

La Vida Del Espiritu Hannah Arendt

Marco Estrada Saavedra

La vida del espíritu Hannah Arendt, 2011-12-21 Hannah Arendt falleció repentinamente el día 4 de diciembre de 1975; era un jueves al atardecer y estaba departiendo con unos amigos. El sábado precedente había acabado *La voluntad*, la segunda sección de *La vida del espíritu*. Al igual que su obra anterior, *La condición humana*, el trabajo estaba concebido en tres partes. *La condición humana*, cuyo subtítulo era *Vita Activa*, estaba dividida en *Labor*, *Trabajo* y *Acción*. *La vida del espíritu*, tal y como estaba planeada, se subdividía en *Pensamiento*, *Voluntad* y *Juicio*, las tres actividades básicas de la vida del espíritu, en opinión de la autora. La distinción, establecida en la Edad Media, entre la vida activa del hombre en el mundo y la solitaria vida contemplativa estaba naturalmente presente en su pensamiento, a pesar de que para ella aquel que piensa, quiere y juzga no es alguien contemplativo, apartado por una vocación de monje, sino cualquier hombre que ejerce su capacidad humana de retirarse de vez en cuando a la región invisible del espíritu. Arendt jamás se pronunció abiertamente acerca de si la vida del espíritu era superior a la vida activa (como la habían considerado la Antigüedad y la Edad Media). Sin embargo, no sería excesivo decir que dedicó los últimos años de su vida a esta obra, que ella emprendía como una tarea, la más elevada a la que había sido llamada, que se le imponía como ser vigorosamente pensante MARY MACCARTHY

Una herencia sin testamento: Hannah Arendt Fina Birulés Bertrán, 2025-02-18 Las reflexiones de Hannah Arendt surgen de la experiencia de los totalitarismos. El choque del pensamiento con la realidad y la inadecuación de las viejas herramientas conceptuales a la política del siglo XX la empujan forzosamente a buscar nuevas formas de comprensión. Así, su obra se caracteriza por una feroz independencia intelectual, y también por una relación conflictiva entre filosofía, sociología, historia y psicología.

The Construction of Physical and Emotional Health Sergio López Ramos, 2012-04-24 The construction of the physical and emotional health, is a collection of essays that question the origin of organic diseases and he dares to suggest that there is a body-building process that goes beyond the viruses and bacteria and exemplified by History, Anthropology, Psychology, Acupuncture, oral History, how to build a Psychosomatic illness, his explanation is an Epistemology which gather Transdisciplinary it to an emerging reality that manifests in the body and the construction of a new body process that can not be explained without the emotional exaltation of our time, these works are part of the experience of over 25 years of work by the author, in therapy and research theory and practice.

Arcana del pensamiento del siglo XX Cristina Basili, Roberto Navarrete, José Luis Vilacañas, 2021-07-06 Este libro se pregunta por el movimiento del pensar en el siglo XX, no para exponer de forma académica un aspecto u otro del pensamiento de los grandes autores del siglo pasado, sino para identificar sus arcana: aquellas conexiones filosóficas veladas en una obra o autor que, aunque ocultas, en reserva o latentes, determinaron posiciones importantes, decidieron las acuñaciones conceptuales, los giros temáticos y las orientaciones, y generaron los estratos de sentido de los conceptos y los compromisos vinculantes. La obra propone así ejercer el poder de la crítica en el campo de la filosofía, mediante la búsqueda de nuevos estímulos evolutivos y sendas no transitadas en las que está en juego la historia de los conceptos, evitando al mismo tiempo caer en la mitificación de las conexiones germinales establecidas y mostrando potencialidades todavía no agotadas que permitan renovar nuestra conciencia histórica al margen del futurismo acelerado de la Modernidad.

El saber filosófico: Antiguo y moderno, 2007

Pensando y actuando en el mundo Marco Estrada Saavedra, 2003

El rostro de la violencia María Elósegui Itxaso, C. Gaudó, 2002 Publicación surgida como consecuencia de las I jornadas sobre mujer y violencia, que pretendían concienciar y analizar aquellos comportamientos sociales en los que aparece habitualmente la agresividad contra las mujeres, y dar fin a la violencia pensando en unas relaciones interpersonales basadas en la dignidad humana. La primera parte del libro está compuesta por las aportaciones teóricas de las jornadas y su posterior elaboración por parte de los conferenciantes, y la segunda incluye los resultados de un estudio epidemiológico centrado en los trastornos alimentarios y género. Los distintos escritos intentan descubrir la naturaleza polimorfa de la agresividad humana en la que intervienen diversos factores tanto en su origen como en su arraigo. Para la consecución de unas relaciones pacíficas entre los géneros masculino y femenino es necesaria una reflexión interdisciplinar sobre las causas de las que motivan las agresiones psíquicas y físicas y supone un esfuerzo por parte de toda la sociedad.

