The First Modern Museums of Art Carole Paul, 2012-11-16 In the eighteenth and early nineteenth centuries the first modern, public museums of art—civic, state, or national—appeared throughout Europe, setting a standard for the nature of such institutions that has made its influence felt to the present day. Although the emergence of these museums was an international development, their shared history has not been systematically explored until now. Taking up that project, this volume includes chapters on fifteen of the earliest and still major examples, from the Capitoline Museum in Rome, opened in 1734, to the Alte Pinakothek in Munich, opened in 1836. These essays consider a number of issues, such as the nature, display, and growth of the museums' collections and the role of the institutions in educating the public. The introductory chapters by art historian Carole Paul, the volume's editor, lay out the relationship among the various museums and discuss their evolution from private noble and royal collections to public institutions. In concert, the accounts of the individual museums give a comprehensive overview, providing a basis for understanding how the collective emergence of public art museums is indicative of the cultural, social, and political shifts that mark the transformation from the early-modern to the modern world. The fourteen distinguished contributors to the book include Robert G. W. Anderson, former director of the British Museum in London; Paula Findlen, Ubaldo Pierotti Professor of Italian History at Stanford University; Thomas Gaehtgens, director of the Getty Research Institute; and Andrew McClellan, dean of academic affairs and professor of art history at Tufts University. Complex Art Conservation and Preservation Problems Paul-Bernhard Eipper, 2023-09-13 In this book, for the first time, an examination of Egon Schiele's general painting technique is carried out. The main case study for this comprehensive investigation is the painting "Stadtende/Häuserbogen III," 1918, one of Egon Schiele's last works, which is housed at Universalmuseum Joanneum, Graz, Austria. In this book, the conservation campaign is detailed: uncovering portrait sketches integrated and painted over in the painting, unmasking the signature as a forgery, and recognising the frame as the original decorative frame. The research in the years following the conservation is detailed: discussing that, among other pigments, cadmium sulphide was confirmed in the paint material, which will influence subsequent conservation measures for the painting. The book's examination continues with the complex interactions between environment and object that were also addressed in recently completed EU projects, concluding that continuously gained knowledge about external influences and

storage materials used will help to adapt further measures to the painting as it continues to degrade.

Friedl Dicker-Brandeis Stefanie Kitzberger, Cosima Rainer, Linda Schädler, 2022-12-19 Bauhaus artist Friedl Dicker-Brandeis The work of Friedl Dicker-Brandeis (1898–1944) occupies a key position in the broader history of the Austrian avant-garde while also deepening our understanding of modernism. Her work covers an impressive range of media and genres in the visual and applied arts. Influenced by her studies at Vienna's Kunstgewerbeschule (which later became the University of Applied Arts Vienna), the Itten Private School, and the Bauhaus in Weimar, she worked as a painter, stage designer, architect, designer in Vienna and Berlin, in exile, and as a deportee. This book explores the heterogeneity of Dicker's work, reconstructs her artistic strategies and references to aesthetic and political discourses from the 1920s to the 1940s, and documents for the first time her works in the collection of the University of Applied Arts Vienna. Portrait of her work and collection catalog, dedicated to the artist, designer, and architect Friedl Dicker-Brandeis Essays by Julie M. Johnson, Robin Rehm, Daniela Stöppel, and others To accompany an exhibition in Vienna and Zurich; awarded as one of the most beautiful books in Austria in 2022

Messerschmidt's Character Heads Michael Yonan, 2017-09-22 This book examines a famous series of sculptures by the German artist Franz Xaver Messerschmidt (1736–1783) known as his Character Heads. These are busts of human heads, highly unconventional for their time, representing strange, often inexplicable facial expressions. Scholars have struggled to explain these works of art. Some have said that Messerschmidt was insane, while others suggested that he tried to illustrate some sort of intellectual system. Michael Yonan argues that these sculptures are simultaneously explorations of art's power and also critiques of the aesthetic limits that would be placed on that power.

