Law Of Attraction Zachariah Albert, 2019-07-26 Are you ready to manifest anything you want into your life? Looking closely at our everyday life, you will realize that the law of attraction is present all the time. Most people do not notice the connection because of the time lag between their thoughts and the manifestation of their thoughts. However, there are some things that happen to us that we feel happened as a result of a coincidence, not knowing it is the law of attraction that is at work. For instance, have you ever thought of calling a friend, and the friend calls you around that time? Or have you ever thought of picking up your phone, and your phone rings at that instance? These experiences are not coincidences; they are a result of the law of attraction. We get more of what we focus on in life. That is why you need to get more creative with your thoughts. In this book, I am going to show you how you can consciously and deliberately attract good things into your life by aligning your thoughts in the right way. Focusing more on things that make you happy increases your chances of attracting things that make you happy. The other side of this is the negative side which is when you focus on things you are not happy

about, you tend to attract things that will make you sad. For instance, if you focus on wealth and good health, you attract wealth and good health. However, if you focus on poverty, you will attract a situation that will rob you of the little things you have gathered. Here's a sneak preview of what you'll learn from this book: □What the Law of Attraction is □The Science behind it □How to attract Love using the LOA □How to attract Money using the LOA □How to attract Happiness using the LOA □How to attract Health using the LOA □How to be more Positive using the LOA □How to Integrate the LOA into Your Daily Life □and much much more! Christianity and the Law of Migration Silas W. Allard,Kristin Heyer,Raj Nadella,2021-09-05 This collection brings together legal scholars and Christian theologians for an interdisciplinary conversation responding to the challenges of global migration. Gathering 14 leading scholars from both law and Christian theology, the book covers legal perspectives, theological perspectives, and key concepts in migration studies. In Part 1, scholars of migration law and policy discuss the legal landscape of migration at both the domestic and international level. In Part 2, Christian theologians, ethicists, and biblical scholars draw on the resources of the Christian tradition to think about migration. In Part 3, each chapter is co-authored by a scholar of law and a scholar of Christian theology, who bring their respective resources and perspectives into conversation on key themes within migration studies. The work provides a truly interdisciplinary introduction to the topic of migration for those who are new to the subject; an opportunity for immigration lawyers and legal scholars to engage Christian theology; an opportunity for pastors and Christian theologians to engage law; and new insights on key frameworks for scholars who are already committed to the study of migration.

The National Law of Treaty Implementation John Norton Moore, 2001 The post-Vietnam era produced a host of constitutional confrontations between the President and the Congress as to their respective authority in foreign affairs. One of the most intense of these concerned the respective powers of the branches in interpretations and implementation of treaties, which was triggered between the Executive and Congress over the meaning of the 1972 U.S.-Soviet Anti-Ballistic Missile (ABM) Treaty, which became known as the broad-narrow debate. This debate, which ranks among the most complex and contentious legal debates in the history of United States foreign policy, quickly split both the Executive and Congressional branches. In that context, Professor John Norton Moore, the founder of the modern field of National Security Law, was requested by the Director of the Arms Control and Disarmament Agency to prepare a study for the Director sorting out the issues and seeking to resolve the legal dispute. Most of the multi-volume, 4000-page study compiled by Professor

Moore is still highly classified and has never been released. This volume, however, is an unclassified study presenting the arguments on all sides in the constitutional portion of this great debate. It contains as one Appendix the original Annex D to the multi-volume study summarizing the original Senate consideration of the ABM Treaty as declassified by the Director of ACDA. This book is a must for all serious constitutional scholars having an interest in the respective powers of the Congress and the President in foreign affairs, as well as those interested in the original debate on this issue.
