Women, Their Lives, and the Law Victoria Barnes, Nora Honkala, Sally Wheeler, 2023-12-14 This collection of essays honours Rosemary Auchmuty, Professor of Law at the University of Reading, UK. She has fostered the study of women's academic careers and, more politically, advanced progress on gender and equality issues including same-sex marriage and property law. Her research promotes the case of feminist legal history as a way of revealing the place of women and challenging dominant historical narratives that cast them aside. Just as Rosemary's work does, the book seeks to end the marginalisation and exclusion of women in the legal world, by including them. The book begins fittingly with a discussion of Miss Bebb, the woman whose biography Auchmuty deployed to push feminist legal history into the mainstream. It turns then to a discussion of women known and unknown and their struggles within the legal profession offering within those chapters a critical appraisal of the role of history and biography as a methodology. From there it moves to consider feminist perspectives and critiques of the dominant structures of private law. This is followed by chapters that explore those who educate the legal profession within the academy. The chapters, and the collection as a whole, examine areas of law that have a deep significance for women's lives.

Vulnerable Children and the Law Rosemary Sheehan, Helen Rhoades, Nicky Stanley, 2012 This book takes an international perspective on child welfare, examining how frameworks can be adapted to address the rights and best interests of children. Synthesising the latest research, experts redefine the concept of a 'child in need' in a world where global movement is common and children are frequently involved in the law.

Alternative Perspectives on Lawyers and Legal Ethics Reid Mortensen, Francesca Bartlett, Kieran Tranter, 2010-09-13 The study of legal ethics and the legal profession has emerged as a distinct and important field of scholarship over the years. This book offers contemporary and non-mainstream perspectives on the shape of the legal profession. It examines how the public sees lawyers and how lawyers see their own profession.

Collaborative Practice Connie Healy, 2017-09-19 Collaborative practice is a new method of dispute resolution, used mainly in family law matters. By taking a non-adversarial approach, it challenges the strictly positivist view of the lawyer as 'zealous advocate' for the client. As such, it has received much criticism from the established Bar and legal profession. This book provides a doctrinal and empirical analysis of collaborative practice with a view to assessing its place within the dispute resolution continuum and addressing whether this criticism has been justified. It begins by establishing the theoretical

underpinnings of conflict and differing approaches to conflict resolution, the impact of the comprehensive law movement and therapeutic jurisprudence. The origins and development of the collaborative process and the framework it provides for a multidisciplinary approach to conflict resolution is outlined. The book addresses the examination of the process undertaken in the lead up to the enactment of the Uniform Collaborative Law Act in 2010; now regarded as a model of best practice. Finally, through an examination of empirical research undertaken in the US, Canada and in England and Wales, and in presenting the results of the first known empirical research into the process in an Irish family law context, the book concludes with an evidenced based analysis of the process from the perspective of couples who chose to use the collaborative model to resolve the issues surrounding their relationship breakdown, collaborative lawyers and lawyers who do not advocate a non-adversarial approach. As such this book provides a valuable insight into the process which will be of interest to: academics; practising lawyers; members of the judiciary; researchers in the fields of conflict resolution and family law and for students studying alternative dispute resolution (ADR).

Non-Adversarial Justice Michael King, Arie Freiberg, Becky Batagol, Ross Hyams, 2014-07-04 This book outlines key aspects of the use of non-adversarial practices in the Australian justice system with reference to similar developments in the United States, Canada, New Zealand and the United Kingdom. It examines in detail non-adversarial theories and practices such as therapeutic jurisprudence, restorative justice, preventive law, creative problem solving, holistic law, appropriate or alternative dispute resolution, collaborative law, problem-oriented courts, diversion programs, indigenous courts, coroners courts and managerial and administrative procedures.

Routledge Handbook of Families in Asia Stella R. Quah, 2015-03-24 Research on the family has expanded considerably across Asia but studies tend to be fragmented, focusing on narrow issues within limited areas (cities, towns, small communities) and may not be accessible to international readers. These limitations make it difficult for researchers, students, policy makers, and practitioners to obtain the information they need. The Routledge Handbook of Families in Asia fills that gap by providing a current and comprehensive analysis of Asian families by a wide range of experts in a single publication. The thirty-two chapters of this comparative and multi-disciplinary volume are organized into nine major themes: conceptual approaches, methodological issues, family life in the context of culture, family relationships across the family life cycle, issues of work and income, stress and conflict, family diversity, family policy and laws, and environmental setting of homes. Each chapter examines family life across Asian countries, studying cultural similarities and differences and exploring how families are changing and what trends are likely to develop in the future. To provide a fruitful learning experience for the reader, each chapter offers examples, relevant data, and a comprehensive list of references. Offering a complete interdisciplinary overview of families in Asia, the Handbook will be of interest to students, academics, policy makers and practitioners across the disciplines of Asian Studies, Sociology, Demography, Social Work, Law, Social Policy, Anthropology,

Geography, Public Health and Architecture.

