

On The Heights Of Despair

Washington Irving

On the Heights of Despair E. M. Cioran, 1966-10 Born of a terrible insomnia which E. M. Cioran called a dizzying lucidity which would turn even paradise into hell, this book presents the youthful Cioran, a self-described Nietzsche still complete with his Zarathustra, his poses, his mystical clown's tricks, a whole circus of the heights. *On the Heights of Despair* shows Cioran's first grappling with themes he would return to in his mature works: despair and decay, absurdity and alienation, futility and the irrationality of existence. It also presents Cioran as a connoisseur of apocalypse, a theoretician of despair, for whom writing and philosophy both share the lyrical virtues that alone lead to metaphysical revelations. An exorcism of despair, this book offers insights into the ironic anguish of Cioran's philosophic mind while providing fascinating information on his early development as a writer and thinker.

The Seduction of Pessimism in the Novel Tom Ribitzky, 2024-10-18 *The Seduction of Pessimism in the Novel: Eros, Failure, and the Quarrel with Philosophy* explores the novel as a response to the Platonic myth that narrates the rift at the core of our being. Eros is supposedly the consolation for this rift, but the history of the novel documents its expression as one of frustrated desires, neuroses, anxieties, and cosmic doom. As if repeating the trauma from that original split in Plato—a split that also divides philosophy from literature—the novel treats eros as a site of loss and grief, from the medieval romances to Goethe, Brontë, Proust, Mann, Woolf, Lawrence, and Nabokov. The pessimism that emerges from this eros tells us something fundamental about who we are, something that only the novel can say. At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity, complexity, and contingency, and as we are hurtling toward a bleak future of climate catastrophe and political instability, the novel is one of the last bastions of humanity even as it is quickly being eroded.

The God of Wild Places Tony Jones, 2024-04-02 I have read a lot of books in my life, but never one like this... this captivating memoir will take you places you might never have gone on your own: into the elemental mysteries of life, death, creatureliness, and divinity with someone who has turned from the orderliness of religion to find salvation in the God of the Wild. I'm glad I went. —Barbara Brown Taylor, New York Times bestselling author of *Leaving Church* and *Learning to Walk*

in the Dark A pastor walks out of the church and into the woods, in pursuit of the God he's lost. Millions of Americans, disillusioned with organized religion, yearn for meaning and transcendence in their lives, and many of them are finding that in nature. When pastor and theologian Tony Jones, Ph.D., had his crisis of faith, brought on by personal trauma and broken relationships, he sought solace in the outdoors - paddling a canoe, hunting with his dog, butchering deer. When he walked out of the church and into the woods, he left the orderly pews and numbered hymns for chaotic spaces and untamed wilderness. And he re-discovered God — a God who brings peace in the midst of storms, a God who lives in the community of our fellow creatures, a God who's acquainted with death. This is the God of wild places. In *The God of Wild Places*, Tony mines his own experiences, recent research in evolutionary psychology, and ancient wisdom from various spiritual and philosophical traditions to fashion lessons about solitude, the predator-prey relationship, the importance of place, risk, failure, and death, and the chaotic presence of God. Tony's guidance in *The God of Wild Places* promises to introduce a generation of Americans to the transcendence available only in untamed spaces; his writing draws on wisdom from Christianity to Buddhism, Kant to Cioran, Jim Harrison to Annie Dillard. This is a journey of loss and discovery through forests and fields, lakes and streams, from knowing to unknowing, from finding to losing — from life to death, and then back to life.