Erasures and Eradications in Modern Viennese Art, Architecture and Design Megan Brandow-Faller, Laura Morowitz, 2022-09-23 *Erasures and Eradications in Modern Viennese Art, Architecture and Design* challenges the received narrative on the artists, exhibitions, and interpretations of Viennese Modernism. The book centers on three main erasures—the erasure of Jewish artists and critics; erasures relating to gender and sexual identification; and erasures of other marginalized figures and movements. Restoring missing elements to the story of the visual arts in early twentieth-century Vienna, authors investigate issues of gender, race, ethnic and sexual identity, and political affiliation. Both well-studied artists and organizations—such as the Secession and the Austrian Werkbund, and iconic figures such as Klimt and Hoffmann—are explored, as are lesser known figures and movements. The book's thought-provoking chapters expand the chronological contours and canon of artists surrounding Viennese Modernism to offer original, nuanced, and rich readings of individual works, while offering a more diverse portrait of the period from 1890, through World War II and into the present.

The book will be of interest to scholars working in art history, history, design history, architectural history, and European studies.

The Future of Museums Gerald Bast, Elias G. Carayannis, David F. J. Campbell, 2018-10-01 This book explores—at the macro, meso and micro levels and in terms of qualitative as well as quantitative studies—the current and future role of museums for art and society. Given the dynamic developments in art and society, museums need to change in order to remain (and in some ways, regain) relevance. This relevance is in the sense of a power to influence. Additionally museums have challenges that arise in the production of art through the use of permanent and rapidly changing technologies. This book examines how museums deal with the increasing importance of performance art and social interactive art, artistic disciplines which refuse to use classical or digital artistic media in their artistic processes. The book also observes how museums are adapting in the digital age. It addresses such questions as, “How to keep museums in contact with recipients of art in a world in which the patterns of communication and perception have changed dramatically,” and also “Can the art museum, as a real place, be a counterpart in a virtualized and digitalized society or will museums need to virtualize and even globalize themselves virtually?” Chapters also cover topics such as the merits of digital technologies in museums and how visitors perceive these changes and innovations. When you go back to the etymological origin, the Mouseion of Alexandria, it was a place where – supported by the knowledge stored there – art and science were developed: a place of interdisciplinary research and networking, as you would call it today. The word from the Ancient Hellenic language for museum (MOYΣEION) means the “house of the muses”: where the arts and sciences find their berth and cradle. With the “Wunderkammer,” the museum was re-invented as a place for amazing for purpose of representation of dynastic power, followed by the establishment of museums as a demonstration of bourgeois self-consciousness. In the twentieth century, the ideal of the museum as an institution for education received a strong boost, before the museum as a tourism infrastructure became more and more the institutional, economic and political role-model. This book is interested in discovering what is next for museums and how these developments will affect art and society. Each of the chapters are written by academics in the field, but also by curators and directors of major museums and art institutions.

Vienna Travel Guide Daniel Windsor, 2024-05-24 Vienna, the capital of Austria, is a city steeped in history, culture, and elegance. It is renowned for its imperial palaces, artistic heritage, and vibrant cultural scene. Often referred to as the City of Music, Vienna was home to many of the world's greatest composers, including Mozart, Beethoven, and Strauss. The city's rich history is reflected in its stunning architecture, from the Gothic splendor of St. Stephen's Cathedral to the baroque beauty of Schönbrunn Palace. The essence of Vienna can be found in its charming coffeehouses, where the tradition of Kaffeehauskultur (coffeehouse culture) invites locals and tourists alike to relax and enjoy a leisurely coffee with a slice of Sachertorte. The city's parks, such as the Prater with its iconic Ferris wheel and the elegant Stadtpark, offer green retreats

in the urban landscape. Vienna's artistic legacy extends beyond music to the visual arts, with museums like the Kunsthistorisches Museum and the Belvedere showcasing masterpieces from throughout the ages. The city's vibrant cultural scene is complemented by contemporary attractions, such as the innovative MuseumsQuartier, a hub for modern art and culture. Whether you're wandering through the historic center, a UNESCO World Heritage site, or exploring the trendy neighborhoods filled with modern cafes and boutiques, Vienna seamlessly blends the old with the new. This preface serves as a gateway to understanding the multifaceted charm of Vienna, a city where history and modernity coexist harmoniously.

