Margaret Wise Brown Leonard S. Marcus,1999-09-22 Margaret Wise Brown, the author of Goodnight Moon and dozens of other children's classics, all but invented the picture book as we know it today. Combining poetic instinct with a profound empathy for small children, she knew of a child's need for security, love, and a sense of being at home in the world and she brought that unique tenderness to the page. Yet these were comforts that eluded her. Brown's youthful presence and professional success as an editor, bestselling author, and self-styled impresario masked an insecurity that left her restless and vulnerable. In this moving biography, Marcus portrays Brown's complex character and her tragic, seesaw life. Her literary achievement and groundbreaking discoveries about small children's emotional needs were offset by tormented romances including a passionate relationship with Michael Strange, the celebrity socialite once married to John Barrymore.

Margaret Wise Brown's Experimental Art Julia Pond,2024-09-25 In this study, the engaging art created by children's author Margaret Wise Brown receives the critical attention it deserves as a lasting contribution to American children's literature. Through analysis of her dozens of titles published during the height of western Modernism, this scholarly text shares Brown's importance and impact from the perspective of Brown's work, rather than biographically. Moving beyond such popular titles as Goodnight Moon and The Runaway Bunny into deeper cuts reveals how Brown's oeuvre bridges multiple disciplines, including writing, visual art, philosophy, and music. Her projects successfully experiment with artistic collaboration and synesthesia as a natural expression for a child readership while both contributing to and reflecting high Modernism amidst the two World Wars. The quality of Brown's writing and the maturity of her themes reveal respect for her child audience and recommend her work to the generations of readers who followed her early death. As this book demonstrates, Margaret Wise Brown remains one of the truly great authors of children's literature.

The Continuum Encyclopedia of Children's Literature Bernice E. Cullinan,Diane Goetz Person,2005-01-01 Provides articles covering children's literature from around the world as well as biographical and critical reviews of authors including Avi, C.S. Lewis, J.K. Rowling, and Anno Mitsumasa.

Only Margaret Candice Ransom,2021-10-12 When Halley's comet arrived in 1910, so did an extraordinary person: Margaret Wise Brown. Margaret had a boundless imagination and a gift for spinning stories. Most grown-ups thought children's books were frivolous and silly, but Margaret didn't agree. Could writing stories for children be important work--a

incredible way to share truth, beauty, and wonder? Other people might call Margaret strange, and sometimes her own worries and doubts felt overwhelming. But only Margaret and her original ideas could lead to *Goodnight Moon*, *The Runaway Bunny*, and other classics beloved by children around the world. From smuggling rabbits onto trains, to scribbling stories about island whispers, Margaret embraced adventure in life and on the page. This whimsically illustrated biography shares how an independent, fun-loving woman became a trailblazing pioneer of the picture-book form.

The Undergraduate's Companion to Children's Writers and Their Web Sites Jennifer Stevens, 2004-11-30 This volume, one in the Undergraduate Companion series, focuses on American and British writers for children and young adults and is addressed to students in both English and Education classes. It provides both print and free online sources. Most undergraduates do not possess the research skills necessary to evaluate Web sites. This volume will address their needs by providing pathfinders to works by, about, and related to key writers of children's and young adult fiction. Included are entries for 185 British and American writers and writing teams, most from the 20th century. Young adult and adult. Grades 9 and up.

Second Thoughts David Galef, 1998 How does our perspective change after the first reading? What distortions emerge through repetition? How do we determine what's worth rereading and what is the role of such repetition in our lives? What are the gains and losses? This work investigates the rereading of texts from various genres.

The Important Thing About Margaret Wise Brown Mac Barnett, 2019-05-21 An exceptional picture book biography of Margaret Wise Brown, the legendary author of *Goodnight Moon*, *The Runaway Bunny*, and other beloved children's classics, that's as groundbreaking as the icon herself was—from award-winning, bestselling author Mac Barnett and acclaimed illustrator Sarah Jacoby. What is important about Margaret Wise Brown? In forty-two inspired pages, this biography artfully plays with form and language to vividly bring to life one of greatest children's book creators who ever lived: Margaret Wise Brown. Illustrated with sumptuous art by rising star Sarah Jacoby, this is essential reading for book lovers of every age.

Children's Literature and New York City Padraic Whyte, Keith O'Sullivan, 2014-01-10 This collection explores the significance of New York City in children's literature, stressing literary, political, and societal influences on writing for young people from the twentieth century to the present day. Contextualized in light of contemporary critical and cultural theory, the chapters examine the varying ways in which children's literature has engaged with New York City as a city space, both in terms of (urban) realism and as an 'idea', such as the fantasy of the city as a place of opportunity, or other associations. The collection visits not only dominant themes, motifs, and tropes, but also the different narrative methods employed to tell readers about the history, function, physical structure, and conceptualization of New York City, acknowledging the shared or symbiotic relationship between literature and the city: just as literature can give imaginative 'reality' to the city, the city has the potential to shape the literary text. This book critically engages with most of the major forms and genres for

children/young adults that dialogue with New York City, and considers such authors as Margaret Wise Brown, Felice Holman, E. L. Konigsburg, Maurice Sendak, J. D. Salinger, John Donovan, Shaun Tan, Elizabeth Enright, and Patti Smith.

