Textos científico-técnicos. ¿Cómo crearlos? Miriam G. Raya Hernández, María Elena Zulueta Blanco, 2024-01-15 La utilidad de esta obra va más allá del trabajo de editores, correctores o diseñadores y aunque no es un tratado, sí es una guía para que los autores conozcan los aspectos esenciales que deben tenerse en cuenta cuando se concibe un texto científico y para que los especialistas relacionados con la publicación de textos puedan consultar diversos aspectos. La redacción científica debe, ante todo, cumplir una premisa: ser precisa y objetiva. Textos científico-técnicos ¿Cómo crearlos? expone temas tan abarcadores como la presentación de un original o las formas de textos de acuerdo con su estructura, complejidad y contenidos, y otros tan específicos como son el derecho de autor o las especificidades de las diferentes normas bibliográficas.

Escritura e Investigación académica 2 edición Correa Restrepo, Juan Santiago, Murillo, Javier H, 2015-05-03 Para la mayor parte de los estudiantes, culminar su trabajo de grado es la principal dificultad de su proceso académico: la llamada tesis constituye muchas veces un escollo, una dificultad que debe ser franqueada para obtener un grado. Esto, sin embargo, no tiene que ser así, Si se asume correctamente, este trabajo potencia el esfuerzo realizado durante los años académicos, y le permite al autor posicionarse dentro de su disciplina: permitir que su nombre esté relacionado con un tema que, de una u otra manera, fue de su interés y, en los casos más felices, con un asunto que llegó a apasionarlo. Escritura e investigación académica: una guía para la elaboración del trabajo de grado plantea los lineamientos básicos que un estudiante debe seguir y tener en cuenta a la hora de realizar una investigación académica, especialmente en los trabajos monográficos. En él se explican, de manera puntual y sencilla, cada uno de los pasos a seguir, y se proponen algunos consejos para optimizar el proceso investigativo académico. Resulta de gran utilidad, por lo tanto, para todo tipo de estudiante: para aquel que por primera vez se aventura en un proceso de investigación o para quienes buscan dar forma definitiva a los documentos que constituyen la última y más importante etapa de los programas de maestría o formación doctoral.

La investigación antropológica Anastasia Téllez Infantes, 2014-01-20 Este libro pretende dar a conocer a los/las estudiantes y a los/las investigadores/as noveles de Antropología la lógica de trabajo que guía toda investigación etnográfica. La autora expone reflexiva y críticamente, las características del método antropológico, es decir, el procedimiento a través del cual se desarrolla el proceso de investigación etnográfica, que orienta la aplicación de las diversas técnicas, para la

recogida, producción, clasificación y presentación de los resultados a modo de producto etnográfico. El texto contempla tanto las diversas técnicas de investigación como la metodología empleada por los/las etnógrafos/as en sus estudios empíricos, otorgando una especial atención al diseño del proyecto de investigación. En este manual, Anastasia Téllez resalta la relevancia de las técnicas de organización, análisis y presentación de resultados en la investigación antropológica, pues las considera tan importantes como las de recogida de datos.

Rifian Society, Culture and Politics in Mediterranean Morocco Stefan Festini Cucco,2025-01-31 This book explores the Moroccan Rif and the city of Al Hoceima, combining local voices and ethnographic insights to provide a comprehensive and unique overview of the multifaceted dynamics of the Mediterranean region. The focus of the book is on the society, culture, and people of the region, namely the Rifians. Throughout, their voices are interwoven with first-hand ethnographic data, geographical, ethnohistorical, and anthropological insights, as well as 100 photographs, giving the reader an in-depth understanding of Rifian society and culture. The book also considers other themes, including maritime and mountain economies, ecologies in times of climatic change, transregional entanglements, migration, and the tense relationship between the Rif's inhabitants and the Moroccan monarchy. This book places particular emphasis on the generation of young Rifians who took to the streets in 2016-17 after the tragic death of a fishmonger in Al Hoceima. After months of protests involving thousands of people, at times spreading to other cities in Morocco and as far as Europe, the Makhzen, the power elite that governs Morocco, eventually took back the stage and crushed the popular protest movement. Today, despite the apparent calm, the situation in the region remains tense beneath the surface. Examining a wide range of topics related to the Rifians in northern Morocco, the book will appeal to anyone interested in the Mediterranean region, Middle Eastern society, and anthropology.

Las ciencias sociales revisitadas Gustavo Leyva Martínez,2024-05-17 El origen de esta obra se remite al Tratado de Metodología de las Ciencias Sociales editado por mi colega ya fallecido, Enrique de la Garza Toledo, y por quien esto escribe

y fue publicado en su primera edición en 2012 en el marco de una coedición entre el Fondo de Cultura Económica y la Universidad Autónoma Metropolitana. Esa obra tuvo una buena acogida en el ámbito iberoamericano y, después de una reimpresión, la obra actualmente se encuentra prácticamente agotada. Después del fallecimiento de Enrique de la Garza en 2021 y tras los once años transcurridos desde su publicación me pareció que era necesario pensar no tanto en una reedición, sino en una nueva obra dotada de una perspectiva teórica aún más amplia que hiciera justicia tanto a los temas, a las corrientes y a autoras y autores no tratados en su momento, así como a los nuevos enfoques metodológicos surgidos en los últimos años. Es por esta razón que en este libro debía marcarse claramente la distinción con relación al Tratado de Metodología de las Ciencias Sociales no solamente con respecto a su amplitud y variedad, sino también con relación a su título mismo.

Eclesiástico Víctor Morla Asensio,2024-03-26 Se apagaba el siglo III y amanecía el siglo II a. C. cuando, en pleno dominio seléucida de Palestina, vio la luz esta peculiar obra, escrita originalmente en hebreo. El traductor al griego se presenta como nieto del autor, de cuyo nombre informa: Jesús. Esta obra firmada pretende ser aparentemente un compendio de sabiduría orientado a la educación religiosa de los israelitas, si bien no puede ocultar los rasgos de un auténtico manual de teología política, muñida al servicio de una ideología sociopolítica concreta. Una prodigiosa trinidad de entidades convergentes entre sí (Religión, Sabiduría y Ley) invita a los lectores a la resiliencia frente a la adversidad, mientras se cubren las etapas del largo camino a casa. El autor (o autores) intima(n) a sus lectores a abandonar las peligrosas rutas de la curiosidad intelectual y la libertad de pensamiento (3,21-24) y a acatar la disciplina del sometimiento a la Ley. Queda abortada así el ansia por el cultivo de la inteligencia emocional y de la experiencia estética que definían a la antigua sabiduría global y globalizadora, para la que la meta no era el hogar, sino el camino. La propuesta de Ben Sira de una ortopraxis exógena generaba sin remedio la regresión a un estéril infantilismo religioso. De algún modo, se puede decir que Jesús Ben Sira representa el declive y la muerte de la sabiduría en el seno del judaísmo.
