**Indian Traces in Korean Culture** Renata Czekalska, 2024-10-24 Indian traces in Korean Culture examines the enduring cross-cultural discourse between India and Korea over the centuries, emphasizing the transformative power of cultural exchange beyond geographical and temporal constraints. The book analyses how symbols transcend sensory realms and embody spiritual content and suggests that Indian associations in Korean culture reflect a hybridized nature, seamlessly

blending cultural elements. The author presents various facets of the cultural exchange between India and Korea, covering Princess Hō Hwang-ok's legendary Indian origins shaping Korean identity, Ilyōn's strategic documentation of Buddhism's transmission, the influence of Indian figures such as Gandhi and Tagore, an exploration of literature from ancient Buddhist verse to modern poets like Kim Yang-shik and Shiva Ryu, and a study of cultural exchange in K-pop. Facilitating a possible alternative to Huntington's theory of the clash of civilisations, this book provides evidence that the multifaceted encounters between cultures are a historical process that co-shapes civilisational change on a global scale. The first monograph solely dedicated to India-Korea cultural connection from antiquity to the present, this book offers a paradigm shift, inviting readers to explore fresh insights and reshape their understanding of cultural exchanges. It will be of interest to researchers in intercultural communication, Cultural Studies, Cultural History and Asian Studies, in particular Korea and India. Chapters 1 and 5 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

*Supervision in Educational, Social and Medical Services Professions* Georgeta Rață, 2013-07-26 Supervision in Educational, Social and Medical Services Professions investigates both theoretical and practical aspects of stress, burnout and brain-drain; the need for supervision; the benefits of professional supervision; and the most common types of supervision; and provides a definition of the supervisor and their role in educational, social and medical professions. The book also presents quantitative research on a sample of 400 professionals (educators, medical assistants, psychologists, and social workers), aimed at identifying the need for supervision, the understanding and acceptance level of supervision, the advantages of supervision, as well as the burnout and brain-drain levels of professionals supplying direct services to their clients. **Roots of War** David G. Winter, 2017-09-01 Ever since Thucydides pondered reasons for the outbreak of the Peloponnesian War, writers, philosophers, and social scientists have tried to identify factors that promote conflict escalation: for example, history (tomorrow's wars are often rooted in yesterday's conflicts), changing balance of power among nations, or domestic political forces. In the end, however, these causes are constructed by human beings and involve the memories, emotions, and motives of both the leaders and the led. In July 1914, the long-standing peace of Europe was shattered when the Sarajevo assassinations quickly escalated to World War I. In contrast, at the height of the Cold War, the Cuban Missile Crisis could have easily plunged the world into a thermonuclear world war, but was ultimately peacefully resolved. Why the different outcomes? In *Roots of War: Wanting Power, Seeing Threat, Justifying Force*, David G. Winter identifies three psychological factors that contributed to the differences in these historical outcomes: the desire for power, exaggerated perception of the opponent's threat, and justification for using military force. Several lines of research establish how these factors lead to escalation and war: comparative archival studies of war and peace crises, laboratory experiments on threat perception, and surveys of factors leading people to believe that a particular war is just. The research findings in *Roots of War* also demonstrate the importance of power in preserving peace through diplomatic interventions, past and present.

*When Translation Goes Digital* Renée Desjardins, Claire Larssonneur, Philippe Lacour, 2020-12-11 This edited book brings together case studies from different contexts which all explore how a rapidly evolving digital landscape is impacting translation and intercultural communication. The chapters examine different facets of digitization, including how professional translators leverage digital tools and why, the types of digital data Translation Studies scholars can now observe, and how the Digital Humanities are impacting how we teach and theorize translation in an era of automation and artificial intelligence. The volume gives voice to research from across the professional and academic spectrum, with representation from Hong Kong, Canada, France, Algeria, South Korea, Japan, Brazil and the UK. This book will be of interest to professionals and academics working in the field of translation, as well as digital humanities and communications scholars.

**The Societal Codification of Korean English** Alex Baratta, 2021-11-04 From K-pop to kimchi, Korean culture is becoming increasingly popular on the world stage. This cultural internationalisation is also mirrored linguistically, in the emergence and development of Korean English. Often referred to as 'Konglish', this book describes how the two terms in fact refer to different things and explains how Koreans have made the English language their own. Arguing that languages are no longer codified and legitimised by dictionaries and textbooks but by everyday usage and media, Alex Baratta explores how to reconceptualise the idea of 'codification.' Providing illustrative examples of how Koreans have taken commonly used English expressions and adjusted them, such as doing 'Dutch pay', wearing a 'Burberry' and using 'hand phones', this book explores

the implications and opportunities social codification presents to EFL students and teachers. In so doing, *The Societal Codification of Korean English* offers wider perspectives on English change across the world, seeking to dispel the myth that English only belongs to 'native speakers'.

