Dynastic Marriages 1612/1615 Margaret M. McGowan, 2016-04-29 The union of the two royal houses - the Habsburgs and the Bourbons - in the early seventeenth century illustrates the extent to which marriage was a tool of government in Renaissance Europe, and festivals a manifestation of power and cultural superiority. With contributions from scholars representing a range of disciplines, this volume provides an all-round view of the sequence of festivals and events surrounding the dynastic marriages which were agreed upon in 1612 but not celebrated until 1615 owing to the constant interruption of festivities by protestant uprisings. The occasion inspired an extraordinary range of records from exchanges of political pamphlets, descriptions of festivities, visual materials, the music of songs and ballets, and the impressions of witnesses and participants. The study of these remarkable sources shows how a team of scholars from diverse disciplines can bring into focus again the creative genius of artists: painters, architects and costume designers, musicians and poets, experts in equestrianism, in pyrotechnics, and in the use of symbolic languages. Their artistic efforts were staged against a background of intense political diplomacy and continuing civil strife; and yet, the determination of Marie de Médicis and her advisers and of the Duke of Lerma brought to a triumphant conclusion negotiations and spectacular commemorations whose legacy was to inform festival art throughout European courts for decades. In addition to printed and manuscript sources, the volume identifies ways of giving future researchers access to festival texts and studies through digitization, making the book both an in-depth analysis of a particular occasion and a blueprint for future engagement with digital festival resources.

Praying to Portraits Adam Jasienski, 2025-01-14 In *Praying to Portraits*, art historian Adam Jasienski examines the history, meaning, and cultural significance of a crucial image type in the early modern Hispanic world: the sacred portrait. Across early modern Spain and Latin America, people prayed to portraits. They prayed to “true” effigies of saints, to simple portraits that were repainted as devotional objects, and even to images of living sitters depicted as holy figures. Jasienski places these difficult-to-classify image types within their historical context. He shows that rather than being harbingers of secular

modernity and autonomous selfhood, portraits were privileged sites for mediating an individual's relationship to the divine. Using Inquisition records, hagiographies, art-theoretical treatises, poems, and plays, Jasienski convincingly demonstrates that portraiture was at the very center of broader debates about the status of images in Spain and its colonies. Highly original and persuasive, *Praying to Portraits* profoundly revises our understanding of early modern portraiture. It will intrigue art historians across geographical boundaries, and it will also find an audience among scholars of architecture, history, and religion in the early modern Hispanic world.

Iberian Books Volumes II & III / Libros Ibéricos Volúmenes II y III (2 vols) Alexander Samuel Wilkinson, Alejandra Ulla Lorenzo, 2015-10-05 *Iberian Books II & III* presents an indispensable foundational listing of everything known to have been published in Spain, Portugal and the New World, or of items printed in Spanish or Portuguese elsewhere, during the first half of the seventeenth century. Drawing on library catalogues, specialist bibliographies and studies, as well as auction catalogue records, *Iberian Books* lists 45,000 items, and the locations of some 215,000 copies surviving in 1,800 collections worldwide. These volumes offer a powerful research tool which will appeal to researchers, librarians and to the book selling and collecting communities. They will prove invaluable to anyone with a research interest in the literature, history and culture of the Iberian Peninsula in the early modern age. This set supplements *Iberian Books*, which logs the Iberian print production up to 1601. Los dos volúmenes de *Iberian Books II & III* ofrecen un registro pionero de todos los impresos publicados en España, Portugal y el Nuevo Mundo, o en español o portugués en otros lugares, entre 1601 y 1650. A partir del trabajo realizado en bibliotecas, la revisión de bibliografías especializadas y de catálogos de casas de subastas, *Iberian Books* recoge 45.000 impresos conservados en 215.000 ejemplares preservados en 1.800 colecciones de todo el mundo. Estos volúmenes ofrecen una herramienta de investigación de gran utilidad para investigadores, bibliotecarios, libreros y coleccionistas. Los dos volúmenes resultarán de enorme valor a todo aquel investigador interesado en la literatura, la historia y la cultura de la Península Ibérica de la Edad Moderna.

Insignificant Things Matthew Francis Rarey, 2023-04-17 In *Insignificant Things* Matthew Francis Rarey traces the history of the African-associated amulets that enslaved and other marginalized people carried as tools of survival in the Black Atlantic world from the seventeenth to the nineteenth centuries. Often considered visually benign by white Europeans, these amulet pouches, commonly known as “mandingas,” were used across Africa, Brazil, and Portugal and contained myriad objects, from herbs and Islamic prayers to shells and coins. Drawing on Arabic-language narratives from the West African Sahel, the archives of the Portuguese Inquisition, sixteenth- and seventeenth-century European travel and merchant accounts of the West African Coast, and early nineteenth-century Brazilian police records, Rarey shows how mandingas functioned as portable archives of their makers' experiences of enslavement, displacement, and diaspora. He presents them as examples of

the visual culture of enslavement and critical to conceptualizing Black Atlantic art history. Ultimately, Rarey looks to the archives of transatlantic slavery, which were meant to erase Black life, for objects like the mandingas that were created to protect it.
