Teaching Young Adult Literature Mike Cadden, Karen Coats, Roberta Seelinger Trites, 2020-04-01 Thanks to the success of franchises such as *The Hunger Games* and *Twilight*, young adult literature has reached a new level of prominence and popularity. Teens and adults alike are drawn to the genre's coming-of-age themes, fast pacing, and vivid emotional portrayals. The essays in this volume suggest ways high school and college instructors can incorporate YA texts into courses in literature, education, library science, and general education. The first group of essays explores key issues in YA literature, situates works in cultural contexts, and addresses questions of text selection and censorship. The second section discusses a range of genres within YA literature, including both realistic and speculative fiction as well as verse narratives, comics, and film. The final section offers ideas for assignments, including interdisciplinary and digital projects, in a variety of courses.

On the Shoulders of Giants Steven T. Bickmore, Shanetia P. Clark, 2019-12-30 This first book in a three volume series celebrates and examines the work of four African American authors of young adult literature. They are Virginia Hamilton, Julius Lester, Walter Dean Myers, and Mildred D. Taylor; they serve as the foundation of young adult literature and provide robust stories that center and illuminate African American youth. In addition, this volume also examines the role of the Coretta Scott King Award in promoting access and visibility to authors and illustrators who shine a spotlight on African American youth and society. The chapter authors--librarians and established and emerging scholars in the field of young adult literature--survey the work of Hamilton, Lester, Myers, or Taylor; their accolades; and how audiences initially responded to their work. Each chapter highlights a single work and discusses how it might be taught, providing pre, during, and post reading activities or, in some cases, individual, small group, or whole class activities. This volume is a resource for classroom teachers, teacher educators, reading specialists, librarians, and other educators who study, research, and read young adult literature. This first volume supplements studies in the foundations of African American authors of young adult literature and explorations of critical works by these authors.

The Child Richard A. Shweder, Thomas R. Bidell, Anne C. Dailey, Suzanne D. Dixon, Peggy J. Miller, John Modell, 2009-09-15
The Child: An Encyclopedic Companion offers both parents and professionals access to the best scholarship from all areas of child studies in a remarkable one-volume reference. Bringing together contemporary research on children and childhood from pediatrics, child psychology, childhood studies, education, sociology, history, law, anthropology, and other related areas, The Child contains more than 500 articles—all written by experts in their fields and overseen by a panel of distinguished editors led by anthropologist Richard A. Shweder. Each entry provides a concise and accessible synopsis of the topic at hand. For example, the entry “Adoption” begins with a general definition, followed by a detailed look at adoption in different cultures and at different times, a summary of the associated mental and developmental issues that can arise, and an overview of applicable legal and public policy. While presenting certain universal facts about children’s development from birth through adolescence, the entries also address the many worlds of childhood both within the United States and around the globe. They consider the ways that in which race, ethnicity, gender, socioeconomic status, and cultural traditions of child rearing can affect children’s experiences of physical and mental health, education, and family. Alongside the topical entries, The Child includes more than forty “Imagining Each Other” essays, which focus on the particular experiences of children in different cultures. In “Work before Play for Yucatec Maya Children,” for example, readers learn of the work responsibilities of some modern-day Mexican children, while in “A Hindu Brahman Boy Is Born Again,” they witness a coming-of-age ritual in contemporary India. Compiled by some of the most distinguished child development researchers in the world, The Child will broaden the current scope of knowledge on children and childhood. It is an unparalleled resource for parents, social workers, researchers, educators, and others who work with children.

Melancholia and Maturation Eric L. Tribunella, 2010-01-15 “Coming of age” in children’s fiction often means achieving maturity through the experience of trauma. In classics ranging from *Old Yeller* to *The Outsiders*, a narrative of psychological pain defies expectations of childhood as a time of innocence and play. In this provocative new book, Eric L. Tribunella explores why trauma, especially the loss of a loved object, occurs in some of the most popular and critically acclaimed twentieth-century American fiction for children. Tribunella draws on queer theory and feminist revisions of Freud’s notion of melancholia, which is described as a fundamental response to loss, arguing that the low-grade symptoms of melancholia are in fact what characterize the mature, sober, and responsible American adult. *Melancholia and Maturation* looks at how this effect is achieved in a society that purports to protect youngsters from every possible source of danger, thus requiring melancholia to be induced artificially. Each of the book’s five chapters focuses on a different kind of lost object sacrificed so

as to propel the child toward a distinctively gendered, sexual, ethical, and national adulthood—from same-sex friends to the companionship of boy-and-his-dog stories, from the lost ideals of historical fiction about the American Revolution to the children killed or traumatized in Holocaust novels. The author examines a wide spectrum of works—including Jack London’s dog tales, the contemporary “realistic” novels of S. E. Hinton, and Newbery Medal winners like Johnny Tremain and *Bridge to Terabithia*. Tribunella raises fundamental questions about the value of children’s literature as a whole and provides context for understanding why certain books become required reading for youth. Eric L. Tribunella is assistant professor of English at the University of Southern Mississippi. His articles have been published in *Children’s Literature Association Quarterly*, *Children’s Literature in Education*, *The Lion and the Unicorn: A Critical Journal of Children’s Literature*, and *Children’s Literature*.

Books and Beyond Kenneth Womack, 2008-10-30 There's a strong interest in reading for pleasure or self-improvement in America, as shown by the popularity of Harry Potter, and book clubs, including Oprah Winfrey's. Although recent government reports show a decline in recreational reading, the same reports show a strong correlation between interest in reading and academic achievement. This set provides a snapshot of the current state of popular American literature, including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories, such as cyberpunk, fantasy literature, flash fiction, GLBTQ literature, graphic novels, manga and anime, and zines. Each entry is written by an expert contributor and provides a definition of the genre, an overview of its history, a look at trends and themes, a discussion of how the literary form engages contemporary issues, a review of the genre's reception, a discussion of authors and works, and suggestions for further reading. Sidebars provide fascinating details, and the set closes with a selected, general bibliography. Reading in America for pleasure and knowledge continues to be popular, even while other media compete for attention. Neoliberalism and Young Adult Fiction Sean P. Connors, Roberta Seelinger Trites, 2025-03-17 In the twenty-first century, the influence of neoliberalism, the belief that society benefits when both individuals and corporations are free to maximize their talents in the service of responding to social needs and problems, resonates through all domains of human life. And yet, little critical study has been given to the reproduction of a neoliberal social order in YA literature. *Neoliberalism and Young Adult Fiction: Exceptionalism, Exploitation, and Erasure* examines how some YA literature naturalizes neoliberalism in positioning teenagers as self-enclosed, competitive individuals. At the same time, however, the authors also examine other YA novels as potential sites of resistance that acknowledge teenagers' agency to reject neoliberalism's destructive impulses and to work for social justice and equality through collective action. With that in mind, the authors of *Neoliberalism and Young Adult Fiction* analyze such concepts as how the exceptionality of specific characters who embody neoliberal ideals leads to self-enclosed individualism and how environmental exploitation and consumerism lead to destructive effects. The book progresses to an in-depth examination of how racism undergirds US neoliberalism and environmental exploitation. From scrutinizing racism—and the rejection of neoliberalism inherent in the antiracism movement—the study turns to an examination of gender, specifically focusing on the relationship between sexism, exploitation, and embodied rejections of patriarchal thinking. Indeed, erasure is implicated in racism, sexism, and all forms of discrimination that are borne of exploitation. Finally, youth activism—with its rejection of neoliberal ideologies—leads to a culminating chapter about how global youth link YA literature to their protest movements.
