Dickson Mungazi

Cry, the Beloved Country Alan Paton, 2003-11-25 An Oprah Book Club selection, *Cry, the Beloved Country*, the most famous and important novel in South Africa's history, was an immediate worldwide bestseller in 1948. Alan Paton's impassioned novel about a black man's country under white man's law is a work of searing beauty. Cry, the beloved country, for the unborn child that is the inheritor of our fear. Let him not love the earth too deeply. Let him not laugh too gladly when the water runs through his fingers, nor stand too silent when the setting sun makes red the veld with fire. Let him not be too moved when the birds of his land are singing, nor give too much of his heart to a mountain or valley. For fear will rob him of all if he gives too much. The eminent literary critic Lewis Gannett wrote, "We have had many novels from statesmen and reformers, almost all bad; many novels from poets, almost all thin. In Alan Paton's *Cry, the Beloved Country* the statesman, the poet and the novelist meet in a unique harmony." *Cry, the Beloved Country* is the deeply moving story of the Zulu pastor Stephen Kumalo and his son, Absalom, set against the background of a land and a people riven by racial injustice. Remarkable for its lyricism, unforgettable for character and incident, *Cry, the Beloved Country* is a classic work of love and hope, courage and endurance, born of the dignity of man.

Cry, the Beloved Country Edward Callan, 1991 The work discussed: Accused of murdering a white man, a young black man in South Africa is helped by his minister uncle and by a white attorney, but the racial problems of the country prevent justice being done.

Still Beating the Drum Lindy Stiebel, Elizabeth Gunner, 2005 Lewis Nkosi is one of South Africa's foremost writers and critics, and one of the few survivors of the exile generation dating from the Drum era. Up until now, however, no full length study has been done on his work. This is a gap in South African literary history and criticism that this book is intended to fill. Besides his well known earlier works, Nkosi is still very much an active writer as the publication in 2002 of his novel, *Underground People*, shows, with his latest novel due out in 2005. The timing of *Still Beating the Drum*, a book which intends to highlight and evaluate his extensive and varied oeuvre, is thus appropriate. Given Lewis Nkosi's life trajectory, this volume will appeal to readers interested in South African and African literature, both in South Africa and abroad.

Zombie Theory Sarah Juliet Lauro, 2017-10-15 Zombies first shuffled across movie screens in 1932 in the low-budget

Hollywood film *White Zombie* and were reimagined as undead flesh-eaters in George A. Romero's *The Night of the Living Dead* almost four decades later. Today, zombies are omnipresent in global popular culture, from video games and top-rated cable shows in the United States to comic books and other visual art forms to low-budget films from Cuba and the Philippines. The zombie's ability to embody a variety of cultural anxieties—ecological disaster, social and economic collapse, political extremism—has ensured its continued relevance and legibility, and has precipitated an unprecedented deluge of international scholarship. Zombie studies manifested across academic disciplines in the humanities but also beyond, spreading into sociology, economics, computer science, mathematics, and even epidemiology. *Zombie Theory* collects the best interdisciplinary zombie scholarship from around the world. Essays portray the zombie not as a singular cultural figure or myth but show how the undead represent larger issues: the belief in an afterlife, fears of contagion and technology, the effect of capitalism and commodification, racial exclusion and oppression, dehumanization. As presented here, zombies are not simple metaphors; rather, they emerge as a critical mode for theoretical work. With its diverse disciplinary and methodological approaches, *Zombie Theory* thinks through what the walking undead reveal about our relationships to the world and to each other. Memory and Political Change A. Assmann, L. Shortt, 2011-11-08 Examining the role of memory in the transition from totalitarian to democratic systems, this book makes an important contribution to memory studies. It explores memory as a medium of and impediment to change, looking at memory's biological, cultural, narrative and socio-psychological dimensions.

