Midnight Sun Stephenie Meyer, 2020-08-04 The story of Bella and Edward from Edward's point of view takes on a new and decidedly dark twist. Meeting Bella is both the most unnerving and intriguing event he has experienced in all his years as a vampire. As we learn more fascinating details about Edward's past and the complexity of his inner thoughts, we understand why this is the defining struggle of his life. How can he justify following his heart if it means leading Bella into danger?.

Stephenie Meyer Lauri S. Scherer, 2012-06-15 Since writing her debut novel after receiving the novel's plot in a dream, Stephenie Meyer has achieved a level of stardom unknown to most authors of young adult fiction. This book explores the author's childhood, before taking readers through the whirlwind tale of Twilight's publication and the development of the blockbuster movie franchise. Chapters also discuss the controversy surrounding Twilight's religious undertones and Meyer's newest work.

Imdeduya Gunter Senft, 2017-07-12 This volume presents five variants of the Imdeduya myth: two versions of the actual myth, a short story, a song and John Kasaipwalova's English poem "Sail the Midnight Sun". This poem draws heavily on the Trobriand myth which introduces the protagonists Imdeduya and Yolina and reports on Yolina's intention to marry the girl so famous for her beauty, on his long journey to Imdeduya's village and on their tragic love story. The texts are compared with each other with a final focus on the clash between orality and scripturality. Contrary to Kasaipwalova's fixed poetic text, the oral Imdeduya versions reveal the variability characteristic for oral tradition. This variability opens up questions about traditional stability and destabilization of oral literature, especially questions about the changing role of myth - and magic - in the Trobriand Islanders' society which gets more and more integrated into the by now "literal" nation of Papua New Guinea.

Supernatural Erin Giannini, 2021-11-30 A captivating exploration of the television phenomenon that is *Supernatural*, with insights into characters, plots, and the show's impact on pop culture. When *Supernatural* first aired on the CW in 2005, it was dismissed by many for being "pretty guys fighting demons." Yet *Supernatural* persisted for 15 seasons to become the anchor of the network's line-up and the longest running genre series in US television history. In *Supernatural: A History of Television's Unearthly Road Trip*, Erin Giannini delves into the phenomenon of this cult series and its devoted fan base. Covering all 15 seasons, including the series finale that aired in 2020, this book examines the show's predecessors, characters, major storylines, and fan activism. It also revisits creator Eric Kripke's road to creating the series, draws surprising and revealing connections between the show and other series, and discusses the ways *Supernatural* responded to social and industry changes throughout its long run. *Supernatural* was the little show that could for 15 years, persisting beyond its original network's lifespan and surviving the departure of its creator and showrunner, in no small part due to its loyal fans. Inspired by shows such as *Buffy the Vampire Slayer* and going on to influence many shows that followed, *Supernatural* offers insight into how a series can adapt and grow to become a mainstay of primetime television.
