Do mathematicians care about the validity ("truth") of the axioms? Sep 25, 2024 · So, even in the simplest examples, it is problematic to speak about "truth of the axioms". Natural numbers, and Euclidean space, and quantum mechanics are useful to describe reality - we know that a posteriori and accept their axioms because they allow a simple, unambiguous definition of these mathematical objects. **Is 'truth' abstract or concrete? - Philosophy Stack Exchange** Truth whether as in statements that employ general abstract concepts to describe reality or as a meaning itself, is not concrete even though it is abstracted from concrete reality. truth - Is everything just an opinion? - Philosophy Stack Exchange May 12, 2015 · For Bayesians, it's not so much that they think everything is an opinion, or that there is no truth, rather it's that their framework around learning the truth does not allow for certainty in the truth. There is a practical reason for this: every piece of data you receive should be able to change the likelihood of a statement. **Does every truth have to be provable based on evidence?** Nov 11, 2019 · If truth and justification were confounded, there would be no reason to define knowledge in such a way. Thus, while I cannot claim this is a complete proof for every person that ever lived that what they consider to be true is separable from what they believe to be provable, but it does provide what I think is strong evidence that many ... There are no facts, only interpretations written by Friedrich Nietzsche (1844-1900). As translated from Notebooks, Summer 1886 - Fall 1887, in The Portable **logic - The absolute truth paradox - Philosophy Stack Exchange** Dec 3, 2024 · "There is no absolute truth because we as humans are restrained from ever knowing it" is fallacious, what humans can know imposes no restriction on what is. And "this" will only be a way out of the paradox after it specifies which axioms of classical logic are supposed to be dropped, and shows that what is left is enough and otherwise reasonable. There are several options described in standard ... **truth - Is perspectivism a subtype of relativism? - Philosophy ...** Feb 22, 2023 · Relativism is the doctrine that knowledge, truth, and morality exist in relation to culture, society, or historical context, and are not absolute. Perspectivism is the theory that knowledge of a subject is inevitably partial and limited by ... **Can truth exist without language? - Philosophy Stack Exchange** Feb 24, 2025 · 5 "Whether truth can exist without language" and "that truth is an

objective reality that exists independently of us" are not opposed claims, although they don't imply one another. A Platonist would tell you that language, like other mental objects, exists in the ideal realm whether people are around to think about it or not. **truth - Can a true sentence be a lie? - Philosophy Stack Exchange** Jul 3, 2020 · So now Bobby says the opposite of their beliefs (a lie), but at the same time says an objective truth. There are other ways true statements can be used in deception, like omitting crucial information or using language ambiguity, but to me it feels that the meaning of "true statement" and "lie statement" would not apply for that.
