La recherche féministe francophone, 2009 Pour les Africaines originaires d'un continent riche de langues, la question du langage se situe à plusieurs niveaux. Tout d'abord, comment toucher, en Afrique, les femmes (la majorité) qui n'utilisent pas ou peu une langue européenne ? Comment, dans une perspective féministe, apprendre les unes des autres, discuter, élaborer et échanger des messages sur les questions qui affectent nos vies quotidiennes ? Comment créer les concepts et méthodes dans les langues africaines afin d'analyser et rendre compte du vécu des femmes et de leurs stratégies ? Comment créer des concepts et un langage féministes communs qui transcendent les diversités linguistiques et culturelles, en tant que locutrices du mandingue, du yoruba, du xhosa, du amharique, de l'arabe, du chinois, du français ou de l'anglais (Fatou Sow). La coexistence du masculin et du féminin en l'universel est l'incarnation de l'égalité naturelle, une égalité par nature, une égalité en dignité qui récusé que la femme soit perçue comme un bien, comme un moyen (Aminata Diaw). On pose trop souvent, en effet, la domination des hommes sur les femmes comme une donnée anthropologique universelle. Il apparaît au contraire qu'il convient d'historiciser cette perspective en prenant en compte la multiplicité des types de patriarcat et les crises que ceux-ci peuvent traverser : les rapports de domination sont faits de tensions, de lutte, de résistance et de compromis. Il faut également la sociologiser en l'inscrivant dans la complexité des rapports de hiérarchie, de soumission, de dépendance et d'exploitation qui lient les groupes humains, et enfin, de ce qui s'est joué et se joue encore entre le Nord et le Sud depuis les entreprises coloniales (Sonia Dayan Herzbrun). Comme gardiennes de la maison, les femmes emploient, à divers niveaux, différentes tactiques et stratégies pour contester les rapports de pouvoir qui existent, pour créer leur propre espace et pour développer leurs intérêts (Parvin Ghorayshi). Il faut que la loi enregistre qu'une femme, ça peut dire je, mais, précisément, c'est sans doute dans la phrase un enfant, si je veux, quand je veux que le je d'une femme s'entend de la manière la plus audible qui soit (M. B. Tahon).

Translating Simone de Beauvoir's The Second Sex Julia C. Bullock, Pauline Henry-Tierney, 2023-05-19 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* (The Second Sex), a text that has served as foundational for feminisms worldwide since its publication in 1949. Little scholarly attention has been devoted to how the original French-language source text made its way into languages other than English. This is a shocking omission, given that many (but by no means all) other translations were based on the 1953 English translation by

Howard M. Parshley, which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications. This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe. This volume brings together for the first time scholars from Translation Studies, Literary Studies and Philosophical Studies, and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* (including chapters on the Chinese, Japanese, Arabic, Hungarian and Polish translations). As such, this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses.

La transcréation comme voix de protestation : Une étude des œuvres françaises traduites en hindi (1980-2010) Dr. Kumar Ashish, IPS, 2023-05-16 En général, il existe deux types de traductions: la traduction pragmatique et la traduction littéraire. Dans la première catégorie, un traducteur est tenu de transmettre les informations d'une langue à une autre. Mais, dans le cas de la traduction littéraire, le traducteur doit prendre en compte plusieurs facteurs comme l'idéologie de l'auteur, le public cible, la culture, les aspects géographiques et politiques et ainsi de suite. Dans la traduction littéraire, une nouvelle version du texte source est parfois créée. Ce type de recréation d'une nouvelle version d'une œuvre originale peut être identifié comme une transcréation. Le mot 'Transcréation' ne veut pas dire une simple traduction ou un transfert du message. Ce terme implique une traduction créatrice qui vise à créer une nouvelle version du texte de départ. Bien que le terme 'transcréation' se trouve pour la première fois dans le dictionnaire Oxford [1] d'anglais à partir des années 1990, dans la tradition indienne ce type de traduction existait depuis longtemps. Il va sans dire que la transcréation exige certaines techniques et stratégies pour rendre le texte cible plus compréhensible pour le public visé. [1](Oxford Advanced learners Dictionary (édition. 1996). L'édition nous apprend pour la première fois un supplément sur l'anglais indien, préparé par Indira Chowdhary Sengupta, en collaboration avec Sukanta Chaudhari, deux professeurs de l'Université Jadhavpur.)

Rural Women's Health Beverly Leipert, Belinda Leach, Wilfreda Thurston, 2012-09-17 The well-being of rural communities affects the well-being of those who reside in towns and cities because of rural-urban connections through food, drinking water, infectious disease, extreme environmental events, recreation, and for many, retirement residence. In rural areas themselves, women play a critical role in the health of their families and communities, yet women's health is often marginalized or ignored. There have been limited studies to date about rural women and health in Canada. Filling an important gap in scholarship, this collection identifies priority issues that must be addressed to ensure these women's well-being and offers innovative theoretical and methodological ideas for improvement. Rural Women's Health integrates

perspectives from rural practitioners, residents, and scholars in a variety of fields, including nursing, sociology, anthropology, and geography, to tackle issues relevant to diverse settings across the country. As such, it presents a national perspective on the nature of women's health while respecting internal and regional diversity, as well as viewpoints from international scholarship.

