Television Goes Digital Darcy Gerbarg, 2008-12-10 Television has become a ubiquitous part of our lives, and yet its impact continues to evolve at an extraordinary pace. The evolution of television from analog to digital technology has been underway for more than half a century. Today's digital technology is enabling a myriad of new entertainment possibilities. From jumbotrons in cyberspace to multi-dimensional viewing experiences, digital technology is changing television. Consequently, new advertising metrics that reflect the new viewer habits are emerging. The ability to capture a viewer's interactions changes the advertising proposition. Telephone and wireless companies are challenging the traditional mass media providers - broadcasters, cable and satellite companies - and they're all finding ways to deliver TV programming, video content and Internet offerings to large and small screens in the home and on the go. This volume showcases insights from industry insiders and researchers from a variety of disciplines. It explores the economic, cultural, technical, and policy implications of digital television, addressing such questions as: How will content be monetized in the future? What programming opportunities become possible with the advent of going digital? Will content still be king or will the conduits gain the upper hand? This book analyzes the digital television evolution: its impacts on the economics of the TV industry, its significance for content creation from Hollywood blockbusters to You Tube, the changing role of the consumer, and what's coming next to a theatre near you.

The Aesthetics of Nostalgia TV Alex Bevan, 2019-02-07 The Aesthetics of Nostalgia TV explores the aesthetic politics of nostalgia for 1950s and 60s America on contemporary television. Specifically, it looks at how nostalgic TV production design shapes and is shaped by larger historical discourses on gender and technological change, and America's perceived decline as a global power. Alex Bevan argues that the aesthetics of nostalgic TV tell stories of their own about historical decline and progress, and the place of the baby boomer television suburb in American national memory. She contests theories on nostalgia that see it as stagnating, regressive, or a reversion to outdated gender and racial politics, and the technophobic longing for a bygone era; and, instead, argues nostalgia is an important form of historical memory and vehicle for negotiating periods of historical transition. The book addresses how and why the shows construct the boomer era as a placeholder for gender, racial, technological, and declensionist discourses of the present. The book uses *Mad Men* (AMC, 2007-2015), *Ugly Betty* (ABC, 2006-2010), *Desperate Housewives* (ABC, 2004-2012), and film remakes of 1950s and 60s family sitcoms as

primary case studies.

Showdown Jed Babbin,Edward Timperlake,2013-02-05 Will the U.S. go to war with China over Taiwan or oil? Yes- bestselling authors Ed Timperlake and Jed Babbin say Chinese aggression is virtually inevitable and in their new book, *Showdown*, they address the threat of mainland China and Bush's promise to defend Taiwan - at any cost. *Showdown* offers indispensable strategies and tactics for the U.S. to respond to the Chinese military threat in this ongoing battle for democracy and freedom.

A Baby Boomer's Guide to Their Second Sixties Ryan Custer Amacher,2012-03-15 While this book was written for male Baby Boomers and their significant others, it also includes Boomer history and what lies ahead as we experience the decade of our own sixties. This story reviews our Boomer luck, recounts the great history of being a kid in the 1950s, and the great opportunities provided by improved education in the 1960s, not to ignore a seemingly mind expanding culture. Turning sixty is not for the faint hearted. There are issues ahead. The first thing we all face is taking care of aging parents or what the author refers to as helping your parents check out. Then there are our own Boomer health issues including cataracts and prostate cancer. You likely think there is nothing funny about these topics but the quirky economist author finds humor in all of our aging experiences. This book covers Boomer issues, all in the context of our Boomer culture. We Boomers thought we would be young forever. Maybe that is why it is so amusing. RYAN CUSTER AMACHER was born 52 days too early to be an "official" Baby Boomer, but he in no way ever considered himself a member of Tom Brokaw's "Greatest Generation." In this book, the author chronicles the good luck of the first sixty years of the Boomer experience and guides Boomers into the humorous, but sobering experience of their personal sixties. Amacher, an economist, has a BA degree from Ripon College and a PhD from the University of Virginia. He has been a professor at the University of Oklahoma, Economics Department Chair at Arizona State, Business Dean at Clemson University, and President of the University of Texas at Arlington where he is now a Professor of Economics. He has worked at the Pentagon, writing a market plan for the All-Volunteer Army, the Federal Trade Commission as a consultant, and the US Treasury, on the Law of The Sea negotiations.

