and valuable contribution is a critical resource for anyone working on the works of Vergil at both under- and postgraduate level, written by one of the most respected scholars in the field.
