The book traces media metamorphoses, contours of growth and development, travails and trajectories, organizational structures, editorial policies and business dynamics of print majors in India, namely, The Times Group, The Hindu Group, The Hindustan Times Limited, The Indian Express Group, Dainik Jagran Limited and DB Corp Limited.

The Caravan Delhi Press Magazines, 2018-12-05 The Caravan is India's most respected and admired magazine on politics, art and culture. With a strong literary flair, the magazine presents the best of reportage and commentary on politics, policy, economy, art and culture from within South Asia. It has become an essential read for anyone interested in understanding the political and social environment of the country.

News as Culture Ursula Rao, 2010-05-01 At the turn of the millennium, Indian journalism has undergone significant changes. The rapid commercialization of the press, together with an increase in literacy and political consciousness, has led to swift growth in the newspaper market but also changed the way news makers mediate politics. Positioned at a historical junction where India is clearly feeling the effects of market liberalization, this study demonstrates how journalists and informants interactively create new forms of political action and consciousness. The book explores English and Hindi newsmaking and investigates the creation of news relations during the production process and how they affect political images and leadership traditions. It moves beyond the news-room to outline the role of journalists in urban society, the social lives of news texts and the way citizens bring their ideas and desires to bear on the news discourse. This important volume contributes to an emerging debate about the impact of the media on Indian society. Furthermore, it convincingly demonstrates the inseparable link between media related practices and dynamic cultural repertoires.

Popular Intellectuals and Social Movements Michiel Baud, Rosanne Rutten, 2004 All forms of popular protest include a category of 'popular intellectuals', who reflect on social reality, speak in the name of popular classes and who articulate ideas that inspire collective action. This volume focuses on these individuals from an original angle: it looks at the experiences of

popular intellectuals in non-western societies, who operate within social-movement networks that link local, regional, and international arenas, and connect to a global flow of ideas. Eight case studies on different societies in twentieth-century Asia, Africa, and Latin America highlight specific activist intellectuals.

India-Japan Partnership Srabani Roy Choudhury, 2024-11-15 This book discusses the influence and impact of Shinzo Abe, Japan's youngest and longest-serving Prime Minister in the post-Second World War, on international relations between India and Japan. The subject matter concentrates on Abe's 2006-2007 and 2012-2020 regimes. Building on civilisation linkages, shared values, and mutual interest, Abe pegged the relationship with India as a strategic requirement for his vision for the Indo-Pacific region. Drawing linkages between Abe's vision for Japan and India's ambition at the world theatre, the contributing authors explore the various dimensions of this partnership. Critically appraising this bilateral relation, drawing on the convergence of India-Japan interest in the multilateral form, Abe's impact on the media, and his display of soft power diplomacy, this book analyses the diverse spheres that have spun this partnership to a new orbit. It's Nation Time Jerry White, 2024-10-01 Speaking at the Congress of African People in September 1970, Amiri Baraka said, "In Newark, when we greet each other on the streets, we say, 'what time is it?' We always say, 'It's nation time!' Nationalism is about land and nation, a way of life trying to free itself." National identity and nationhood are too often easily dismissed as retrograde populism or racist exclusion. Instead, they need to be understood as a key part of a vision of globalization that holds the imperatives of diversity and solidarity in a delicate balance. Jerry White offers a defence of the nation based on the assumption that struggles for national identity have often unfolded in ways that should be familiar to those who defend the political standpoint of the progressive left. Having evolved into something that a wide variety of actors have sought to defend, nations can also serve as a defence against the homogenizing forces of globalization and as havens of diversity in opposition to more singularly minded forms of affiliation. *It's Nation Time* is structured as a series of specific case studies that speak to theories of nation and their historical and cultural manifestations. It includes examples as varied as Black nationalism, Simone Weil's hopes for a postwar France, the first independence period of Georgia, the Bollywood cinema of Nehru-era India, and small or stateless nations such as New Zealand, Quebec, Ireland, Catalonia, the Métis, the Mohawk, and the Inuit to argue that nationalism is a social form that has much potential and life in it. Broadly internationalist but also deeply insightful about the particular cultures and politics of small nations, *It's Nation Time* defends an idea of nation, and a form of nationalism that are rooted in the potential for diversity, flexibility, and progressive politics.

Does Aid Work in India? Michael Lipton, John Toye, 2010-11-29 Much about India's economy and aid flows has changed in the last two decades. India's growth rate has quickened since economic liberalisation, the poverty head count has fallen

and the volume and composition of its aid have changed as new issues of climate change and the environment have emerged.. Yet *Does Aid Work in India?*, first published in 1990, remains of great interest as a study of aid effectiveness in India's pre-liberalisation era. It identifies those sectors where aid-funded interventions succeeded, and where they failed. It explains how India avoided problems of aid dependence, and managed the political tensions that are associated with aid policy dialogue. More generally, it contains a useful commentary on and criticism of donors' aid evaluation procedures at that time and it highlights donor efforts in the difficult area of institution building. Despite the passage of time, many of the insights from India's earlier experience remain highly relevant to key issues of development assistance today.

Headlines From the Heartland Sevanti Ninan, 2007-05-08 In the 1990s a newspaper revolution began blowing across northern and central India. In these Hindi-speaking states, when literacy levels rose, communications expanded, and purchasing power climbed, Hindi newspapers followed-picking up readers in small towns and villages. Managing the Media in the India-Burma War, 1941-1945 Philip Woods, 2022-08-11 This book explores how the media was used by the armed forces during the India-Burma campaigns of WWII to project the most positive image to domestic and international audiences of a war that often seemed neglected or misunderstood. Discussing how soldiers were, for the first time, able to access newspapers and radio broadcasts relating stories of the campaigns they were actively fighting in, *Managing the Media in the India-Burma War* reveals not only the impact that the media had in maintaining troop morale, but how the military recognised that the media could be a valuable arm of warfare. Revealing how troops responded to reports of their operations, Philip Woods demonstrates the role of the media in creating the 'Forgotten Army' syndrome, which came about in the last two years of the Burma campaign. Focusing on the British Media, but with examples from the United States and India, including Indian war correspondents, it discusses India's role in the Second World War in relation to social, economic and political developments at the time. Honing in on India and Burma at a turning point in their road to independence, this book offers a fresh angle on a well-known military conflict, unpicks the various constraints and influences on the media in wartime, and links the campaign to India's crucial role in WWII.
