Who Stole My Spear? Tim Samuels, 2016-05-05 Of the 200,000 years homo sapiens has been wandering this planet, this has to be the most absurd and challenging time to be a man... How can you hunt and gather in an open-plan office? Is monogamy fighting a losing battle against testes size? Why do men make up 95% of FTSE CEOs yet 95% of the prison population? Trapped in bodies barely changed since caveman days, males are now contending with corporate culture, lifelong commitment, rampant depression and crazy expectations to be a success at work and home. Enter award-winning BBC broadcaster and journalist Tim Samuels with *Who Stole My Spear?* - which stops at nothing to explore how men should actually be living these days. From relationships, religion, and the rise of ISIS, to porn, fatherhood and the oppression of office life. Nothing is taboo: Is it less serious when a man has an affair? Why don't new parents want boys? *Who Stole My Spear?* is an inspiring rallying call for men and 'good masculinity' which cannot be ignored - that will leave you rethinking much about life's big questions. And for women who wonder what's on a man's mind, this is the book that offers the entertainingly explosive answer.

Who Stole My Pension? Robert Kiyosaki, Edward Siedle, 2020-01-14 It's estimated that there are over 50 million pensioners--in the United States alone. Like the United States, the United Kingdom, Japan, Italy, Germany and many other countries around the world are all in big trouble when it comes to the solvency of their pension funds. *Who Stole My Pension?* was written to give them guidance, resources, and tools so they can take action... and stop the looting. We are in the early stages of the greatest retirement crisis in the history of our nation and, indeed, the entire world. According to the World Health Organization, nearly two billion people around the world are expected to be over age 60 by 2050, a figure that's more than triple what it was in 2000. For better or for worse, never before have there been more elderly people living on planet Earth. One thing is certain: Doing nothing--sitting back, confident your pension check is in the mail--is not an option. That's a risk you can't afford to take. According to Edward Siedle, a former attorney with the United States Securities and Exchange Commission and America's leading expert in pension looting, In the decades to come, we will witness hundreds of millions of elders worldwide, including America's Baby Boomers, slipping into poverty. Too frail to work, too poor to retire will become the new normal for many of the aged. Kiyosaki, who like Siedle saw this crisis looming years ago, complements the facts and stats Siedle puts forth with strategies on how retirees can take control--not only their pensions, but their

financial futures. Kiyosaki writes about the fact that his father, a highly educated man he calls his poor dad, wasn't poor until he lost his job, his paycheck--and his pension. His PHD couldn't save him, says Kiyosaki, who has dedicated his life to teaching and financial literacy advocacy. In *Who Stole My Pension?* the authors focus on the most misunderstood and ignored cause of the pension crisis: mismanagement of pensions and investments. The culprits that are looting the pensions of public school teachers, firefighters, police, as well as private sector workers, are on Wall Street. The Wall Street casinos charging high fees for gambling in risky hedge funds and other speculative investments, outrageous investment-industry conflicts of interest, and outright violations of the law. *Who Stole My Pension?* is an in-depth assessment of the pension crisis that the world is facing today and what millions around the world--employees who expected to have pension income at retirement--can do about it. The authors recount a history of pension failures, inexperienced boards, gambling, looting and other horror stories--with a focus on action steps workers and retirees can take to quickly determine if a pension is being mismanaged as well as the concrete steps they can take to end decades of pension mismanagement. They detail critical questions retirees can ask--and guidance regarding how to act on what they learn.

Where Nobody Dies Carolyn Wheat, 2015-02-24 When her client is murdered, Cass must defend a man she loathes. In the last three months, Cass Jameson has made eleven appearances in Brooklyn family court, helping a secretary named Linda battle her ex-husband, Brad, for custody of their daughter. When the judge rules in Linda's favor, Brad flies into a rage, screaming threats so violent that a cop is forced to subdue him. It is an incident that Cass would like to forget. But when she comes home one night and sees the police outside the building where both she and Linda live, she knows she never will. Linda has been murdered in her apartment, stabbed repeatedly and left to die in a pool of blood. The prime suspect is her ex-husband, but Cass doesn't believe Brad was capable of murder. After months of fighting him in court, she takes Brad on as a client to prove that he was framed—and to ensure that his daughter has one parent left to count on.

