In certain uses, this is a reasonably accurate definition. Yet there is more to the semicolon than that. The traditional approach, advocated by William Strunk Jr. in *The Elements of Style*, removes the comma after the conjunction. *Titles of works - The Punctuation Guide* Titles of works The titles of certain works are indicated with quotation marks, others with italics, and yet others with regular type. The style presented here is consistent with *The Chicago Manual of Style* (17th ed.) and the *MLA Handbook* (8th ed.), and is appropriate for most academic and professional writing. Newspapers tend to favor quotation marks in ... **The Punctuation Guide** The web's most comprehensive guide to American punctuation. **Question mark | The Punctuation Guide** Terminal punctuation chart Use of the question mark with other punctuation, including quotation marks, is explained in the section on terminal punctuation.
