## Erich von Däniken

**Chariots of the Gods?** Erich von Däniken,1971 Presents the theory that earth has been visited by extraterrestrial beings.

*Chariots of the Gods* Erich von Daniken,2019-06-27 All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the ground-breaking Chariots of the Gods, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in Chariots of the Gods. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. Chariots of the Gods is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

*Chariots of the Gods?* Erich von Däniken,1974-01-01 Were visitors from outer space responsible for the fantastic and unexplained ruins left behind by ancient civilizations?

*The Gods Never Left Us* Erich von Däniken,2017-11-20 The Long Awaited Sequel to the Worldwide Best-seller Chariots of the Gods When Chariots of the Gods was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles chariots, and those driving the chariots became gods. Over the next five decades, von Däniken's more than 40 books built an

ever-stronger case for Earth being visited by extraterrestrial visitors. And Chariots became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are--as a race--embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he adds his own to the point take on it all. Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read. --Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine

*Summary of Erich von Däniken's Chariots of the Gods* Everest Media,2022-04-30T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The astronomers estimate that there are about 4,500 stars that can be seen with the naked eye. The telescope of a small observatory makes nearly two million stars visible, and a modern reflecting telescope brings the light from thousands of millions more to the viewer. But in the colossal dimensions of the cosmos, our stellar system is only a tiny part of an incomparably larger stellar system. #2 There are 18,000 planets in our galaxy that are similar to the earth, and it is estimated that two million different species of living creatures live on the earth. The idea that life can only exist and develop on a planet like the earth is no longer true. #3 The universe is estimated to be

between eight and twelve milliard years old. Meteorites bring traces of organic matter under our microscopes. Bacteria millions of years old wake up to new life. Floating spores propelled by the light of a sun travel the universe and are captured by the gravitational field of a planet. #4 We took 400,000 years to reach our present state and stature. Who can produce concrete proof that another planet did not provide more favorable conditions for the development of other or similar intelligences. We are nothing but ants in the vast State of the universe.

The Gold of the Gods Erich von Däniken, 2011-06-17 Erich von Däniken, whose books have enthralled millions of readers around the world, now presents astonishing new confirmation for his revolutionary theories. Erich von Däniken's *The Gold of the Gods* unveils new evidence of an intergalactic battle of the gods whose losers retreated to, and settled, Earth. He explores a vast, mysterious underworld of Ecuador---caves filled with gold and writings in solid gold that go back to the time of the Great Flood, bolstering von Däniken's theory of a prehistoric earthly era of the gods.

Signs of the Gods? Erich Von Däniken, 2011-06-15 Were human beings created by powers from outer space? Did extraterrestrial giants build the megaliths of Malta and the menhirs of Brittany? Was the Ark of the Covenant a machine built by the astronaut gods? In *Signs of the Gods?* Erich von Däniken travels far and wide around the globe to study the many strange phenomena that all point to one conclusion---that many thousands of years ago, Earth was visited by a race of superhuman powers and intelligence. The questions he addresses along the way include: ---Why are the religious sites in Greece all laid out in the same geometrical pattern---a pattern which is repeated throughout the world? ---Does the extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen? ---Could the first men have been produced by cloning? ---Do the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy? Erich von Däniken's *Chariots of the Gods* provoked a worldwide storm of controversy. In *Signs of the Gods?* he produces powerful arguments to support his theory of astronaut gods, with evidence that is difficult to explain any other way. Hear what he has to say with an open mind---and you may find yourself agreeing with him. Show less

**The Gods Were Astronauts** Erich von Däniken, 2023 Why do nearly all the world's major religions share such similar myths and legends? Whether it's the Old Testament, ancient legends, or the creation myths of New Zealand's natives-you come across similar stories everywhere. This book propounds-and offers persuasive evidence-that the winged angels populating the Bible, Koran, and other religious texts from cultures the world over were in reality extraterrestrials who visited the Earth in ages long past. Intellectually challenging and provocative, these findings may shake the foundations of both science and faith--