El sentido de sí Rubí de María Gómez Campos, 2004

Congreso Fenomenología y Ciencias Humanas Ma. Luz Pintos Peñaranda, José Luis González López, 1998

El exilio como síntoma Rossana Cassigoli, 2016 Este libro se propone abordar el tópico del exilio desde dos perspectivas, inicialmente distintas pero convergentes en última instancia. Por una parte, la crónica literaria de la experiencia histórica familiar de la autora –que atraviesa dos hitos traumáticos de la historia del siglo XX, el genocidio nazi y la dictadura militar en Chile–, unida a la reflexión ética de la propia autobiografía como género testimonial de un hecho fragmentario con valor demostrativo. Por otra parte, se recogen aquí afortunados textos teóricos, enfatizando su sentido alegórico en relación con el exilio prototípico. En síntesis, se aborda el exilio desde el horizonte de una antropología filosófica y fenomenológica, confrontada con la impronta sintomática de lo vivido.

Pluralidad y diálogo en psicoanálisis Joan Coderch, 2015-06-16 Sigmund Freud fundó en 1910 la Asociación

Psicoanalítica Internacional (A.P.I.) y desde entonces han surgido diversas orientaciones y corrientes del pensamiento psicoanalítico, algunas de ellas muy divergentes entre si. En este libro el Dr. Joan Coderch se pregunta si existen uno o muchos psicoanálisis, discute las razones a las que se debe esta pluralidad y expone los motivos por los que, a su juicio, se trata de un fenómeno inevitable e incluso fructífero. El autor debate en profundidad el diálogo del psicoanálisis consigo mismo y con otras disciplinas científicas, entre ellas la filosofía, la filosofía del lenguaje, la hermenéutica, la metodología científica y la neurociencia, partiendo de la base de que en el momento histórico actual, marcado por una fuerte globalización, ninguna rama del conocimiento humano puede vivir y desarrollarse aislada.

Ellas lo pensaron antes María Luisa Femenías, Las mujeres desafiaron la condición de “inferiores”, “incapaces” o “dependientes” a que las destinaba su esencia femenina. Eligieron la literatura, la ciencia y la filosofía para expresarse. Incluso, en los períodos de censura pública, teorizaron en diarios íntimos o epístolas. Muchas veces se les prohibió el uso de la palabra y de la pluma, o simplemente fueron asesinadas por proseguir sus investigaciones. Durante largos períodos, no les fue permitido firmar con nombre propio sus textos figurando su obra como de “autor anónimo”. Superada la etapa del anonimato forzado, la mayoría firmaba con su inicial y su apellido paterno o marital, o un pseudónimo masculino, desdibujándose así su autoría. Por esto, la mayoría de las filósofas tuvo que esperar hasta el siglo XX para que sus obras fueran rescatadas del olvido. Ellas lo pensaron antes reúne una selección de veintidós filósofas que desde la Antigüedad hasta nuestros días han contribuido y contribuyen a la construcción del pensamiento y el desarrollo de la sociedad.

Ideología y opiniones Michael Billig, 2023-10-25 Este libro invita a la reflexión. Michael Billig presenta una serie de relevantes ensayos que desarrollan e ilustran su enfoque retórico de la psicología social. Billig propone la provocadora tesis según la cual el pensamiento cotidiano, incluido el mantenimiento de opiniones, es en esencia tanto retórico como ideológico. El proceso mismo del pensamiento es fundamentalmente un proceso de argumentación y debate, con uno mismo, con los demás y con las ideologías inherentes al acervo social del lenguaje del sentido común. Los primeros capítulos desarrollan la base teórica y las implicaciones de la propuesta de Billig. Por un lado, una psicología retórica exige que la psicología aborde cómo se reflejan en el pensamiento de los individuos los modelos más amplios de la sociedad. Por otro lado, revela la importancia de una comprensión psicológica de las relaciones entre el individuo y la sociedad, que debería, y puede, rechazar una visión en última instancia insatisfactoria de los individuos como «incautos irreflexivos» del funcionamiento de la ideología. Los capítulos siguientes demuestran cómo se puede aplicar de un modo empírico una perspectiva retórica. Los estudios descritos exploran el concepto de prejuicio, la argumentación en el seno de la familia, las opiniones de sentido común sobre la monarquía y las operaciones de la ideología tanto en las vidas corrientes de los jóvenes de derechas como en las «racionalidades» extraordinarias de la propaganda fascista. El capítulo final retoma algunos temas más amplios relativos a la retórica y la ideología. Billig ofrece una sólida crítica del actual interés moderno y posmoderno por la retórica y esboza

su visión alternativa de la «sociedad argumentativa». Ideología y opiniones es una lectura esencial para profesionales de la psicología social, la sociología y todas aquellas personas interesadas en investigar tanto empírica como teóricamente las relaciones entre los individuos y la sociedad.

