

Historia De La Psicología

Jesús Beltrán

Historia de una psicología Sergio López Ramos,1997-01-01

Historia y sistemas de la psicología James F. Brennan,1999

Historia de la psicología Milagros Sáiz Roca, Blanca Anguera Domenjó, Cristina Civera Molla, Gonzalo de la Casa Rivas, 2011-07-30 La Psicología como disciplina científica ha recorrido ya un largo camino. El Manual presta atención en su narración a los contextos y circunstancias que envolvieron el surgimiento de esta disciplina en distintos países.

La psicología en América Latina Rubén Ardila, 1986 Ofrece una historia de la psicología en nuestro subcontinente que comprende también su situación actual y sus perspectivas futuras. Describe el importante papel de esta ciencia considerando sus diversas áreas de estudio. Aborda la vida y obra de sus precursores y la labor de sus mejores exponentes de hoy en día. Asimismo ofrece un análisis de las dificultades y soluciones propuestas sin olvidar factores ideológicos y políticos.

Historia de la psicología Carlos Santamaría, 2018-05-16 La Psicología ha pasado en pocos años de ser un pasatiempo interesante para algunos profesores del departamento de Filosofía, a convertirse en una profesión de gran demanda social y una ciencia bien establecida. Este libro es testigo de ese extraordinario proceso. El libro hace hincapié en el desarrollo de la psicología a partir de su consolidación como disciplina independiente. No obstante, se dedica un capítulo a los principales problemas filosóficos que dieron origen a la concepción actual de la psicología. Estos problemas, relacionados con la naturaleza y adquisición del conocimiento por parte de los seres humanos, y con la relación entre las funciones y estructuras corporales y las operaciones mentales guían en gran medida la exposición de todos los capítulos a lo largo del libro. Es por lo tanto este libro una historia de los problemas psicológicos que han preocupado al ser humano a lo largo del tiempo, y de las ideas surgidas en cada época como respuesta a dichos problemas. El tono didáctico de la exposición hace de este libro una adecuada introducción al estudio de la historia de la psicología y las ideas psicológicas para cualquier persona interesada en estos asuntos.

Psicología de la Educación Jesús Beltrán, 1995-10 Esta obra en la que han intervenido una treintena de profesores universitarios como coautores, constituye un excelente y sólido manual de introducción a la temática de la psicología educativa, tanto por su rigor científico como por sus aciertos didácticos. Articulado en siete partes (historia, conceptos y métodos, aspectos cognitivos del estudiante, personalidad y motivación, aprendizaje, interacción educativa, enseñanza, y

contexto social) mantiene no obstante unidad en su corpus temático y completitud en la problemática general de la disciplina.

Historia de la psicología científica Stefano Calicchio, 2020-05-27 Descubrir la historia de la psicología y sus áreas de aplicación nunca ha sido tan fácil. En este volumen se revisan las principales corrientes de pensamiento que han caracterizado el nacimiento y la evolución de la psicología científica. Desde los primeros laboratorios de psicología hasta la teoría psicodinámica, desde el cognitismo hasta la neurociencia, la primera parte de esta guía te lleva de la mano y te acompaña entre los descubrimientos más importantes del tema. La segunda parte del volumen está dedicada al descubrimiento de la psicología clínica, el trabajo, el derecho, el desarrollo y los diversos campos de aplicación del tema. Todo esto a través de un estilo de discurso simple, rápido y esencial. El libro termina con un pequeño test de autoevaluación que permite al lector revisar y fijar los conceptos principales. Olvídate de los manuales de psicología de miles de páginas a un precio excesivo y empieza a explorar el funcionamiento de tu mente a través de una serie de guías a precios inmejorables. ### LA COLECCIÓN Psicología simplificada es una colección de textos sencillos, claros y listos para usar dedicados al funcionamiento de la mente humana, cuyo mínimo común denominador es la practicidad e inmediatez de sus contenidos. Desde los contextos laborales hasta la vida familiar, desde las relaciones con los demás en busca de un equilibrio personal, todos podrán encontrar respuestas y satisfacer su deseo de saber, sin entrar en conceptos más complejos de lo necesario.

Psicopatología Irwin G. Sarason, Barbara R. Sarason, 1993

Psychology Robert A. Baron, 1995 A standard introductory textbook focusing on the scientific roots of the field while emphasizing its practical value and relevance to society. The first edition was published in 1989. Annotation copyrighted by Book News, Inc., Portland, OR

Psicología y vida Richard J. Gerrig, Philip G. Zimbardo, 2005

Introducción a la psicología Charles G. Morris, Albert A. Maisto, 2001

Psicología David G. Myers, 2006 Esta nueva edición mantiene el tono de las anteriores y la mayor parte de su contenido y organización. Sin embargo, cada una de sus páginas ha sido actualizada. El resultado consiste en 664 referencias nuevas y en muchas secciones y ejemplos nuevos que reflejan la situación de la psicología a finales de la década de los noventa. Las ilustraciones se basan en conceptos retocados, el diseño de los capítulos es más efectivo y las numerosas fotos mejoradas deberían ...