Bourgeois Equality Deirdre Nansen McCloskey, 2020-03-04 How standards of living have skyrocketed since 1800, and the political philosophy that made it possible: Persuasive...richly detailed and erudite.— Financial Times There's little doubt that most humans today are better off than their forebears. Stunningly so, the economist and historian Deirdre McCloskey argues in this concluding volume of her trilogy celebrating the oft-derided virtues of the bourgeoisie. The poorest of humanity, McCloskey shows, will soon be joining the comparative riches of Japan and Sweden and Botswana. Why? Most economists—from Adam Smith and Karl Marx to Thomas Piketty—say the Great Enrichment since 1800 came from accumulated capital. McCloskey disagrees, fiercely. Our riches, she argues, were made not by piling brick on brick, bank

balance on bank balance, but by piling idea on idea. Capital was necessary, but in the same way that oxygen is necessary for a fire. Nor were institutions the drivers: the World Bank orthodoxy of add institutions and stir hasn't worked. McCloskey builds a powerful case for the initiating role of ideas—ideas for electric motors and free elections, of course, but more deeply the bizarre and liberal ideas of equal liberty and dignity for ordinary folk. Liberalism arose from theological and political revolutions in northwest Europe, yielding a unique respect for betterment and its practitioners, and upending ancient hierarchies. Commoners were encouraged to have a go, and the bourgeoisie took up the Bourgeois Deal, and we were all enriched. Few economists or historians write like McCloskey—her ability to invest the facts of economic history with the urgency of a novel, or of a leading case at law, is unmatched. She summarizes modern economics and modern economic history with verve and lucidity, yet sees through to the really big scientific conclusion. Not matter, but ideas. Big books don't come any more ambitious, or captivating, than Bourgeois Equality.

Against the World Douglas Brown, 1968 Historical study of White Africans in South Africa R - covers government policy, apartheid, traditions, etc.

Contagious Priscilla Wald, 2008-01-09 Shows how narratives of contagion structure communities of belonging and how the lessons of these narratives are incorporated into sociological theories of cultural transmission and community formation.

In Darkest Hollywood Peter Davis, 1996 Davis's path-breaking study relating film-making to broader social issues explains in part why the world tolerated South Africa's apartheid and racial brutality for so long.

In the Footsteps of the Masters Dickson Mungazi, 2000-02-28 The height of colonial rule on the African continent saw two prominent religious leaders step to the fore: Desmond Tutu in South Africa, and Abel Muzorewa in Zimbabwe. Both Tutu and Muzorewa believed that Africans could govern their own nations responsibly and effectively if only they were given the opportunity. In expressing their religious views about the need for social justice each man borrowed from national traditions that had shaped policy of earlier church leaders. Tutu and Muzorewa argued that the political development of Africans was essential to the security of the white settlers and that whites should seek the promotion of political development of Africans as a condition of that future security. Desmond Tutu and Abel Muzorewa were both motivated by strong religious principles. They disregarded the possible personal repercussions that they might suffer as a result of their efforts to alter the fundamental bases of their colonial governments. Each man hoped to create a new national climate in which blacks and whites could cooperate to build a new nation. Each played a part in eventual independence for Zimbabwe in 1980 and for South Africa in 1994. Mungazi's examination of their efforts reveals how individuals with strong convictions can make a difference in shaping the future of their nations.

Ronald Harwood's Tragic Vision Ann C. Hall, 2024-11-26 "Art has a lot to answer for." So says Sarah Bernhardt in Ronald Harwood's play *After the Lions*. Harwood's own career can be summarized by that same quote as well. Ronald

Harwood's Tragic Vision offers the first critical analysis of prolific and award-winning British author Ronald Harwood (1934–2020). Though he received an Oscar for *The Pianist*, a knighthood, and numerous other awards and nominations, Harwood worked as a ghostwriter, script doctor, and veritable unknown for many years. As he became successful, many critics still misread his works and positioned him as a less-fashionable counterpart to his lifelong friend Harold Pinter. This study proposes a conceptual framework to approach his, and others', work based on the genre of tragedy, offering a greater appreciation for and understanding of the Harwood canon.

Time for a Pure Revolution Doug Herman, 2004 An exciting new angle on purity that gives parents powerful and practical encouragement to motivate their teens to take a stand against the cultural norm. Doug Herman explains the challenges teens face—challenges of love, identity, and the influence of character on sexual choices—and shows the critical role parents play in creating character and purity within their teens and ultimately igniting a “Pure Revolution.”