My World Margaret Wise Brown, 2001-09-04 Your world. My world. I can swing right over the world. Now you can revisit the world of the beloved little bunny and his family in this perfect companion to everyone's favorite bedtime story. Together, gentle illustrations of everyday objects along with poetic words capture the excitement of a young child exploring new boundaries, as the bunny greets all the familiar things in this new world. From one of the most accomplished and popular author and illustrator collaborations of all time, this is a classic picture book in which good morning is as reassuring and enchanting as goodnight.

Unearthly Visions Gary Westfahl, George Slusser, Kathleen Church Plummer, 2002-01-30 A pioneering scholarly examination of the rich and fascinating fields of science fiction and fantasy art, this book stimulates scholarly interest in these areas by offering both surveys of the entire history of these traditions and focused examinations of particular genres and artists. In contrast to existing studies of science fiction and fantasy art, this volume argues that the subject needs to be explored within different contexts, such as literary history, art history, and cultural history. In addition, it maintains that certain trends should be followed across the field, such as art displaying recurring iconic images and art related to particular subgenres. The volume places special emphasis on studies that connect science fiction and fantasy artists to the authors and works they have illustrated. The contributors include several internationally recognized and award-winning science fiction writers and scholars. In addition to its historical surveys, the book provides detailed examinations of space art, representative artists Richard M. Powers and Frank Frazetta, and the major illustrators of noted children's author Margaret Wise Brown and famed fantasy writer J.R.R. Tolkien.

Mystery Jonah Lehrer, 2021-08-17 Drawing on the fields of psychology, neuroscience and anthropology, a New York Times best-selling author unlocks the secrets of mystery's allure, shedding new light on everything from the formulas of our favorite detective shows to the calculated risks of the stock market.

Racist Love Leslie Bow, 2021-12-13 In *Racist Love* Leslie Bow traces the ways in which Asian Americans become objects of anxiety and desire. Conceptualizing these feelings as “racist love,” she explores how race is abstracted and then projected onto Asianized objects. Bow shows how anthropomorphic objects and images such as cartoon animals in children’s books, home décor and cute tchotchkes, contemporary visual art, and artificially intelligent robots function as repositories of seemingly positive feelings and attachment to Asianness. At the same time, Bow demonstrates that these Asianized proxies reveal how fetishistic attraction and pleasure serve as a source of anti-Asian bias and violence. By outlining how attraction to popular representations of Asianness cloaks racial resentment and fears of globalization, Bow provides a new means of understanding the ambivalence surrounding Asians in the United States while offering a theory of the psychological,

affective, and symbolic dynamics of racist love in contemporary America.

The Picture Book Made New Leonard S. Marcus, Michael Wentworth, Boston Athenaeum, 1996

The Oxford Handbook of Emily Dickinson Cristanne Miller, Karen Sánchez-Eppler, 2022-04-11 The *Oxford Handbook of Emily Dickinson* is designed to engage, inform, interest, and delight students and scholars of Emily Dickinson, of nineteenth-century US literature and cultural studies, of American poetry, and of the lyric. It also establishes potential agendas for future work in the field of Dickinson studies. This is the first collection on Dickinson to foreground the material and social

culture of her time while opening new windows to interpretive possibility in ours. The volume strives to balance Dickinson's own center of gravity in the material culture and historical context of nineteenth-century Amherst with the significance of important critical conversations of our present, thus understanding her poetry with the broadest Latitude of Home--as she puts it in her poem Forever-is composed of Nows. Debates about the lyric, about Dickinson's manuscripts and practices of composition, about the viability of translation across language, media, and culture, and about the politics of class, gender, place, and race circulate through this volume. These debates matter to our moment but also to our understanding of hers. Although rooted in the evolving history of Dickinson criticism, the chapters foreground truly new original research and a wide range of innovative critical methodologies, including artistic responses to her poetry by musicians, visual artists, and other poets. The suppleness and daring of Dickinson's thought and uses of language remain open to new possibilities and meanings, even while they are grounded in contexts from over 150 years ago, and this collection expresses and celebrates the breadth of her accomplishments and relevance.

Revolutionizing Children's Records David Bonner, 2007-11-26 Young People's Records and Children's Record Guild were the first commercially significant record clubs in the world. By applying proven book club methods to the field of phonograph records, these two related companies attracted some hundred thousand subscribers at their peak and serviced perhaps a million members in their existence. *Revolutionizing Children's Records: The Young People's Records and Children's Record Guild Series, 1946-1977* tells the history of YPR/CRG, explaining how these two labels intersected important developments in the histories of mass marketing, recording technology, educational philosophy, folk music, contemporary composition, and Cold War politics. David Bonner covers in detail the history of YPR/CRG, tracing its influences back to the beginnings of music education in the 19th Century and incorporating the impact of the American folk music revival on music educators. The narrative follows the career paths of the company principals, such as its progressive founder Horace Grenell; the musicians who recorded for him, like American folk music revival pioneer Tom Glazer; and the record industry offshoots they created in the process. Bonner considers advances the club made in recording technology as the first record label devoted exclusively to unbreakable vinyl discs and provides a comprehensive summary of record club marketing, including the application of music appreciation to phonograph records. He also charts the commercial, critical, and political response to these endeavors, including an historical footnote to the Red Scare unavailable in existing Cold War literature. A complete and detailed discography listing every YPR and CRG recording, including all known writers and performers, concludes this excellent reference for scholars, nostalgists, and phonographic fanatics.