The Grandmothers' Movement May Chazan, 2015-04-01 At the height of the African AIDS crisis older women mobilized across two continents and an ocean of difference to change the lives of innumerable African women confronting insecurity, violence, grief, and illness. In 2006 the Stephen Lewis Foundation launched its Grandmothers to Grandmothers Campaign, seeking to organize Canadians in solidarity with Africa's grandmothers - older caregivers who had lost their children to AIDS and were left to raise their grandchildren. Four years later, some 10,000 Canadians had joined the campaign. May Chazan's *The Grandmothers' Movement* explores the encounters, ideas, and circumstances that shaped this remarkable story of solidarity and struggle. Based on interviews, family trees, personal journals, and archival materials, Chazan provides the first analysis of the movement. Through personal reflections and powerful vignettes from nearly a decade of participation in grandmothers' lives in South Africa and Canada, she presents untold narratives and brings new humanity to the AIDS crisis.

in Africa. The Grandmothers' Movement tells a story of hope while challenging conventional understandings of the global AIDS response, solidarity, and old age. It is about the power of older women to alter their own lives through collective action and about the influence of transnational cooperation to effect positive global change.

Bridge of Lies Greg Dinallo, 2021-10-12 We all know about the Russian hacking of the 2016 US election—but what if the Russians had something bigger in the works? Russian investigative reporter Nikolai Katkov grew up under the Soviet regime and came of age as a journalist during the Cold War. The rumpled chain smoker no longer drinks, but he's devoted to truth, justice, and the American way; he considers his collection of comic books his pension. He and his colleague Nina Grafinskaya have always been highly critical of Putin and his corrupt cronies, so it's no surprise, though still tragic, when Grafinskaya is terminated by a Kremlin assassin after publishing an article revealing the dirty deals of Putin's inner circle. When her FBI contact is discovered in the trunk of his car with a slit throat, Katkov takes over Grafinskaya's unfinished story about a Russian mole placed high within the US federal security apparatus. Are the two stories connected? Katkov thinks so and becomes a target himself when he heads to Washington, DC, to follow up. In DC, FBI special agent and Amtrak liaison to the Joint Terrorism Task Force Lana Nichols is implementing a major upgrade to the railroad's computer security. Nichols, a sexy, young cyberterrorism expert, lands the assignment of babysitting Katkov, who attracts Russian thugs and hit men like a magnet. Katkov begins to understand the Russians' plot isn't about protecting the mole, but rather protecting a Code Red op about to go live. The Russians have been playing the long game to destabilize America—and now all the pieces are finally in place. Katkov suspects Lana Nichols—American born but ethnically Russian—is the mole. Her cover blown, she goes off the grid, leaving a path of cold death in her wake. The plot? A railroad bridge, over which freight trains laden with volatile chemicals must travel to continue their journey up the Eastern Seaboard, lies within spitting distance of the Capitol. And with only hours to go before the State of the Union address, the clock is ticking louder than ever. But what's the plan? How is she going to do it? And can they stop her in time?

Doing History from the Bottom Up Staughton Lynd, 2014-12-01 Reflections on the crucial importance of including the perspectives of the marginalized and the non-elite in our historical accounts. In the 1960s, historians on both sides of the Atlantic began to challenge the assumptions of their colleagues and push for an understanding of history “from below.” In this collection of writings, Staughton Lynd, one of the pioneers of this approach, laments the passing of fellow luminaries David Montgomery, E.P. Thompson, Alfred Young, and Howard Zinn; offers an account of the decline of trade unionism based on the narratives of workers and his efforts as a lawyer to assist them; and makes the case that contemporary academics and activists alike should take more seriously the stories and perspectives of Native Americans, slaves, rank-and-file workers, and other still-too-frequently marginalized voices.

Life on the Ohio James Coomer, 2021-12-14 When young James Coomer was offered a job as deckhand on the tugboat Pat Murphy at a dollar an hour, he took his first smell of diesel fuel and knew he was hooked. Life on the Ohio puts the reader in the pilot's seat as Coomer wrestles with runaway barges, navigates through ice and fog, pacifies angry crew members, and contends with the loneliness of working a thirty-day stretch. A modern counterpart to Twain's account of life as a steamboat pilot, Life on the Ohio depicts the working river as it is today with its immense towboats, gigantic locks and dams, and

millions of tons of cargo. Coomer captures the movement of the boats and the colorful language of river people. Coomer admits that he stuck at his job not for money but for love of the river and his work. Over the years I had experiences I wouldn't trade for a barge full of gold, he says, and that's what this book is all about.

Belonging in Brixton Audrey Allwood, 2020-11-19 This volume provides a unique perspective on elderly working-class West Indian migrants in the UK, particularly examining how they negotiate their sense of belonging. Utilizing the life span gaze and including elements of oral history and narrative, this ethnography provides rich insight into the ordinary lives, migratory circumstances, social networks, and interactions with the state as residents in a sheltered housing scheme in Brixton, London. The author further compiles a variety of genealogy charts, providing a uniquely vivid scholarly analysis of the Caribbean migrant experience both in a “place” and through space and time. Ultimately, this work contemplates how communities face change whilst at once developing a local symbolic cultural site, navigating adaptation to new economic and social environments.
