Quotes by Jean-Paul Sartre Lilith Regan, 2020-03-30 Man is condemned to be free; because once thrown into the world, he is responsible for everything he does. When the rich wage war it's the poor who die. Freedom is what you do with what's

been done to you.If you are lonely when you are alone, you are in bad company.Commitment is an act, not a word.Life begins on the other side of despair.Every existing thing is born without reason, prolongs itself out of weakness, and dies by chance.Everything has been figured out, except how to live.Only the guy who isn't rowing has time to rock the boat.Like all dreamers, I mistook disenchantment for truth.

French Philosophers' Quotes Farhad Hemmatkhah Kalibar, In the vast landscape of human thought and inquiry, few realms possess the intellectual richness and profundity of French philosophy. From the Enlightenment to the existentialist movements, French philosophers have been at the forefront of shaping our understanding of existence, society, and the human condition. Their words have echoed through the corridors of time, offering insights, provocations, and challenges to conventional wisdom. In this compilation, we embark on a journey through the minds of some of history's most eminent French thinkers. From the rationalism of René Descartes to the existential angst of Jean-Paul Sartre, from the political musings of Jean-Jacques Rousseau to the feminist critiques of Simone de Beauvoir, this book presents a curated selection of quotes that encapsulate the essence of French philosophical thought. Each quote serves as a window into the philosophical landscape of its author, inviting contemplation, reflection, and dialogue. Whether pondering the nature of reality, grappling with questions of ethics and morality, or exploring the complexities of human relationships, these quotes offer timeless wisdom and intellectual stimulation. As we delve into the thoughts of these philosophers, we are confronted with fundamental questions about the nature of existence, the pursuit of truth, and the quest for meaning. Their words challenge us to think critically, to question assumptions, and to engage with the complexities of the world with clarity and insight. Whether you are a seasoned philosopher, a student of intellectual history, or simply a curious seeker of wisdom, this collection promises to inspire, provoke, and illuminate. A Commentary on Jean-Paul Sartre's Critique of Dialectical Reason Joseph S. Catalano, 2013-01-17 Sartre's Critique of Dialectical Reason ranks with Being and Nothingness as a work of major philosophical significance, but it has been largely neglected. The first volume, published in 1960, was dismissed as a Marxist work at a time when structuralism was coming into vogue; the incomplete second volume has only recently been published in France. In this commentary on the first volume, Joseph S. Catalano restores the Critique to its deserved place among Sartre's works and within philosophical discourse as a whole. Sartre attempts one of the most needed tasks of our times, Catalano asserts—the delivery of history into the hands of the average person. Sartre's concern in the Critique is with the historical significance of everyday life. Can

we, he asks, as individuals or even collectively, direct the course of our history? A historical context for our lives is given to us at birth, but we sustain that context with even our most mundane actions—buying a newspaper, waiting in line, eating a meal. In looking at history, Sartre argues, reason can never separate the historical situation of the investigator from the investigation. Thus reason falls into a dialectic, always depending upon the past for guidance but always being reshaped by the present. Clearly showing the influence of Marx on Sartre's thought, the Critique adds the historical dimension lacking in Being and Nothingness. In placing the Critique within the corpus of Sartre's philosophical writings, Catalano argues that it represents a development rather than a break from Sartre's existentialist phase. Catalano has organized his commentary to follow the Critique and has supplied clear examples and concrete expositions of the most difficult ideas. He explicates the dialogue between Marx and Sartre that is internal to the text, and he also discusses Sartre's Search for Method, which is published separately from the Critique in English editions.

Even the Terrible Things Seem Beautiful to Me Now Mary Schmich, 2019-11-05 The best columns by the Pulitzer Prize-winning Chicago Tribune writer, on diverse topics like family, loss, mental health, advice, and the Windy City. Over the last two decades, Mary Schmich's biweekly column in the Chicago Tribune has offered advice, humor, and discerning commentary on a broad array of topics including family, milestones, mental illness, writing, and life in Chicago. Schmich won the 2012 Pulitzer for Commentary for "her wide range of down-to-earth columns that reflect the character and capture the culture of her famed city." This second edition—updated to include Schmich's best pieces since its original publication—collects her ten Pulitzer-winning columns along with more than 150 others, creating a compelling collection that reflects Schmich's thoughtful and insightful sensibility. The book is divided into thirteen sections, with topics focused on loss and survival, relationships, Chicago, travel, holidays, reading and writing, and more. Schmich's 1997 "Wear Sunscreen" column (which has had a life of its own as a falsely attributed Kurt Vonnegut commencement speech) is included, as well as her columns focusing on the demolition of Chicago's infamous Cabrini-Green housing project. One of the most moving sections is her twelve-part series with U.S. District Judge Joan Lefkow, as the latter reflected on rebuilding her life after the horrific murders of her mother and husband. Schmich's columns are both universal and deeply personal. The first section of this book is dedicated to columns about her mother, and her stories of coping with her mother's aging and eventual death. Throughout the book, Schmich reflects wisely and wryly on the world we live in, and her fond observances of Chicago life

bring the city in all its varied character to warm, vivid life.

A Foreigner Carrying in the Crook of His Arm a Tiny Bomb Amitava Kumar,2010-06-10 Part reportage and part protest, an inquiry into the cultural logic and global repercussions of the war on terror, with particular focus on the United States and India.

French Intellectuals Against the Left Michael Scott Christofferson,2004-06-01 In the latter half of the 1970s, the French intellectual Left denounced communism, Marxism, and revolutionary politics through a critique of left-wing totalitarianism that paved the way for today's postmodern, liberal, and moderate republican political options. Contrary to the dominant understanding of the critique of totalitarianism as an abrupt rupture induced by Aleksandr Solzhenitsyn's The Gulag Archipelago, Christofferson argues that French anti-totalitarianism was the culmination of direct-democratic critiques of communism and revisions of the revolutionary project after 1956. The author's focus on the direct-democratic politics of French intellectuals offers an important alternative to recent histories that seek to explain the course of French intellectual politics by France's apparent lack of a liberal tradition.