Violencias textuales. La representación de las violencias contra las mujeres Natalia Muñoz Maya, 2022-12-20 Violencias textuales. La representación de las violencias contra las mujeres ofrece a lectores y lectoras un conjunto de producciones enyasísticas que giran, como su propio nombre indica, en torno a las violencias sufridas por las mujeres y su representación en la literatura, la pintura, los textos legales, la cultura popular, los ámbitos de la vida social y política y un largo etcétera. La elección de estos plurales, violencias y mujeres, ni es casual, ni sigue ningún principio de gramaticalidad que los exija. Lo que sí pretende es serle fiel a una realidad en la que existe una violencia estructural, y por tanto plural, con una tipología inmensa, ejercida contra las mujeres y no contra la mujer, siendo este reduccionismo otra forma de violentarnos. [Texto de la editorial].

Men's Intrusion, Women's Embodiment Fiona Vera-Gray, 2016-07-01 Research on violence against women tends to focus on topics such as sexual assault and intimate partner violence, arguably to the detriment of investigating men's violence and intrusion in women's everyday lives. The reality and possibility of the routine intrusions women experience from men in public space – from unwanted comments, to flashing, following and frottage – are frequently unaddressed in research, as well as in theoretical and policy-based responses to violence against women. Often at their height during women's adolescence, such practices are commonly dismissed as trivial, relatively harmless expressions of free speech too subjective to be legislated against. Based on original empirical research, this book is the first of its kind to conduct a feminist phenomenological analysis of the experience for women of men's stranger intrusions in public spaces. It suggests that intrusion from unknown men is a fundamental factor in how women understand and enact their embodied selfhood. This book is essential reading for academics and students involved in the study of violence against women, feminist philosophy, applied sociology, feminist criminology and gender studies.

The Mystery of Water Johanna Blomqvist, 2024-10-31 FIND OUT THE ANSWERS TO THESE QUESTIONS AND MORE: How can a jellyfish, which is almost entirely water and has neither a heart nor a brain, be a living and consciously responsive being? What kind of water is best for our well-being? Why cold water swimming is so good for us? Can water be influenced by thoughts and emotions? Does water remember? What do we really know about water? Could solving the mystery of water also help us understand ourselves? In an unprecedented way, Johanna Blomqvist dives into the mystery of water in her book, approaching water through science, physics, and the latest research, as well as from an experiential perspective. What follows is not only an interesting journey into the history and essence of water but also a highly personal dive into the various

ways water influences us during our lifetimes and even through generations. Water is a simple molecule, yet we do not fully understand it. It has many strange and exceptional properties that have yet to be explained. Even the structure of water has yielded surprising results in recent studies. It appears there might be two types of water. The structure of water can begin to mimic the molecules with which it has been in contact, bringing about their effects. Even emotions seem to have a connection to water. Water increasingly appears as a state of being between the material and immaterial worlds. Water is a mystery that we need to solve to understand ourselves — after all, we are over 70% water. Water symbolizes vitality, renewal, creativity, and change. Water is fundamental and sacred. Water is the beginning and the end — from it we are born, and often it has also been the fate of our civilizations, in the form of a flood or other upheaval. I feel that water is now my teacher, and my task is to discover who I really am and what my deepest essence is. Looking deeply is also a form of surrender. When one dares to surrender and let go, a path unfolds, becoming increasingly clear. The Mystery of Water makes you see water in a new way. You will find a new connection to water — to our deepest essence. Water may contain fundamental answers to our life, existence, and also our future.

The Routledge History of Women in Early Modern Europe Amanda L. Capern, 2019-10-30 The Routledge History of Women in Early Modern Europe is a comprehensive and ground-breaking survey of the lives of women in early-modern Europe between 1450 and 1750. Covering a period of dramatic political and cultural change, the book challenges the current contours and chronologies of European history by observing them through the lens of female experience. The collaborative research of this book covers four themes: the affective world; practical knowledge for life; politics and religion; arts, science and humanities. These themes are interwoven through the chapters, which encompass all areas of women's lives: sexuality, emotions, health and wellbeing, educational attainment, litigation and the practical and leisured application of knowledge, skills and artistry from medicine to theology. The intellectual lives of women, through reading and writing, and their spirituality and engagement with the material world, are also explored. So too is the sheer energy of female work, including farming and manufacture, skilled craft and artwork, theatrical work and scientific enquiry. The Routledge History of Women in Early Modern Europe revises the chronological and ideological parameters of early-modern European history by opening the reader's eyes to an exciting age of female productivity, social engagement and political activism across European and transatlantic boundaries. It is essential reading for students and researchers of early-modern history, the history of women and gender studies.