Jewish Artists John Castagno, 2010-08-16 John Castagno's Artists' Signatures and Monograms have become the standard reference source for galleries, museums, libraries, and collectors around the world. Whether used to identify, authenticate, or verify signatures and works of both well-known and little-known artists, Castagno's work has no equal. In this new volume, Castagno has collected more than 1,100 signatures and monograms of Jewish artists, as well as signatures of artists whose work reflects Jewish themes. In addition to the standard signature entries found in Castagno's other books, this volume features additional biographical information, providing a more complete profile of the artist and his or her work. All artists are listed with the most updated information on nationality, birth and/or death dates. The entries direct the researcher to many biographical and bibliographical sources not found on web site searches, and many of the resources offer additional references. Several individual listings provide gallery referrals and catalog/auction dates, which can be used to buy or sell a particular artist's work. The use of Jewish Artists Signatures and Monograms: A Directory provides the researcher a

reference tool not duplicated elsewhere: one that will save many hours of research.

Museums in the German Art World James J. Sheehan, 2000-10-26 Combining the history of ideas, institutions, and architecture, this study shows how the museum both reflected and shaped the place of art in German culture from the late eighteenth century to the early twentieth century. On a broader level, it illuminates the origin and character of the museum's central role in modern culture. James Sheehan begins by describing the establishment of the first public galleries during the last decades of Germany's old regime. He then examines the revolutionary upheaval that swept Germany between 1789 and 1815, arguing that the first great German museums reflected the nation's revolutionary aspirations. By the mid-nineteenth century, the climate had changed; museums constructed in this period affirmed historical continuities and celebrated political accomplishments. During the next several years, however, Germans became disillusioned with conventional definitions of art and lost interest in monumental museums. By the turn of the century, the museum had become a site for the political and cultural controversies caused by the rise of artistic modernism. In this context, Sheehan argues, we can see the first signs of what would become the modern style of museum architecture and modes of display. The first study of its kind, this highly accessible book will appeal to historians, museum professionals, and anyone interested in the relationship between art, politics, and culture.

Corot Gary Tinterow, Michael Pantazzi, Vincent Pomarède, Galeries nationales du Grand Palais (France), National Gallery of Canada, Metropolitan Museum of Art (New York, N.Y.), 1996 Published to accompany a major exhibition of Jean-Baptiste-Camille Corot's paintings held in Paris and Ottawa during 1996, and forthcoming to New York. From nearly 3,000 paintings by this poetic 19th-century artist, the curators chose 163 works, which are reproduced here along with full art-historical discussions of each. Three major essays chronicle Corot's life and the development of his art; additional essays elucidate the subject of forgeries and describe the collecting of his works. Much original new scholarship is included along with a review of the scholarly literature, a concordance, and a chronology. 9.5x12.5 Annotation copyrighted by Book News, Inc., Portland, OR

The Museum Age in Austria-Hungary Matthew Rampley, Markian Prokopovych, Nóra Veszprémi, 2021-02-15 This important critical study of the history of public art museums in Austria-Hungary explores their place in the wider history of European museums and collecting, their role as public institutions, and their involvement in the complex cultural politics of the Habsburg Empire. Focusing on institutions in Vienna, Cracow, Prague, Zagreb, and Budapest, *The Museum Age in Austria-Hungary* traces the evolution of museum culture over the long nineteenth century, from the 1784 installation of imperial art collections in the Belvedere Palace (as a gallery open to the public) to the dissolution of Austria-Hungary after the First World War. Drawing on source materials from across the empire, the authors reveal how the rise of museums and display was connected to growing tensions between the efforts of Viennese authorities to promote a cosmopolitan and multinational social, political, and cultural identity, on the one hand, and, on the other, the rights of national groups and cultures to self-expression. They demonstrate the ways in which museum collecting policies, practices of display, and architecture engaged with these political agendas and how museums reflected and enabled shifting forms of civic identity, emerging forms of professional practice, the production of knowledge, and the changing composition of the public sphere. Original in its approach and sweeping in scope, this fascinating study of the museum age of Austria-Hungary will be welcomed by students and scholars interested in the cultural and art history of Central Europe.
