What's on Her Mind Allison Daminger, 2025-09-09 The mental labor that keeps families afloat—and why women do most of it Mothers and fathers use their time differently, with women spending roughly twice as many hours on family labor as men. But what about the gendered differences in the ways women and men think? *What's on Her Mind* provides an illuminating look at the cognitive labor that families depend on and reveals why this essential aspect of family life is disproportionately handled by women—even in couples that aspire to practice equality. While most accounts of household labor center on how people use their time, Allison Daminger focuses on a less visible and less easily quantifiable aspect of family life. She introduces readers to the concept of cognitive labor—anticipating, researching, deciding, and following up—and shows how women in different-gender couples do most of this critical work. She argues that cognitive labor has less to do with personality traits—for example, she's type A while he's laid-back—and more to do with learned skills that men and women deploy in distinct ways. Yet not all couples fall into the personality trap. Daminger looks at different-gender couples who achieve a more balanced cognitive allocation while also exploring how queer couples carve out unique relationships to the gender binary. Drawing on original, in-depth interviews with members of different- and same-gender couples, *What's on Her Mind* points to new ways of understanding the interplay between who we are as individuals and the cognitive work we do on behalf of our families.

The Search Stops Here Debbie Calvert, 2010-08-13 Entering the human race, we walk out into a world, searching for fulfillment. In our pursuit, we struggle with emotional insecurities and faulty relationships. Eventually we find ourselves in a society filled with broken people where many weary travelers are on the same endless quest for peace and well-being. In The Search Stops Here, the author gives details of her personal experiences with depression, anxiety, anger, and suicide. Sharing her journey toward restoration, she explores the root causes of defeat, aiding in figuring out our frustrations and our hurt. She addresses life issues such as control and expectations and provides practical and proven processes for an improved level of health and wholeness. Debbie Calvert insists that the damage of rejection can be repaired, the fight to conquer inferiority ended, and the pain of troubling emotions relieved. Tackling foundational beliefs, the author shows how thought processes affect our behaviors and strongly suggests the need of new "house rules." United Breaks Guitars Dave Carroll, 2012-05-15 Songwriter Dave Carroll wasn't the first person abused by an airline's customer service. But he was the first to show how one person, armed with creativity, some friends, \$150, and the Internet, could turn an entire industry upside down. United Airlines had broken Dave's guitar in checked luggage. After eight months of pestering the company for compensation, he turned to his best tool—songwriting—and vowed to create a YouTube video about the incident that he hoped would garner a million views in one year. Four days after its launching, the first million people had watched United Breaks Guitars. United stock went down 10 percent, shedding \$180 million in value; Dave appeared on outlets as diverse as CNN and The View. United relented. And throughout the business world, people began to realize that efficient but inhuman customer-service policies had an unseen cost—brand destruction by frustrated, creative, and socially connected customers. United Breaks Guitars has become a textbook example of the new relationship between companies and their customers, and has demonstrated the power of one voice in the age of social media. It has become a benchmark in the customer-service and music industries, as well as branding and social-media circles. Today, more than 150 million people are familiar with this story. In this book, you'll hear about how Dave developed the just do it philosophy that

made him the ideal man to take on a big corporation, what it felt like to be in the center of the media frenzy, and how he's taken his talents and become a sought-after songwriter and public speaker. And businesspeople will learn how companies should change their policies and address social-media uprisings. Since *United Breaks Guitars* emerged, nothing is the same—for consumers, for musicians, or for business. Whether you are a guitarist, a baggage handler, or a boardroom executive, this book will entertain you and remind you that we are all connected, that each of us matters, and that we all have a voice worth hearing.

Indoor Gardening for Beginners - Creating Your First Garden Indoors Dueep Jyot Singh, John Davidson, 2016-10-03
Table of Contents Introduction The Right Soil for Your Plants A Bit of Sand Wanted Right Now! Should I or Should I Not Buy Garden Potted Soil? No Heating/Sterilizing Pots, Pans, and Saucers... Proper Drainage Re-potting and Potting your Plants Conclusion Author Bio Publisher Introduction This book is for all the people who have always wished to have a garden of their own. But perhaps, due to lack of space outdoors, or maybe a lack of chance to get an opportunity to start gardening, they have not managed to start up on this soul satisfying activity, until now. Somewhere in the 1850s up to the 1900s, children were encouraged in schools to grow gardens under the close supervision of their teachers. That is because it was taken for granted that there was plenty of land outside, where gardening could be taught to the tiny tots, and thus, they could learn all about the delights of gardening outbuildings, at a very young age. For many of these children, gardening became a pleasant activity when they grew up, because they were so used to doing things in the garden, since childhood. But as time went by, and school curriculums changed, teachers began to concentrate more on teaching children ABC's and 123's, rather than encouraging them in outdoor activities. Outdoor activities began to be restricted only to physical training classes and exercises and gardening took a backseat. At home, these children probably did not learn anything about gardening, because their own family members did not have any interest in grubbing in the soil. In fact, even today, if a city child who has never been exposed to gardening is taken into a garden, given a trowel or three-pronged fork and told to dig in the mud, he might consider it to be a very messy business!