Historias de la psicología Evelyn Hevia Jordán, Francisco Reiter Barros, Gonzalo Salas, 2019 Se presentan contribuciones y reconstrucciones parciales de las historias de la psicología. Así, en plural, porque tanto cada autor y autora de los trece capítulos que componen este libro como sus editores, problematizan la noción de Historia de la Psicología como una gran narrativa del pasado disciplinar que se escribe en mayúsculas. Es, en ese sentido, una obra que pretende tributar a

una interpretación histórica de la psicología, sus conceptos, sus personajes y aportes a la disciplina, así como a los usos que ha tenido (y tiene) en el campo político y social.

Psicología económica y del comportamiento del consumidor Vicent Borràs Català, Eduard Juanola Hospital, 2004-03 Este libro presenta un campo de estudio, el consumo, desde un punto de vista psicosocial y sociológico. Su objetivo es estimular la reflexión sobre la nueva sociedad de consumo que se está consolidando actualmente. Se entiende el consumo como un hecho que va mucho más allá del comportamiento económico. El consumo es, ante todo, un hecho social, simbólico y psicológico, pues forma parte de nuestra cotidianeidad hasta el punto de que se inscribe en nuestras emociones y funda nuestros deseos más íntimos. El consumo conforma nuestra nueva manera de relacionarnos con los objetos, por supuesto; pero asimismo, de forma sorprendente, conforma nuestras relaciones con las otras personas y con nosotros mismos. En el deseo, en el acto y en los efectos del consumo construimos una nueva sociedad y unos nuevos sujetos, cuyo proyecto de vida ya no está vinculado al trabajo, sino al consumo.

Historia de la Psicología Juan Manuel Burgos, Juan Manuel Burgos Velasco, 2014-05-30 La historia de la psicología es apasionante tanto por la complejidad del camino que debió seguirse para que se constituyera como ciencia como por la enorme aportación que los psicólogos han realizado a la cultura contemporánea y a nuestro modo de comprendernos. El presente texto relata con detalle esta historia en tres partes. En la primera, Fundamentos, se proporcionan claves básicas en torno a la ciencia y se describen las corrientes filosóficas más relevantes para la constitución o comprensión de la psicología. La segunda parte, Fundación de la psicología científica (s. XIX-XX), describe el período fundacional de la psicología, en la que esta se separa de la filosofía y se convierte en una ciencia autónoma mediante la utilización del método científico experimental. Por último, en la tercera parte, Las escuelas de psicología (s. XX), se describe el origen y las características de las corrientes psicológicas principales: el funcionalismo, el estructuralismo, el conductismo y neoconductismo, la Gestalt, el psicoanálisis, la psicología humanista y el cognitivismo. Se trata de un texto completo y claro, basado en la experiencia docente del autor, que interesará no solo a los alumnos de psicología, sino a cualquiera que quiera conocer las tesis básicas de los principales psicólogos y escuelas. Juan Manuel Burgos es Profesor Titular de Psicología Básica en la Universidad CEU-San Pablo. Es Fundador y Presidente de la Asociación Española de Personalismo y especialista en antropología. Ha publicado, entre otras obras, Antropología: una guía para la existencia (5a ed.) y Reconstruir la persona.

Historia de la Psicología / History of Psychology Antoine Badin, 2010-06-01

The Promise of Educational Psychology Richard E. Mayer, 1999 Covering the latest advanced in the field, this brief, easy-to-read introduction to educational psychology focuses on learning and teaching in subject areas and on helping students develop specific cognitive processes that are required to accomplish real academic tasks. Shows how psychological theories and research influence the development of better instructional practices and how real instructional problems influence the

development of better psychological theories and research. Deals with the educational psychology of five major subject areas -- reading fluency, reading comprehension, writing, mathematics, and science. Includes three to six major cognitive processes involved in mastering the subject area in each chapter. Analyzes the types of knowledge that are needed to perform academic tasks in the domain in several chapters. Provides concrete examples and connections between cognitive research and practical educational problems. Covers the core advances in educational psychology. For educators at all levels.

Historia de la psicología en Chile 1889-1981 - 2a edición Gonzalo Salas, Eugenio Lizama, 2009 Este libro pretende aportar el esclarecer hitos, personajes relevantes, instituciones y contextos en los cuales se desarrolló la psicología entre los años 1889-1981. La historia comienza rescatando las primeras contribuciones hechas por los alemanes Schneider y Mann, como los aportes de Rómulo Peña, quien sería el primer chileno que se habría formado en Leipzig con Wilhelm Wundt. Posteriormente se hace un barrido histórico respecto de la creación de las primeras carreras de psicología en la Universidades de Chile y Católica, las cuales logran posteriormente su consolidación. Este texto se cierra con la dictación de la Ley General de Universidades, el año 1981, la que cambió radicalmente el escenario de la Educación Superior en Chile.
