Russia's Cotton Workers and the New Economic Policy Chris Ward,2002-06-20 Key aspects of life on the shop floor of the Russian cotton mill in the 1920s.

From Tsarism to the New Economic Policy R. W. Davies,1990-06-18 A comparison between the tsarist economy on the eve of the revolution and the Soviet economy in the mid-1920s. Questions posed include, was the tsarist economy successful, but destroyed by World War I? And was the breakdown of the mixed economy of the 1920s an arbitrary political act?

Russia in the Era of NEP Sheila Fitzpatrick,Alexander Rabinowitch,Richard Stites,1991-09-22 . . . a comprehensive look at an enigmatic era . . . —Choice This provocative collection of essays certainly takes some of the polish off Soviet socialism's golden age. —Journal of Interdisciplinary History The authors and editors of this splendid volume deserve great praise. Their work moves the field of Soviet history several large steps forward. —Slavic Review Lenin's New Economic Policy of the 1920s, although a relatively free and open potential alternative to Soviet communism, was also a time of extreme tension, as Russian society and culture were rocked by the forces of resistance and change. These essays examine the social and cultural dimensions of NEP in urban and rural Russia in the years before Stalin and rapid industrialization.

Russia's Bitter Path to Modernity Alexander Chubarov,2001-01-01 Will it follow the model of the Western capitalist democracies, as those who applied the economic shock therapy of the early 90s hoped, or will it chose its own distinct path of development? In this history of Russia from 1917 to the present, Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia (*The Fragile Empire*). One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass. This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles. Neither approach, says Chubarov, will work on its own. Chubarov offers a balanced view, abstaining from narrow, ideologically biased assessments, and examines the triumphs (yes) and failures of Russia's Soviet development within Russia's own cultural and historical context. Without ever minimizing the brutalities of the Soviet period-the state terror, the collectivizations, the labor camps, the deportations of whole peoples-Chubarov demonstrates

much continuity between tsarist and Soviet Russia, with the latter often repeating the former's mistakes. Russia, says Chubarov, cannot turn its back on its Soviet experience. Far from being a blind alley or aberrant phase, the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states.>

Russia and Western Civilization Russell Bova,2015-02-12 This volume introduces readers to an age-old question that has perplexed both Russians and Westerners. Is Russia the eastern flank of Europe? Or is it really the heartland of another civilization? In exploring this question, the authors present a sweeping survey of cultural, religious, political, and economic developments in Russia, especially over the nineteenth and twentieth centuries. Based on the inter-disciplinary Russian studies program at Dickinson College, this splendid collection will complement many curricula. The text features highlight boxes and selected illustrations. Each chapter ends with a glossary, study questions, and a reading list.

Russia's Economic Transitions Nicolas Spulber,2003-04-10 Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000. The first transition, under Tsarism, involved the partial break-up of the feudal framework of land ownership and the move toward capitalist relations. The second, following the Communist revolution of 1917, brought to power a system of state ownership and administration - a sui generis type of war-economy state capitalism - subjecting the economy's development to central commands. The third, started in the early 1990s and still unfolding, is aiming at reshaping the inherited economic fabric on the basis of private ownership. The three

transitions originated within different settings, but with a similar primary goal, namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development. The treatment's originality, impartiality and historical breadth have cogent economic, social and political relevance.

Toward the United Front John Riddell, 2011-10-14 The proceedings of the last Comintern congress in which Lenin participated, now at last available in English, reveals a Communist world movement grappling to reconcile the goal of unifying workers and colonial people in struggle with that of pressing forward to socialist revolution. The principle of national parties' autonomy strains against calls for more stringent centralisation. Debates range over the birth of Fascism, decay of the Versailles Treaty system, the rise of colonial revolution, and women's emancipation. Newly translated and richly annotated, the stenographic transcript of the month-long congress discloses a rich spectrum of viewpoints among delegates. Indispensable source material on early Communism is supplemented by an analytic introduction, detailed footnotes, more than 500 short biographies, glossary, chronology, and index.