Mind the Gap Graeme Codrington,2012-10-01 The way you parent, the clothes you buy, your relationships with your boss and your daughter, your attitude to money and sex, are, to an extraordinary extent, defined by the era into which you were born. Parents, the church, teachers and employers think they understand youngsters because they, too, were young once. But adults no longer live in the world that existed when they were teenagers. We may occupy the same space, home, classroom or office but we live in different worlds. And these worlds often collide. We've moved in one century from a 'built to last' to a 'throwaway' society. No wonder age differences are so vast. In this book you will discover your generation and

those of the people who make up your life. Once you understand what makes them, and you, tick, the 'gen gap' begins to shrink. Fasten your seatbelt for a generational roller coaster ride - you may never think the same way again! In this book you'll understand why: your boss insists on endless meetings and conferences; your 20-something student doesn't want a 50-something computer teacher; you're in your 40s but still trying to prove yourself to Mom and Dad; your teacher should be learning from you.

50 People Who Messed up the World Alexander Parker,Tim Richman,2017-11-09 Who would top your list of the fifty people who have done the most to make the modern world a worse place? 'I can't imagine how they whittled it down to just 50 people' - comedian Nik Rabinowitz 'A fantastic thought-provoking book that renews my appreciation for history. It reminds us how we got here and how we can avoid things getting worse' Mandla Shongwe, SAFM Lifestyle 'A fascinating, terrific read' Gareth Cliff, CliffCentral From despotic mass-murderers to sports cheats, and from corrupt politicians to truly dreadful celebrities, who has had the most damaging -- or vexatious -- impact in their particular sphere of modern life? This line-up of the very worst of the twentieth century and beyond includes the obvious candidates: those who have caused extraordinary damage through their murderous paranoia, brutal avarice, or demented self-regard -- Stalin, King Leopold, Idi Amin and the like. But murderous dictators aside, there are plenty of others who deserve recognition for their role in making the world a significantly more dangerous or, at the very least, more annoying place: terrorist Carlos the Jackal; Robert Oppenheimer, the man who gave the world the atomic bomb; notorious sports cheat Lance Armstrong; and the one and only President Donald Trump, who has of course succeeded in making the world both more annoying and more dangerous. This perfectly focused spotlight on infamy is illustrated throughout by award-winning political cartoonist Zapiro.

The Best Interface Is No Interface Golden Krishna,2015-01-31 Our love affair with the digital interface is out of control. We've embraced it in the boardroom, the bedroom, and the bathroom. Screens have taken over our lives. Most people spend over eight hours a day staring at a screen, and some "technological innovators" are hoping to grab even more of your eyeball time. You have screens in your pocket, in your car, on your appliances, and maybe even on your face. Average smartphone users check their phones 150 times a day, responding to the addictive buzz of Facebook or emails or Twitter. Are you sick? There's an app for that! Need to pray? There's an app for that! Dead? Well, there's an app for that, too! And most apps are intentionally addictive distractions that end up taking our attention away from things like family, friends, sleep, and oncoming traffic. There's a better way. In this book, innovator Golden Krishna challenges our world of nagging, screen-based bondage, and shows how we can build a technologically advanced world without digital interfaces. In his insightful, raw, and often hilarious criticism, Golden reveals fascinating ways to think beyond screens using three principles that lead to more meaningful innovation. Whether you're working in technology, or just wary of a gadget-filled future, you'll be enlightened and

entertained while discovering that the best interface is no interface.

THE OTHER SIDE OF THINGS & THE STRUGGLE AND HOPE FOR A BETTER WORLD Van Hugo,2024-11-11 I want my readers and audiences to know that this book is the rest of the last two books and also more about other subjects. After the publishing of the last two books, it has come to my attention that my work is not done because there are more situations that are going in Haiti and the world shortly after the fourth book was published. I wish some of the information were available to me few months before I publish the fourth book to include them on the fourth book. That is why the fifth book takes longer to publish due to some ongoing situation that is going in the world, particularly in Haiti. I know the title of the book may sound strange to some of you. Do not let the title of the book fools yo u because there is more going in the book than the title itself. I could not find any other title to give the fifth book because of the way it was design and write on a lot of subjects. Each part or chapter stands individually, but connect to each other to some degree. You will find out for yourself while reading the book.