Parker and Evans's Inside Lawyers' Ethics Vivien Holmes, Francesca Bartlett, 2023-05-04 Parker and Evans's *Inside Lawyers' Ethics* provides a practical and engaging introduction to ethical decision-making in legal practice in Australia. Underpinned by four theoretical concepts – adversarial advocacy, responsible lawyering, moral activism and ethics of care – this text analyses legal and professional frameworks, highlighting relevant parts of the Australian Solicitors' Conduct Rules. Case studies and discussion questions offer contemporary, practical examples of the application of ethics. The book also addresses the challenge of ethical action and offers techniques to deal with ethical conflicts. This edition has been comprehensively updated and discusses the implications of advances in legal technology, mental ill-health in the profession and the complexities of government legal practice. A new chapter covers lawyers' ethical obligation to address the legal challenges posed by climate change. Written by an expert author team, Parker and Evans's *Inside Lawyers' Ethics* empowers readers to identify ethical challenges and resolve them through good decision-making practices.

See What You Made Me Do Jess Hill, 2019-06-24 Domestic abuse is a national emergency: one in four Australian women has experienced violence from a man she was intimate with. But too often we ask the wrong question: why didn't she leave? We should be asking: why did he do it? Investigative journalist Jess Hill puts perpetrators – and the systems that enable them – in the spotlight. *See What You Made Me Do* is a deep dive into the abuse so many women and children experience – abuse that is often reinforced by the justice system they trust to protect them. Critically, it shows that we can drastically reduce domestic violence – not in generations to come, but today. Combining forensic research with riveting storytelling, *See What You Made Me Do* radically rethinks how to confront the national crisis of fear and abuse in our homes. ‘A shattering book: clear-headed and meticulous, driving always at the truth’—Helen Garner ‘One Australian a week is dying as a result of domestic abuse. If that was terrorism, we'd have armed guards on every corner.’ —Jimmy Barnes ‘Confronting in its honesty this book challenges you to keep reading no matter how uncomfortable it is to face the profound rawness of people's stories. Such a well written book and so well researched. *See What You Made Me Do* sheds new light on this

complex issue that affects so many of us.’—Rosie Batty

Challenging Parental Alienation Jean Mercer, Margaret Drew, 2021-12-02 This book addresses the concept of parental alienation – the belief that when a child of divorced parents avoids one parent, it may be because the preferred parent has persuaded the child to do this. It argues against the unquestioning use of parental alienation concepts in child custody conflicts. Increasing use of this concept in family courts has led at times to placement of children with abusive or violent parents, damage to the lives of preferred parents, and the use of treatments that have not been shown to be safe or effective. The 13 chapters cover the history and theory of parental alienation principles and practices. Methodological and research issues are considered, and diagnostic and treatment methods associated with parental alienation beliefs as well as those recommended by research and ethical evidence are analyzed. The connections of parental alienation with gender and domestic violence issues are discussed as are the experiences of individuals who have experienced parental alienation treatments. The book argues that parental alienation principles and practices should be avoided by family courts, in the best interests of children in custody disputes. This book will be useful reading for lawyers, judges, children’s services workers including social workers, child protection court workers, and mental health professionals involved in child custody decisions.

The Korean Women's Movement and the State Seung-kyung Kim, Kyounghee Kim, 2014-01-10 This book asks what strategies women’s movements can employ to induce law and policy changes at the national level that will assist women’s equality without sacrificing their feminist energy, movement cohesiveness and core feminist commitments. The book takes up this question in order to emphasize the need not only to recognize the accomplishments of women’s movements through political participation, but also to analyze the process through which feminist organizations interact with formal politics. It examines the institutionalization of the Korean women’s movement under the progressive presidencies of Kim Dae Jung (1998-2002) and Roh Moo Hyun (2003-2007), focusing on three major pieces of legislation concerning women’s rights that were enacted during this time, and looks at the process of gender politics and the strategic bargains that needed to be made between the women’s movement and other political forces in order to advance their agenda. It questions whether the institutionalization of the women’s movement inevitably results in demobilization and deradicalization, and goes on to examine the relationship between the women’s movement and the government over the two most women-friendly administrations in South Korean history, a period marked by flourishing civil society activism and participatory democracy.

Domestic Abuse, Victims and the Law Mandy Burton, 2022-08-05 The gap between what the law and legal processes deliver for victims of domestic abuse and what they actually need has, in some instances, arguably widened. This book provides the reader with a thorough understanding of the remedies available to victims in the civil, family and criminal law. It contends that expectations of the legal remedies have increased as the number and scope of remedies has proliferated. It further examines how legal responses to domestic abuse have evolved over the past decade and explores how the victim’s

rights narrative and associated litigation, which has become prevalent in legal discourse and criminal justice reforms, has shifted expectations and impacted domestic abuse policy and law. The book presents a valuable addition to the literature in drawing on a discourse familiar to those with an interest in human rights, demonstrating its impact on a substantive area of law of great significance to both family and criminal lawyers and anyone with an interest in domestic abuse and legal responses.