The Theoretical Individual Michael Charles Tobias, Jane Gray Morrison, 2018-01-03 How can the one influence the many? From posing seminal questions about what comprises a human individual, to asking whether human evolution is alive and well, favoring individuals or the species, this work is a daring, up-to-the-minute overview of an urgent, multidisciplinary premise. It explores the extent to which human history provides empirical evidence for the capacity of an individual to exert meaningful suasion over their species, and asks: Can an individual influence the survival of the human species and the planet? If there are to be cultures of transformation dedicated to seeing us all through the Sixth Extinction Spasm, the Anthropocene, inflicting as little biological havoc as possible, what might such orientations—a collective, widespread biophilia, or reverence for nature—look like? In this powerful work, with a combination of data and direct observation, the authors invite readers to explore how such transformations might resonate throughout the human community; in what ways a person might overcome the seemingly insurmountable environmental tumult our species has unleashed; the clear and salient motives, ethics, aspirations and pragmatic idealism he/she might mirror and embrace in order to effect a profound difference—at the individual level—for all of life and life's myriad habitats. Chapters illuminate an ambitiously broad digest of research from two-dozen disciplines. Those include ecodynamics, biosemiotics, neural plasticity, anthropology, paleontology and the history of science, among others. All converge upon a set of ethics-based scenarios for mitigating ecological damage to ourselves and other life forms. This highly readable and tightly woven treatise speaks to scientists, students and all those who are concerned about ethical activism and the future of the biosphere. Michael Charles Tobias and Jane Gray Morrison

are ecological philosophers and animal liberation activists who have worked for decades to help enrich our understanding of ecosystem dynamics and humanity's ambiguous presence amid that great orchestra that is nature.

The Accursed Tower Roger Crowley, 2019-11-05 From a New York Times-bestselling author, a stirring account of the siege of Acre in 1291, when the last Christian stronghold fell to the Muslim army The 1291 siege of Acre was the Alamo of the Christian Crusades -- the final bloody battle for the Holy Land. After a desperate six weeks, the beleaguered citadel surrendered to the Mamluks, bringing an end to Christendom's two-hundred year adventure in the Middle East. In The Accursed Tower, Roger Crowley delivers a lively narrative of the lead-up to the siege and a vivid, blow-by-blow account of the climactic battle. Drawing on extant Arabic sources as well as untranslated Latin documents, he argues that Acre is notable for technical advances in military planning and siege warfare, and extraordinary for its individual heroism and savage slaughter. A gripping depiction of the crusader era told through its dramatic last moments, The Accursed Tower offers an essential new view on a crucial turning point in world history. MY HOME SWEET HOME Gala Waken, 2013-07-29 This is a true-to-life story of a rebellious young girl who fell in love with a handsome young man, became pregnant and married at age 16, and who wanted only to make a happy life in her own “home sweet home” with her husband and children. Her life turns upside down when her husband becomes seriously abusive to her and her four children and she finds herself a victim of not only him, but of her own willfulness not to be proven wrong

and her willingness to sacrifice even physical safety for the dream of a happy home. The pain causes her to seek salvation through God and her Savior Jesus Christ. She also finds the meaning of a mysterious prophetic dream she had when in the midst of her turmoil. The fact that she eventually realizes her dream of a “home sweet home” after many years of pain and sorrow is living testimony to the power of God in human life and the lessons of yielding to a higher power.

LIFE OF GEORGE WASHINGTON (Illustrated Edition) Washington Irving, 2017-12-06 George Washington (1732-1799) was the first President of the United States (1789–97), the Commander-in-Chief of the Continental Army during the American Revolutionary War, and one of the Founding Fathers of the United States. He presided over the convention that drafted the United States Constitution, which replaced the Articles of Confederation and remains the supreme law of the land. Washington was born into the provincial gentry of Colonial Virginia; his wealthy planter family owned tobacco plantations and slaves which he inherited; he owned hundreds of slaves throughout his lifetime, but his views on slavery evolved. He became a young but senior officer in the colonial militia during the first stages of the French and Indian War. He was chosen by the Second Continental Congress in 1775 to be commander-in-chief of the Continental Army in the American Revolution. Historians laud Washington for the selection and supervision of his generals, preservation and command of the army, coordination with the Congress, with state governors and their militia, and attention to supplies, logistics, and training. In battle, however, Washington was repeatedly outmaneuvered by British generals with larger armies. Washington Irving (1783–1859) was an American author, essayist, biographer, historian, and diplomat of the early 19th century. He is best known for his short stories Rip Van Winkle and The Legend of Sleepy Hollow both of which appear in his book The Sketch Book of Geoffrey Crayon, Gent. His historical works include biographies of George Washington and Oliver Goldsmith, and several histories of 15th-century Spain, dealing with subjects such as the Moors and the Alhambra. Irving served as the U.S. ambassador to Spain from 1842 to 1846.
