**Philosophy and Kafka** Brendan Moran, Carlo Salzani, 2013-04-19 The relationship of philosophy with Kafka's oeuvre is complex. It has been argued that Kafka's novels and stories defy philosophic extrapolation; conversely, it has also been suggested that precisely the tendency of Kafka's writings to elude discursive solution is itself a philosophical tendency, one that is somehow contributing to a wiser relationship of human beings with language. These matters are the focus of the proposed volume on *Philosophy and Kafka*. The proposed collection brings together essays that interrogate the relationship of philosophy and Kafka, and offer new and original interpretations. The volume obviously cannot claim completeness, but it partially does justice to the multiplicity of philosophical issues and philosophical interpretations at stake. This variety informs

the composition of the volume itself. A number of essays focus on specific philosophical commentaries on Kafka's work, from Adorno's to Agamben's, from Arendt's to Benjamin's, from Deleuze and Guattari's to Derrida's. A number of essays consider the possible relevance of certain philosophical outlooks for examining Kafka's writings: here Kafka's name goes alongside those of Socrates, Kant, Kierkegaard, Nietzsche, Wittgenstein, Buber, Heidegger, Blanchot, and Levinas. Finally, a number of essays consider Kafka's writings in terms of a specific philosophical theme, such as communication and subjectivity, language and meaning, knowledge and truth, the human/animal divide, justice, and freedom. In all contributions to the volume, such themes, motifs, and interpretations arise. To varying degrees, all essays are concerned with the relationship of literature and philosophy, and thus with the philosophical significance of Kafka's writings.

Modernity as Exception and Miracle Eduardo Sabrovsky, 2020-08-01 Translated from the Spanish *De lo extraordinario: Nominalismo y Modernidad*, this book argues that a defining aspect of modernity is an ever-increasing pursuit of, and need for, what Eduardo Sabrovsky calls the extraordinary, a term that encompasses both the exception and the miraculous. Sabrovsky shows the degree to which Robert Musil's novel *The Man without Qualities* functions as a paradoxical paradigm of the extraordinary, and he extends the theoretical insights drawn from Musil's magisterial work through a series of inquiries into cardinal elements of modern literature, material culture, historiography, physical science, psychoanalysis, and political theory. Sabrovsky demonstrates how the extraordinary condition of modernity emerges from the debates conducted by the last representatives of medieval scholasticism in which nominalism defeated realism, and he resituates the results of this triumph of nominalism in the writings of Friedrich Nietzsche, Theodor Adorno, Walter Benjamin, and Georges Bataille, among others.

*The What and the Why of History* Goldstein, 2021-12-06 *The What and the Why of History* deals with history as a cognitive

discipline concerned to establish justifiable knowledge about a past we can never experience. It is divided into three parts. The first focuses on the conditions that are presupposed when historians offer explanations of what they have come to know. But whatever is to be explained must first come to be known, and the second part is concerned with the character of the cognitive activity which is the constitution of the historical past. The point is that we must attend to the historical enterprise on its own terms, and not try to make it fit the epistemology of natural science or of common sense. The last section deals with Collingwood. It is shown that his characteristic positions contribute to an account of historical knowing, not historical explanation.