Poética del tiempo Jorge Peña Vial, 2002

Escenas del cuerpo escindido Cecilia Sánchez, 2005 The book is an essay comprising a diverse articles published between 1998 and 2005. This compilation of around 20 texts presents an heterogeneous spectrum of topics by authors such as: Diamela Eltit, Elvira Hernández and Guadalupe Santa Cruz, among others who from a philosophical point of view the writings of George Bataille, Hannah Arendt; Gonzalo Rabanal, Samuel Ibarra and Menashe Katz. The texts were originally meant for academic activities or publications and because of their interdisciplinary nature and can be read separately.

Hacia una nueva ética Rosario Herrera Guido, 2006-01-01

El clima de la historia en una época planetaria Dipesh Chakrabarty, 2022-11-24 El advenimiento del Antropoceno no sólo ha puesto en jaque a la humanidad y al clima, sino también las categorías que hasta ahora hemos utilizado para dar cuenta de nuestra situación y del lugar que ocupamos en el planeta. Lo humano, que hasta ahora había centrado toda forma de pensamiento, se encuentra de repente imbricado en un sinfín de procesos planetarios que lo desplazan y lo transforman, al tiempo que la cronología limitada propia de los asuntos humanos se ve empujeada ante la magnitud del tiempo biológico e incluso geológico, que afecta e infecta a la historia introduciendo mutaciones inesperadas. Si queremos sobrevivir a los desafíos que la crisis climática nos plantea, debemos aprender a orientarnos en un mundo que, como nos dice Dipesh Chakrabarty, ha superado «lo global» para adentrarse en «lo planetario». Desde la frágil pero irremplazable base que aporta esta constatación, El clima de la historia en una época planetaria propone una hoja de ruta para repensar la condición humana ante el horizonte de la devastación ecológica y social que amenaza con resquebrajar nuestras vidas.

Enseñar y aprender filosofía María Carolina Casanueva, 2022-12-02 ¿Por qué es importante que esta asignatura esté presente en la formación de cada escuela y liceo? ¿Por qué es frecuentemente replanteada su pertinencia en el currículum escolar? Ya desde Sócrates se aprecia el carácter dialogante, cuestionador y político de la actividad filosófica. Hoy, ¿cómo la filosofía podría dejar de ocuparse del problema ecológico-social, de las dificultades que enfrenta en Chile la convivencia ciudadana, de los afanes de reconocimiento e integración de diversas diferencias, de las relaciones entre verdad y política, de los desafíos de una educación no sexista? Este libro se ocupa de la enseñanza de la filosofía en la educación media: qué sentido tiene, cuáles son sus aportes, por qué es necesaria, qué acentos ha de tener hoy en día.

Tumbas Cees Nooteboom, Simone Sassen, 2007-11-27 Cees Nooteboom, que ha viajado por todos los continentes y ha recorrido el mundo de la literatura, visita a sus «muertos amados» allá donde se encuentren para entablar diálogos con ellos, para verificar sus palabras, su inmortalidad. Peregrinó a la tumba de Neruda en Chile, a las de Vallejo y Cortázar en París, a

la de Antonio Machado en Collioure, a la de Stevenson en Samoa y a la de Kawabata en Japón; a las de Keats y Shelley en Roma, en el «cementerio de los extranjeros», donde también reposan el hijo de Goethe y uno de los hijos de Wilhelm von Humboldt; a las de Thomas Mann, James Joyce y Elias Canetti en Zurich; a las de Balzac, Proust y Nerval en el cementerio de Père Lachaise de París; a las de Brecht y Hegel, que están enterrados en un pequeño camposanto en Berlín. Las reflexiones que ha despertado en él esta gran variedad de las últimas moradas de grandes poetas y pensadores, los versos y palabras que le han inspirado son, como siempre en Nooteboom, merecedores de ser leídos y extremadamente sugerentes.

Experiencia totalitaria, resistencia y testimonio de Bonhoeffer a Kertész Carmen González Martínez, Dámaso Eslava García, Fuensanta Pérez Mengual, José Antonio Fernández López, Ángel Prior Olmos, 2015 La presente publicación pretende exponer en qué consistió la experiencia totalitaria, cómo fue posible responder a la misma y qué reto de futuro plantea, todo ello en base al análisis de aportaciones de autores (de algunos de los cuales se ofrece una amplia antología tematizada) profundamente vinculados a esa experiencia. En efecto, las cartas desde el cautiverio de Dietrich Bonhoeffer, así como su proyectada Ética, los relatos y reflexiones de Primo Levi, el testimonio y las consideraciones de Jean Améry, los trabajos historiográficos y los ensayos de Hannah Arendt, la literatura y la ensayística de Imre Kertész, se encuentran desde luego entre los materiales más significativos de la cuestión tratada, de manera que puede defenderse la idea de un itinerario coherente como el que aquí se presenta desde Bonhoeffer a Kertész.
