Curso de museología Francisco Javier Zubiaur Carreño, 2004 En los últimos años, la creación incesante de museos y la multiplicación de estudios de postgrado en la materia han puesto de actualidad la museología, cuya especialización goza de un crédito creciente en las universidades de la Unión Europea. Esta situación está demandando futuros profesionales bien formados, por lo que la preparación de manuales en esta ciencia es urgente. El profesor Zubiaur, autor de uno de los textos de Historia del Cine más reconocidos (fue Premio ENINCI 2000), dirige ahora su esfuerzo didáctico a la presentación de este Curso de museología, fruto del conocimiento de la práctica museológica en un museo autonómico —el Museo de Navarra— durante más de diez años, y de la experiencia como docente universitario en la disciplina. Este libro se propone como un manual esencial que recoja en síntesis el temario de oposiciones al Cuerpo Facultativo de Conservadores de Museos, con una preocupación constante por ofrecer las opiniones de los más destacados especialistas, mostrando la vinculación del museo con otros contextos como las bellas artes, la arqueología, la pedagogía, la dinamización sociocultural, la restauración de bienes culturales, las técnicas descriptivas documentales, o la conservación del Patrimonio en toda su amplitud.

Temario oposición conservadores de museo, 2003 Recoge temas sobre historia militar para la preparación de oposiciones para conservadores de museos.
