Whose News? Ammu Joseph, Kalpana Sharma, 2006-08-04 *Whose News?: The Media and Women's Issues* (1994) quickly became an international classic which was widely used. The decade that has passed since its publication has witnessed dramatic developments in the media environment across the world. As a consequence, the coverage of gender issues in the media today has to be viewed and evaluated against the background of globalization in general and media globalization in particular. This is just what this new and updated edition of the pioneering book does. In particular, it addresses the set of questions that has arisen in recent years concerning women's access to the media and to information as users, their participation in media and communication structures, and their portrayal and perspectives in media content. This new edition retains its unique gender analysis of media content, and situates, views and evaluates the coverage of gender issues in the media within the context of recent trends in both the economy and the media industry. Employing a novel and nuanced methodology, it offers a distinctive view of the history of both the media and the women's movement in India as the 20th century gave way to the 21st. It also examines current media coverage of women's issues such as dowry-related violence, rape, sex selection, Muslim women's legal rights, and the practice of sati.

Biliteracy and Globalization Vinita Vaish, 2008 This book analyzes how the urban disadvantaged in the city of New Delhi learn English. Using qualitative methods the author discusses the pedagogy, texts and contexts in which biliteracy occurs and links English language teaching and learning in India with the broader social and economic processes of globalization in a developing country. The study is situated in a government school, a site where classrooms have rarely been qualitatively described, and where the Three Language Formula (TLF) is being fundamentally transformed due to increasing demand from the community for earlier access to the linguistic capital of English. Through research conducted in a call centre the author also shows what the requirements of new workplaces are and how government schools are trying to meet this demand.

The History of the Book in South Asia Francesca Orsini,2016-12-05 The History of the Book in South Asia covers not only the various modern states that make up South Asia today but also a multitude of languages and scripts. For centuries it was manuscripts that dominated book production and circulation, and printing technology only began to make an impact in the late eighteenth century. Print flourished in the colonial period and in particular lithographic printing proved particularly popular in South Asia both because it was economical and because it enabled multi-script printing. There are now vibrant publishing cultures in the nation states of South Asia, and the essays in this volume cover the whole range from palm-leaf manuscripts to contemporary print culture.