Black Horizon James Grippando,2014-03-04 In Black Horizon, a riveting and timely thriller drawn from tomorrow's headlines, New York Times bestselling author James Grippando brings back popular Miami criminal defense attorney Jack Swyteck in an international case involving a devastating oil spill that pits him against his most villainous adversaries yet. Three summers after the Deepwater Horizon catastrophe, oil is again spewing into the ocean—from a drilling explosion in Cuban waters sixty miles off the Florida Keys, creating a politically complex and volatile situation. Representing an American woman whose Cuban husband was killed on the rig, Jack finds himself in dangerous waters when he discovers that his incendiary case may be lethally connected to his new wife Andi's undercover assignment for the FBI . . . and that the looming environmental catastrophe may have been no accident at all.

The Rise of the Global Nomad Jim Matthewman,2011-01-03 There is an urgent need for new thinking - a clear mind shift - in terms of leadership and people management as the focus of world recovery switches from US/Western best practices to

recovery and growth centred on developing and emerging markets. A cadre of global professional is appearing who will drive both the recovery and future growth of international organizations - The Global Nomad. The Rise of the Global Nomad explains how this new workforce is the engine room of the modern organization. Promoting recovery and driving growth by operating in the new markets. The global nomad, predominantly Generation Y, is characterised by a new set of principles and attitudes; embracing change, up for the challenge, they are not loyal to any one organization. Recognising that they are the key to unlocking the potential in these new markets, the author describes how organizations need to restructure and change their ideas to embrace the global nomad and maximise their power in the new economy.

Key Words in Religion, Media and Culture David Morgan, 2008-06-30 'From The Passion of the Christ to the presumed 'clash of civilizations', religion's role in culture is increasingly contested and mediated. *Key Words in Religion, Media, and Culture* is a welcome and interdisciplinary contribution that maps the territory for those who aim to make sense of it all. Highlighting the important concepts guiding state-of-the-art research into religion, media, and culture, this book is bound to become an important and frequently consulted resource among scholars both seasoned and new to the field.' -Lynn Schofield Clark 'David Morgan has assembled here a fine team of scholars to prove beyond a doubt that the intersections of religion, media, and culture constitute one of the most stimulating fields of inquiry around today...This highly useful and theoretically sophisticated text will likely assume 'ritual' status in this emergent field.' - Rosalind I. J. Hackett, University of Tennessee, US 'This volume is a major intervention in the literature on religion, media and culture. Drawing together leading international scholars, it offers a conceptual map of the field to which students, teachers and researchers will refer for many years to come. The publication of *Key Words in Religion, Media and Culture* is a significant moment in the formation of this area of study, and sets a standard for cross-disciplinary collaboration and theoretical and methodological sophistication for future work in this area to follow.' - Gordon Lynch, Birkbeck College, University of London, UK 'This book offers a range of refreshing essays on the relationships between media and religion. Its selected keywords open doors to understanding contemporary society. The cultural perspectives on mediation and religious practices give some illuminating and surprising analyses.' - Knut Lundby, University of Oslo, Norway

Advertising Today Warren Berger, 2001 Far more than a means of moving merchandise, advertising has become increasingly recognized not only as an art form in itself, but also as a defining element of popular culture. *Advertising Today* provides a thematic overview of the evolution of advertising around the world over the past 30 years, charting influences from the political and social upheavals of the 1960s to the revolution of the internet in the 1990s. Each chapter includes an intimate interview with a key figure in advertising - including Oliviero Toscani of the controversial Benetton campaigns, American-Express spokesperson Jerry Seinfeld, and John Hegarty of Bartle Boyle Hegarty, the creator of the world-famous Levis ads. In analysing specific advertisements, the book simultaneously acts as a history of global pop culture

and a record of the social, cultural and geo-political temperature changes that affect our image-saturated environment. Included are over 500 advertisements originally seen in a wide range of media: print, television, billboards, the internet and even very recent, so-called 'guerrilla' advertising, in which practically anything (pieces of fruit, sand dunes on a beach, pavements) can act as a surface for promoting a product.