**Song of the Land** Sarah Layzell, Tammy L. Mielke, Michelle H. Martin, 2025-08-15 Contributions by Jennifer Ansbach, Jani L. Barker, Melissa Bedford, Helen Bond, Wanda M. Brooks, Susan Browne, Sabrina Carnesi, Emily Cardinali Cormier, Y. Falami Devoe, Bahar Eshraq, Latrice Ferguson, Catharine Kane, Michelle H. Martin, Devika Mehra, Ngozi Onuora, Lauren Rizzuto, Shelly Shaffer, Bryanna Tidmarsh, Ann Van Wig, Annette Wannamaker, and Raen Parker Washington A major figure in African American children's literature, Mildred D. Taylor (b. 1943) has been publishing groundbreaking, award-winning books for fifty years, including *Roll of Thunder, Hear My Cry*; *Song of the Trees*; *Let the Circle Be Unbroken*; *The Friendship*; *The Road to Memphis*; and *The Land*. Taylor's renowned Logan family saga has become a staple in classrooms and libraries, resonating internationally with its profound impact on readers. Her significance in literature extends beyond captivating storytelling. She has effectively illuminated the struggles and triumphs of African American families, challenging societal norms and shedding light on historical injustices. Through compelling narratives rooted in personal experiences and family history, Taylor has enriched the literary landscape and sparked crucial conversations about race, resilience, and the enduring power of love and courage in the face of adversity. Yet her significant literary contributions have not received the critical recognition they deserve. Seeking to fill that gap, *Song of the Land: Celebrating the Works of Mildred D. Taylor* brings together creative and critical responses to Taylor's work and ongoing legacy. The chapters in this anthology represent an array of disciplines and theoretical lenses, highlighting the impact of African American children's literature. *Song of the Land* is an invitation to learn more about Taylor's work, which lays bare the dangers of white supremacy and racism in American society.

Redemption and Regret James Scarth Gale, 2021-04-27 This work presents the unpublished and largely unknown writings of the missionary James Scarth Gale, one of the most important scholars and translators in modern Korean history.

Reading In-Between Néstor Medina, Alison Hari-Singh, HyeRan Kim-Cragg, 2019-02-18 This volume presents a tapestry of narratives in which the lived experiences of eight racially minoritized theologians and biblical scholars are woven together to present an interdisciplinary exploration of the direct impact that ethnocultural traditions have in shaping the way people read and interpret the biblical text. Moving beyond traditional approaches to biblical hermeneutics steeped in Euro-normativity, Canadian scholars from Latino/a, Chinese, Korean, Indian, Cree, and AfriCaribbean backgrounds draw on their respective locations to articulate how their communities engage the Bible. Together they show that ethnicity and cultural tradition enrich how different communities weave their life stories with the biblical text in hope of finding wisdom within it. By focusing on questions rooted in their particular traditions, these diverse hermeneutical engagements show narrative to be

central to the interpretive task within diverse ethnocultural communities.

**Bringing Davy Home** Sherri Steward, 2024-09-02 After some twenty years of research into original frontline letters, the US military's Individual Deceased Personnel files, and accounts of the chaotic Korean War, author Sherri Steward has recovered a story that was lost for more than seventy years. *Bringing Davy Home: In the Shadow of War, a Soldier's Daughter Remembers* chronicles the brutal combat experiences of two small-town Texas boys. One, an underage soldier, was killed in action only three weeks after arriving in Korea. Months later, the older brother he admired—a decorated World War II veteran—was compelled to join the same war that had already fractured his family. *Bringing Davy Home* examines the grievous burden heaped upon our warriors and their families, themselves forgotten casualties in the web of war. Through personal communications and interviews with hundreds of veterans and their families, Steward provides a haunting examination of the minds and hearts of young men who were thrust onto savage battlefields in service to their nation. Many did not survive. Many others came home alive but still carrying the shattering emotional burdens imposed by the horrors they witnessed. In 2023, there were more than 16 million veterans, thousands of whom remained tormented by indelible memories of war. *Bringing Davy Home* will shed new light on the pervasive problem of PTSD among our warriors, solemnly accounting the psychological costs paid by service members and their families.

This book brings together scholars from disciplines including sport history, sociology, journalism, economics, sport development, and sport management to explore the significance of sport in contemporary Korea. **Evolution of Sanitation and Wastewater Technologies through the Centuries** Andreas N. Angelakis, Joan B. Rose, 2014-09-14 Most of the technological developments relevant to water supply and wastewater date back to more than to five thousand years ago. These developments were driven by the necessity to make efficient use of natural resources, to make civilizations more resistant to destructive natural elements, and to improve the standards of life, both at public and private level. Rapid technological progress in the 20th century created a disregard for past sanitation and wastewater and stormwater technologies that were considered to be far behind the present ones. A great deal of unresolved problems in the developing world related to the wastewater management principles, such as the decentralization of the processes, the durability of the water projects, the cost effectiveness, and sustainability issues, such as protection from floods and droughts were intensified to an unprecedented degree. New problems have arisen such as the contamination of surface and groundwater. Naturally, intensification of unresolved problems has led to the reconsideration of successful past achievements. This retrospective view, based on archaeological, historical, and technical evidence, has shown two things: the similarity of physicochemical and biological principles with the present ones and the advanced level of wastewater engineering and management practices. Evolution of Sanitation and Wastewater Technologies through the Centuries presents and discusses the major achievements in the scientific fields of sanitation and hygienic water use systems throughout the millennia, and compares the water technological developments in several civilizations. It provides valuable

insights into ancient wastewater and stormwater management technologies with their apparent characteristics of durability, adaptability to the environment, and sustainability. These technologies are the underpinning of modern achievements in sanitary engineering and wastewater management practices. It is the best proof that “the past is the key for the future”. Evolution of Sanitation and Wastewater Technologies through the Centuries is a textbook for undergraduate and graduate courses of Water Resources, Civil Engineering, Hydraulics, Ancient History, Archaeology, Environmental Management and is also a valuable resource for all researchers in the these fields. Authors: Andreas N. Angelakis, Institute of Iraklion, Iraklion, Greece and Joan B. Rose, Michigan State University, East Lansing, MI, USA