Globalizing Boxing Kath Woodward, 2014-02-13 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. Boxing is a traditional sport in many ways, characterized by continuities in the form of practices and regulations and heavy with legends and heroes reflecting its traditional/historical values. Associations with class, hegemonic masculinity and racialized inclusions/exclusions, however, sit

alongside developments such as women's boxing and involvement in Mixed Martial Arts. This book will be the first to use boxing as a vehicle for exploring social, cultural and political change in a global context. It will consider to what degree and in what ways boxing reflects social transformations, and whether and how it contributes to those transformations. In exploring the relationship it will provide new ways of thinking critically about the everyday.

Gender and the Abjection of Blackness Sabine Broeck, 2018-05-23 An anti-racist critique of gender studies as a field. In *Gender and the Abjection of Blackness*, Sabine Broeck argues that gender studies as a mostly white field has taken insufficient account of Black contributions, and that more than being an ethnocentric limitation or blind spot, this has represented a structural anti-Blackness in the field. Engaging with the work of Black feminist authors Sylvia Wynter, Hortense Spillers, and Saidiya Hartman, Broeck critiques a selection of canonical white gender studies texts to make this case. The book discusses this problem at the core of gender theory as a practice which Broeck terms enslavism—the ongoing abjection of Black life which Hartman has called the afterlife of slavery. This has become manifest in the repetitive employment of the “woman as slave” metaphor so central to gender theory, as well as in recent theoretical mutations of these anti-Black politics of analogy. It is the structural separation of Blackness from gender that has functioned over and again as the scaffold enabling white women’s struggles for successful recognition of equality and subjectivity in the human world as we know it. This book challenges white readers to rethink their own untroubled identification with gender theory, and it provides all readers with a white feminist theorist’s sophisticated theoretical and self-critical scholarly account of her own reckoning with and learning in dialogue from Black feminism’s critique. “Broeck draws on a wide range of experience to provide a frame for rethinking gender as category that can work towards something like Black freedom. Most importantly, Black theoretical insights in this work move beyond intervention to offer a whole new way of being, and the author grapples with the new conceptual terrain she is now occupying.” — Rinaldo Walcott, author of *Queer Returns: Essays on Multiculturalism, Diaspora, and Black Studies*

Their Angry Creed Herbert Purdy, 2016-07-04 Forty-five years after women's liberationists first laid down their challenge, chanting 'Women demand equality!' and 'I'm a second-class citizen', their narratives are now so universally accepted that few people dare speak truth to the power in the land that feminism has undoubtedly become. However, this book does just that. Opening with a startling revelation in 2014 by Mallory Millett, sister of Kate Millett - a mentally-ill Marxist apologist, and probably the prime mover in the women's liberation movement around 1970 - *Their Angry Creed* is a detailed exposé of what she and her co-conspirators were planning from the start. The author shows how these activists influenced a generation of women - many of whom are now in prominent and powerful positions - to seek a seismic shift in the power balance between women and men by dividing society along the fault line of gender. Feminism has never been about equality for women. It is cultural Marxism, whose principles uphold matriarchy - the social superiority of women -

which is to be achieved through the destruction of marriage, the re-engineering of the family, moving women en masse out of the home and into the workforce, and the disruption of society as we know it. Describing how these activists have already secured unreasonable and unfair privilege for women and girls, he points to the demonisation of manhood, men's effective social emasculation, the invasion of men's social spaces to the point of harassment, and the relentless excision of fathers from families. He ends by warning of a coming backlash from men.

La Conspiración de Medea. Aborto, Eugenesia y Nuevo Orden Mundial Lucas Carena,2019-08-07 Nuestra sociedad sufre del síndrome de Medea (así llamado en psicología) que refiere a un conjunto de síntomas que caracteriza a aquella madre que, como efecto de conflictos y estrés derivados de la relación de pareja, descarga su frustración con agresividad hacia su descendencia, llegando incluso a utilizar a su progenie como un instrumento de poder y venganza. El síndrome de Medea establece que las mujeres identifican la maternidad con la feminidad, reafirmando con el reconocimiento del otro y, al matar a sus hijos, sienten que destruyen el vínculo de unión con su compañero, causante de su sufrimiento. De igual modo, como enfermedad de nuestra época, la proliferación de prácticas abortivas, pretende borrar, mediante la muerte de los hijos, el vínculo entre hombre y mujer del que los hijos son expresión. El lazo de unión, la progenie, es disuelta y con ello se acentúa la brecha antagónica entre mujeres feministas y hombres machistas, ahora presentados en relación de enemistad.
