An Introduction to Visual Culture Nicholas Mirzoeff, 2023-07-19 In the fully rewritten third edition of this classic text, Nicholas Mirzoeff introduces visual culture as visual activism, or activating the visible. In this view, visual culture is a practice: a way of doing, making, and seeing. The 12 new chapters begin with five foundational concepts, including Indigenous ways of seeing, visual activism in the wake of slavery, and unfixing the gaze. The second section outlines three currently successful tactics of visual activism: removal of statues and monuments; restitution of cultural property; and practices of repair and reparations. The final section addresses catastrophe and trauma, from Palestine's Nakba to the climate disaster and the intersections of plague and war. Each section also includes new, in-depth case studies called Visualizations, ranging from oil painting to Kongo power figures and the mediated practice of taking a knee. Engaging with questions of racializing, colonialism, and undoing gender throughout, this edition maps the activist turn in the field since 2014 and sets directions for its future expansion. This is a key text in visual culture studies and an essential resource for research and teaching in the field.

**An Interpretive Introduction to Western Religions** Amir Sabzevary, 2022-04-26 This book is an antidote to contemporary philosophical, religious-spiritual markets and trappings. This book offers a rare and uncommon glimpse into the inner or esoteric dimensions of the three great Western religious traditions: Judaism, Christianity, and Islam. Using everyday language and examples, the book offers understandable accounts of some of the core and complex practices and teachings of these great traditions. *Narrating Violence in Post-9/11 Action Cinema* Berenike Jung,2010-09-08 This work discusses the way in which action movies have responded to the visual and narrative challenge of depicting terrorist violence after 9/11, when the spectacular representation of terrorist violence – and by extension the consumers of these imagers – was considered as complicit

behaviour. If terrorism is theatre, who goes to see the show? A close-reading of exemplary movies (V for Vendetta, Munich, and Children of Men) concentrates on three key aspects: How is terrorist violence justified, especially in comparison to other forms of violence? How is the audience implicitly positioned? And finally, what is the role and scope of the films' visual short-cuts, iconic "real" images such as those from the Abu Ghraib prison? The results reaffirm popular movies' power of working through traumatic events as well as their capacity to articulate a valid political critique. Instead of inventing or preceding real acts of violence, cinema can document, witness, and encourage the spectator to explore unorthodox viewing positions and moral dilemma. This interdisciplinary work is addressed to students of Philosophy, the Humanities, Cinema, American, or Cultural Studies as well as to the interested public.

**The Idea of Justice in Literature** Hiroshi Kabashima, Shing-I Liu, Christoph Luetge, Aurelio de Prada García, 2018-05-07 The theme arises from the legal-academic movement Law and Literature. This newly developed field should aim at two major goals, first, to investigate the meaning of law in a social context by questioning how the characters appearing in literary works understand and behave themselves to the law (law in literature), and second, to find out a theoretical solution of the methodological question whether and to what extent the legal text can be interpreted objectively in comparison with the question how literary works should be interpreted (law as literature). The subject of justice and injustice has been covered not only in treatises of law and philosophy, but also in many works of literature: On the one hand, poets and writers have been outraged at the social conditions of their time. On the other hand, some of them have also contributed fundamental reflections on the idea of justice itself.

*An Introduction to the Comparative Study of Private Law* James Gordley, Arthur Taylor von Mehren, 2006-07-06 This collection of readings sets out the two fundamental distinctions between common and civil law, namely that the former originated in the English courts, the latter in the Roman legal tradition, and that the common law is based on judicial decisions whereas codes form the basis of modern civil law. The core of the book consists of cases, statutes and code provisions shaping the doctrines central to the law of property, tort, contract and unjust enrichment in the United States, England, France and Germany. These materials provide a road map of the law of each, allowing the reader to consider how doctrines differ, how these differences emerged and whether the underlying problems and solutions are common to all. They also allow for comparison to be made between the approaches of common and civil law and to consider the extent to which they depend on the origin and nature of the law.

Introduction to The Night Agent Gilad James, PhD, *The Night Agent*, written by Matthew Quirk, is a fast-paced thriller that follows the story of Peter Sutherland, an FBI analyst who stumbles upon a conspiracy that puts the entire nation at risk. However, things take a dramatic turn when the informant ends up murdered, and Peter becomes the primary suspect. With the FBI hot on his trail, Peter must race against time to uncover the truth about the terrorist threat and clear his name before it's too late. *The Night Agent* is a suspenseful and gripping novel that explores the delicate balance between trust, betrayal, and patriotism. Through its intriguing plot and well-crafted characters, it raises important questions about the nature of power and the lengths people are willing to go to acquire it. Furthermore, it provides a realistic insight into the inner workings of the American government and its security

agencies. With its action-packed narrative, *The Night Agent* is a must-read for anyone who loves political thrillers and offers an engaging exploration of the darker side of human nature.

*Honoré De Balzac. Introduction to comedy. At the sign of the cat and racket. The Sceaux ball. The purse. The vendetta. La grenadière. A forsaken lady* Honoré de Balzac, 1915

*Introduction to Criminology* Frank E. Hagan, 2008 *Introduction to Criminology*, Sixth Edition is a comprehensive introduction to the study of criminology and includes one chapter on the criminal justice system. It aims to avoid an overly legal and crime control orientation and instead concentrates on the vital core of criminological theory--theory, method, and criminal behavior.