Anger and Forgiveness Martha C. Nussbaum, 2016-04-01 Anger is not just ubiquitous, it is also popular. Many people think it is impossible to care sufficiently for justice without anger at injustice. Many believe that it is impossible for individuals to vindicate their own self-respect or to move beyond an injury without anger. To not feel anger in those cases would be considered suspect. Is this how we should think about anger, or is anger above all a disease, deforming both the personal and the political? In this wide-ranging book, Martha C. Nussbaum, one of our leading public intellectuals, argues that anger is conceptually confused and normatively pernicious. It assumes that the suffering of the wrongdoer restores the thing that was damaged, and it betrays an all-too-lively interest in relative status and humiliation. Studying anger in intimate relationships, casual daily interactions, the workplace, the criminal justice system, and movements for social transformation, Nussbaum shows that anger's core ideas are both infantile and harmful. Is forgiveness the best way of transcending anger? Nussbaum examines different conceptions of this much-sentimentalized notion, both in the Jewish and Christian traditions and in secular morality. Some forms of forgiveness are ethically promising, she claims, but others are subtle allies of retribution: those that exact a performance of contrition and abasement as a condition of waiving angry feelings. In general, she argues, a spirit of generosity (combined, in some cases, with a reliance on impartial welfare-oriented legal institutions) is the best way to respond to injury. Applied to the personal and the political realms, Nussbaum's profoundly insightful and erudite view of anger and forgiveness puts both in a startling new light.

Literacy Projects for Student-Centered Classrooms Karrell Hickman, 2007-04-18 Meets NCTE and IRA standards, offers guidelines for using the student-centered approach to literacy instruction, and presents four long-term research projects that encourage teamwork and creativity.

Culture Meets Culture in the Movies David H. Budd, 2010-07-27 This is an examination of the interactions between people of different cultures as portrayed in relatively modern, commonly available American and European films. The cinema is a

desirable medium through which to show cultural differences because it vividly portrays settings, actions and emotions, all of which greatly influence viewers' perceptions. Films showing relations of the United States, north and south; Japan, China, India, Asia, and Africa meeting the West; the clash between American Indians and white settlers; various other intercultural contrasts, multicultural voices in film, and the connection between popular film and intercultural studies--all are examined in this work. Each chapter concludes with a filmography.

Sidney Poitier Aram Goudsouzian, 2004 The life and career of Sidney Poitier are analyzed in this biography of the actor, highlighting his work as the only black leading man during the civil rights era and the honors he has received for his work for racial equality in Hollywood.

Competing with Idiots Nick Davis, 2021-09-14 A fascinating, complex dual biography of Hollywood's most dazzling—and famous—brothers, and a dark, riveting portrait of competition, love, and enmity that ultimately undid them both. One most famous for having written *Citizen Kane* (with Orson Welles, as most recently portrayed in David Fincher's acclaimed Netflix film, *Mank*); the other, *All About Eve*; one, who only wrote screenplays but believed himself to be a serious playwright, slowly dying of alcoholism and disappointment; the other, a four-time Academy Award-winning director, auteur, sorcerer, and seducer of leading ladies, one of Hollywood's most literate and intelligent filmmakers. Herman Mankiewicz brought us the Marx Brothers' *Monkey Business*, *Horse Feathers*, *Duck Soup*, W. C. Fields's *Million Dollar Legs*, wrote screenplays for

Dinner at Eight, Pride of the Yankees, cowrote Citizen Kane (Pauline Kael proclaimed that the script was mostly Herman's), and eighty-nine others . . . Talented, witty (Alexander Woollcott thought him the funniest man who ever lived,), huge-hearted, wildly immature, a figure of renown and success. Herman went to Hollywood in 1926, was almost immediately successful (his telegram to Hecht back east: MILLIONS ARE TO BE GRABBED OUT HERE AND YOUR ONLY COMPETITION IS IDIOTS. DON'T LET THIS GET AROUND.), becoming one of the highest-paid screenwriters in Hollywood . . . Joe, eleven years younger, focused, organized, a disciplined writer, with a far more distinguished career, surpassing his worshipped older brother . . . producing The Philadelphia Story, writing and directing A Letter to Three Wives and All About Eve, both of which won him Oscars for writing and directing (All About Eve received a record fourteen Oscar nominations), before seeing his career upended by the spectacular fiasco of Cleopatra . . . In this large, moving portrait, meticulously woven together by the grandson of Herman, great-nephew of Joe, we see the lives of these two men--their dreams and desires, their fears and feuds, struggling to free themselves from their dark past; and the driving forces that kept them bound to a system they loved and hated.
